

AIRHUG AIRHUG 01

AIRHUG 01 Bluetooth Speakerphone User Manual

Model: AIRHUG 01 | Brand: AIRHUG

1. INTRODUCTION

Thank you for choosing the AIRHUG 01 Bluetooth Speakerphone. This device is designed to provide crystal-clear audio for your conference calls and online meetings, featuring 360° voice pickup, advanced noise reduction, and versatile connectivity options. This manual will guide you through the setup, operation, and maintenance of your new speakerphone to ensure optimal performance.

The AIRHUG 01 Bluetooth Speakerphone, a compact and portable device for clear conference calls.

2. WHAT'S IN THE BOX

Please check the package contents to ensure all items are present:

- AIRHUG 01 Speakerphone
- USB-C Cable
- USB-A Cable
- Carry Bag
- User Manual

Package includes

Illustration of the AIRHUG 01 speakerphone and its included accessories: carry bag, speakerphone, user manual, USB-C cable, and USB-A cable.

3. PRODUCT OVERVIEW

The AIRHUG 01 speakerphone is equipped with advanced features to enhance your communication experience:

- **360° Voice Pickup:** Equipped with an upgraded full-duplex digital microphone, it can pick up voices within 6 ft, suitable for 4-6 person conference meetings.
- **Advanced Noise Reduction:** The multi-functional DSP chip with intelligent noise cancellation algorithms eliminates background noise (100Hz-24kHz) such as engine sounds, howling, and babble, increasing the SNR of conversation to more than 25dB.
- **Full Duplex Communication:** Ensures clear two-way sound even when both ends speak at the same time, preventing missed words in meetings.
- **Dual Connectivity:** Supports simultaneous Bluetooth and USB-C connections. Plug & Play for Windows, Mac OS, Android, and Linux systems.
- **Acoustic Reminders:** Provides audible signals for power on/off, Bluetooth connection, and linking mode.

- **Portable Design:** Pocket-sized and ultra-portable, making it easy to carry for home office, outdoor, or business travel use.

The AIRHUG 01 offers 360° sensitive voice pickup, covering a range of up to 20 feet, ideal for small to medium-sized meeting rooms.

Intelligent Voice Enhancement

The speakerphone's intelligent voice enhancement technology transforms jumbled sound into clear human speaking.

4. SETUP

4.1 Charging the Device

Before first use, fully charge the AIRHUG 01 speakerphone using the provided USB-C cable connected to a power source (e.g., computer USB port, wall adapter).

4.2 Connecting via USB-C (Plug & Play)

1. Connect the provided USB-C cable from the AIRHUG 01 speakerphone to an available USB-C port on your computer or device.
2. The speakerphone will be automatically recognized by your operating system (Windows, Mac OS, Linux, Android) as an audio input and output device.
3. Select "AIRHUG 01" as your microphone and speaker in your communication application settings (e.g., Zoom, Microsoft Teams, Skype).

4.3 Connecting via Bluetooth

1. Press and hold the Bluetooth button on the speakerphone until the indicator light flashes, indicating

pairing mode.

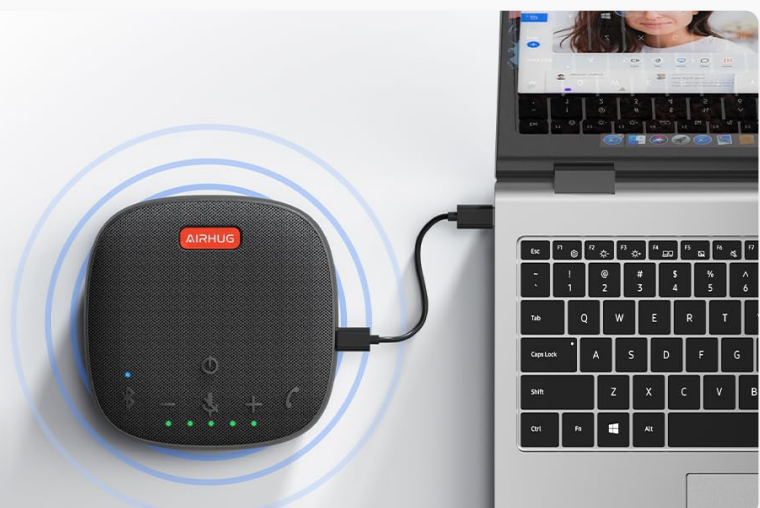

2. On your device (smartphone, tablet, laptop), go to Bluetooth settings and search for available devices.
3. Select "AIRHUG 01" from the list to pair. A successful connection will be confirmed by an acoustic signal reminder.
4. Ensure "AIRHUG 01" is selected as your audio device in your communication application.

The AIRHUG 01 offers instant setup via USB-C plug-and-play or quick Bluetooth pairing with your mobile device.

Bluetooth & USB-C

Connected Simultaneously

The AIRHUG 01 supports simultaneous connection via both Bluetooth and USB-C, allowing flexible use with multiple devices.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

Press and hold the power button to turn the speakerphone on or off. An acoustic signal will confirm the action.

5.2 Volume Control

Use the '+' and '-' buttons on the speakerphone to adjust the speaker volume during calls or media playback.

