Satechi ST-ADVSM

Satechi Dual Vertical Aluminum Stand

Model: ST-ADVSM

Introduction

The Satechi Dual Vertical Aluminum Stand is designed to optimize your workspace by securely holding your laptop, tablet, and smartphone in an upright position. This stand helps to free up valuable desk space while providing a sleek and modern aesthetic. Its robust aluminum construction and protective rubberized grip pads ensure your devices are held safely and without scratches.

What's Included

- Satechi Dual Vertical Aluminum Stand
- User Manual (this document)
- Customer Support Information

Setup

The Satechi Dual Vertical Aluminum Stand requires minimal setup. It is designed for immediate use out of the box.

1. **Unpack the Stand:** Carefully remove the stand from its packaging.
2. **Choose a Stable Surface:** Place the stand on a flat, stable, and level surface on your desk or workstation.
3. **Identify Slots:** The stand features two distinct slots:
    - One wider slot (up to 0.6 inches) for laptops.
    - One narrower slot (up to 0.4 inches) for tablets and smartphones.

Operating Instructions

Using the Satechi Dual Vertical Aluminum Stand is straightforward. Ensure your device fits within the specified slot widths to prevent damage or instability.

1. **Insert Device:** Gently slide your laptop, tablet, or smartphone into the appropriate vertical slot. The rubberized grip pads inside the slots will securely hold your device and protect it from scratches.
2. **Cable Management:** If using your laptop in clamshell mode or charging devices, route necessary cables (e.g., USB-C, power) through the open space at the bottom of the stand for a tidy setup.
3. **Optimal Placement:** Position the stand on your desk to maximize space and maintain an organized workstation.

Maintenance

To ensure the longevity and appearance of your Satechi Dual Vertical Aluminum Stand, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the stand with a soft, damp cloth. Avoid using abrasive cleaners or solvents, as they may damage the finish.
- **Dust Removal:** Regularly dust the stand to prevent accumulation, especially in the slots.
- **Inspect Pads:** Periodically check the rubberized grip pads for wear and tear. While durable, excessive friction or

sharp objects can damage them.

Troubleshooting

Issue	Possible Cause	Solution
Device does not fit in slot.	Device is too thick for the slot, or a protective case is adding too much bulk.	Ensure your device's thickness (including any case) is within the specified limits (0.6 inches for the wider slot, 0.4 inches for the narrower slot). Remove bulky cases if necessary.
Stand feels unstable.	Stand is on an uneven surface, or device is not properly seated.	Place the stand on a flat, stable surface. Ensure the device is fully inserted into the slot and resting against the rubberized pads. Avoid placing excessively heavy or unbalanced items in the stand.
Scratches on device after use.	Foreign particles in the slot, or damaged rubberized pads.	Clean the slots regularly to remove dust or debris. Inspect the rubberized pads for any damage; if severely worn, contact Satechi customer support.

Specifications

Feature	Detail
Product Dimensions	5 x 3.43 x 2.28 inches
Item Weight	10.8 ounces
Model Number	ST-ADVSM
Material	Aluminum with Rubberized Grip Pads
