

LIQUIPEL EMT-GW240U

Liquipel Powertek Dual USB-A Wall Charger User Manual

Brand: [LIQUIPEL](#) | Model: [EMT-GW240U](#)

1. INTRODUCTION

The Liquipel Powertek Dual USB-A Wall Charger is designed to provide efficient and convenient charging for your electronic devices. Its compact, foldable design makes it ideal for both home use and travel. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your charger.

Key Features:

- Dual USB-A Charge Ports for simultaneous charging of two devices.
- Folding Design with Beveled Edges for portability and safe storage.
- Compact and lightweight construction.
- Available in a range of pastel colors to suit your style.

5. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Liquipel Powertek Wall Charger, follow these simple maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, fold the prongs back into the charger body for compact storage. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts. Do not attempt to disassemble or modify the charger.

6. TROUBLESHOOTING

If you encounter any issues with your Liquipel Powertek Wall Charger, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charger not providing power.	Not securely plugged into outlet; faulty outlet; damaged cable.	Ensure charger is firmly plugged into the wall. Try a different outlet. Test with a different USB cable.
Slow charging.	Using a non-compatible cable; device drawing more power than supplied; multiple devices connected.	Use the original or a high-quality USB-A cable. Ensure your device is compatible with the charger's output. If charging two devices, charging speed may be slightly reduced.

Problem	Possible Cause	Solution
Charger feels warm.	Normal operation during charging.	It is normal for the charger to become warm during use. If it becomes excessively hot or emits smoke/odor, immediately unplug it and discontinue use.