5.3 Mute Microphone

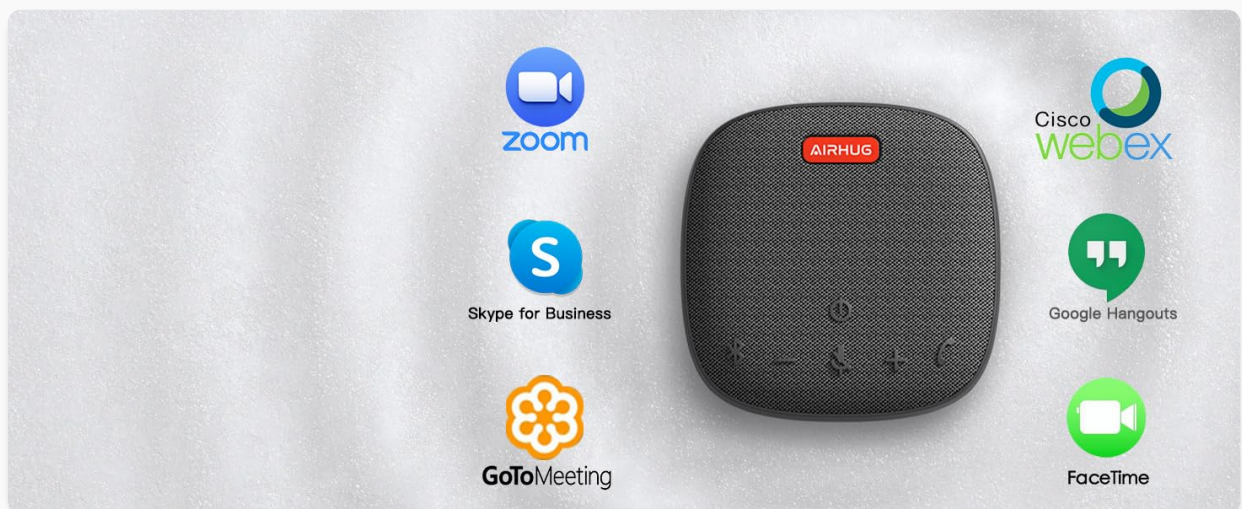

Press the microphone mute button to mute or unmute your microphone. The indicator light will change to show the mute status.

5.4 Call Management

Press the call button to answer or end a call when connected to a smartphone or compatible device.

5.5 Compatibility

The AIRHUG 01 is compatible with most online meeting applications, including Zoom, Skype, Microsoft Teams, Google Meet, Webex, and Facetime.

The AIRHUG 01 speakerphone is widely compatible with popular online meeting platforms such as Zoom, Skype, Microsoft Teams, Google Meet, Webex, and Facetime.

6. MAINTENANCE

To ensure the longevity and optimal performance of your AIRHUG 01 speakerphone:

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the speakerphone in its provided carry bag when not in use to protect it from dust and scratches.
- Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.
- Do not attempt to disassemble or repair the device yourself. Refer to qualified service personnel for

any issues.

The AIRHUG 01 features a portable design with dimensions of 3.9 x 3.9 x 0.98 inches and a weight of 9.5 ounces, making it easy to carry.

7. TROUBLESHOOTING

If you encounter issues with your AIRHUG 01 speakerphone, try the following steps:

7.1 No Sound / Microphone Not Working

- Ensure the speakerphone is powered on and fully charged.
- Check that the speakerphone is correctly selected as the audio input and output device in your computer's sound settings and your communication application (e.g., Zoom, Teams).
- Verify that the microphone is not muted on the speakerphone itself or within your software.
- If using Bluetooth, ensure the device is paired and connected. Try unpairing and re-pairing.
- If using USB, try connecting to a different USB port or using a different USB cable.

7.2 Bluetooth Connection Issues

- Ensure the speakerphone is in pairing mode (flashing indicator light).

- Make sure your device's Bluetooth is enabled and discoverable.
- Move the speakerphone closer to your device to ensure it's within range.
- Clear previous Bluetooth connections on both the speakerphone and your device, then attempt to pair again.

7.3 Poor Audio Quality / Echo

- Ensure the speakerphone is placed on a stable surface and not obstructed.
- Reduce background noise in your environment.
- Adjust the volume levels on both the speakerphone and your connected device.
- Ensure no other audio devices are interfering (e.g., laptop's built-in speakers).

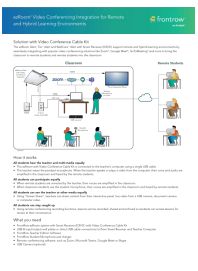

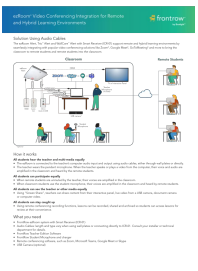

8. SPECIFICATIONS

Feature	Specification
Model Name	AIRHUG 01
Connectivity Technology	Bluetooth, USB
Connector Type	USB
Compatible Devices	Laptop, Desktop, Tablet, Smartphone
Product Dimensions	4.09 x 4.09 x 1.18 inches
Item Weight	6 ounces
Signal-to-Noise Ratio	65 dB
Noise Level	25 dB
Power Source	Corded Electric
Manufacturer	AIRHUG
UPC	794094899106
