Jiawu Blender Blade Assembly Instruction Manual

Model: Jiawu51p4mgwysv5702

1. PRODUCT OVERVIEW

The Jiawu Blender Blade Assembly is a premium replacement part designed for blenders. Crafted from food-grade stainless steel, this 6-fin extractor blade is engineered for durability and efficient blending, chopping, and grating. It is compatible with standard blender containers and aims to restore or enhance your blender's performance.

2. SAFETY INFORMATION

Please read and understand all safety instructions before installing or using the blender blade assembly.

- **Sharp Blades:** The blades are extremely sharp. Handle with extreme care to prevent injury. Always hold the blade assembly by its base, not by the blades.
- **Unplug Blender:** Always ensure your blender is unplugged from the power outlet before attempting to install, remove, or clean the blade assembly.
- **Proper Installation:** Ensure the blade assembly is securely fastened to the blender container before operation to prevent leaks or detachment.
- **Children and Pets:** Keep the blade assembly out of reach of children and pets.
- **Intended Use:** Use this blade assembly only for its intended purpose with compatible blenders and containers.

3. PACKAGE CONTENTS

Your package should contain the following item:

- 1 x Jiawu 6-Fin Blender Blade Assembly

4. INSTALLATION (SETUP)

Follow these steps to properly install the replacement blender blade assembly:

1. **Unplug the Blender:** Ensure the blender is completely unplugged from the power source.
2. **Remove Old Blade (if applicable):** If replacing an existing blade, carefully unscrew and remove the old blade assembly from the bottom of the blender container. Dispose of the old blade responsibly.
3. **Position New Blade:** Place the new Jiawu 6-fin blender blade assembly onto the base of your blender container. Ensure it sits flush and is aligned correctly.
4. **Secure the Blade:** Twist the blade assembly clockwise until it is tightly secured to the blender container. Do not overtighten, but ensure there is no looseness to prevent leaks during operation.

Image 4.2: An angled view of the blade assembly, illustrating its design for effective blending.

5. OPERATING INSTRUCTIONS

Once the blade assembly is securely installed, you can use your blender as usual. This 6-fin blade is designed for efficient processing of various ingredients.

1. **Add Ingredients:** Place your desired fruits, vegetables, liquids, or other ingredients into the blender container.
2. **Secure Lid:** Ensure the blender lid is properly secured before operating.
3. **Place on Base:** Carefully place the assembled container onto the blender motor base.
4. **Plug In and Blend:** Plug the blender into a power outlet and select your desired blending speed or program. The 6-fin design will efficiently chop, grate, and blend ingredients to a smooth consistency.
5. **Unplug After Use:** Always unplug the blender from the power outlet immediately after use.

6. CARE AND MAINTENANCE

Proper care will extend the life of your blade assembly.

- **Immediate Cleaning:** Clean the blade assembly immediately after each use to prevent food particles from drying and sticking.
- **Hand Washing:** Hand wash the blade assembly with warm, soapy water. Use a brush to safely clean around the blades. Exercise extreme caution due to sharp edges.
- **Rinsing:** Rinse thoroughly under running water.
- **Drying:** Allow the blade assembly to air dry completely before storing, or dry with a soft cloth.
- **Storage:** Store in a safe place where the blades cannot cause accidental injury.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Blade not spinning freely	Food debris lodged, motor issue, or incorrect installation.	Ensure the blender is unplugged. Clean the blade thoroughly. Re-install the blade assembly, ensuring it is securely tightened. If the issue persists, it may be a blender motor problem.
Leaking from the base of the container	Blade assembly not tightened sufficiently or seal is damaged.	Unplug the blender. Ensure the blade assembly is tightly screwed onto the container. Check the rubber gasket/seal for any damage or misalignment.

Problem	Possible Cause	Solution
Unusual noise during operation	Loose blade assembly or foreign object.	Unplug the blender. Check if the blade assembly is securely attached. Inspect for any foreign objects in the container or around the blade.

If you encounter issues not listed here or if solutions do not resolve the problem, please refer to the Warranty and Support section for assistance.

8. SPECIFICATIONS

Feature	Detail
Model Number	Jiawu51p4mgwysv5702
Blade Type	6-Fin Extractor Blade
Material	Food Grade Stainless Steel
Blade Size (Approx.)	7.7 x 5 cm (3.0 x 2.0 inches)
Item Weight	5 ounces
Compatibility	Compatible with standard blender containers (specific models not provided, refer to product listing for details)

9. WARRANTY AND SUPPORT

Jiawu is committed to customer satisfaction. If you encounter any issues with this blender blade assembly, please contact us directly. We guarantee a response within 24 hours and will provide a replacement or refund as appropriate.
