4. Voice Assistants

Your TV includes built-in voice assistants, such as Alexa, allowing you to control the TV, search for content, and manage smart home devices using voice commands.

MAINTENANCE

1. Cleaning Your TV

To clean the screen, gently wipe it with a soft, dry microfiber cloth. For the TV frame and stand, use a soft, damp cloth. Avoid using harsh chemicals, abrasive materials, or direct spraying of liquids onto the screen.

2. Software Updates

Your Smart TV can receive software updates over the internet. It is recommended to enable automatic updates or periodically check for new software versions to ensure optimal performance and access to the latest features. Navigate to **Settings > Support > Software Update** to manage updates.

TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common solutions. For more detailed troubleshooting, consult the E-Manual accessible directly from your TV's menu.

- **No Power:** Ensure the power cable is securely connected to both the TV and a working electrical outlet. Try plugging another device into the same outlet to confirm it has power.
- **No Picture/Sound:** Verify that the correct input source is selected. Check all cable connections (HDMI, audio) between the TV and external devices. Restart connected devices.
- **Remote Control Not Working:** Ensure the remote's batteries are charged (for SolarCell Remote, ensure it's exposed to light for charging). Point the remote directly at the TV. If issues persist, try pairing the remote again (refer to the E-Manual for pairing instructions).
- **Network Connection Issues:** Check your router and modem. Restart them if necessary. For Wi-Fi, ensure the password is correct. For wired connections, check the Ethernet cable.
