5. OPERATING AND POSEABILITY

The Mesogog figure boasts over 20 points of articulation, allowing for a wide range of poses. Experiment with different joint movements to recreate iconic scenes or invent new ones.

- **Head:** Articulated neck and jaw for expressive poses.
- **Shoulders, Elbows, Wrists:** Full range of motion for arm and hand positioning.
- **Torso:** Waist and chest articulation for dynamic upper body movement.
- **Hips, Knees, Ankles:** Articulated legs and feet for stable standing and action poses.

When posing, apply gentle, even pressure to avoid stressing the joints. The figure's design allows for stable standing in most dynamic poses, especially on flat surfaces.

6. CARE AND MAINTENANCE

To ensure the longevity and appearance of your Mesogog action figure, follow these care guidelines:

- **Cleaning:** Wipe the figure gently with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the figure away from direct sunlight, extreme temperatures, and high humidity to prevent discoloration or material degradation. Keep accessories in a safe place to avoid loss.
- **Handling:** Avoid excessive force when posing or attaching accessories, as this may damage the joints or break small parts.

7. TROUBLESHOOTING

If you encounter any issues with your Mesogog action figure, consider the following:

- **Loose Joints:** If a joint feels too loose, it may be possible to tighten it slightly by carefully applying a small

amount of clear nail polish or a specialized joint-tightening fluid to the joint, allowing it to dry completely before moving.

- **Difficulty Attaching Parts:** Ensure that pegs and holes are correctly aligned. If a part is stiff, gently warm it with warm (not hot) water or a hairdryer on a low setting for a few seconds to make the plastic more pliable.
- **Missing or Damaged Parts:** If any parts are missing or damaged upon arrival, please contact the manufacturer's customer support for assistance.
