### Electric Height Adjustment

Your BANTI Electric Standing Desk features an electric lift system allowing you to adjust the desk height smoothly between **32.48 and 51.38 inches**. The control panel includes up/down buttons and memory presets for convenience.

- **Adjusting Height:** Use the ▲ (Up) and ▼ (Down) buttons on the control panel to raise or lower the desk to your desired height. Release the button to stop movement.
- **Setting Memory Presets:** The desk features **3 preset memory buttons (1, 2, 3)**. To save a height setting: Adjust the desk to your preferred height, then press and hold one of the memory buttons (1, 2, or 3) until you hear a beep or see the display flash, indicating the height is saved.
- **Using Memory Presets:** Press a saved memory button (1, 2, or 3) to automatically move the desk to the corresponding pre-set height.
- **Collision-Avoiding Feature:** The desk is equipped with a collision-avoiding system. If the desk encounters an obstruction during height adjustment, it will automatically stop and reverse slightly to prevent damage.

## Detachable and Lockable Casters

The desk comes with optional swivel casters that allow for easy mobility. These casters can rotate 360 degrees and include a locking mechanism.

- **Mobility:** When unlocked, the casters allow you to easily move the desk to different locations without lifting.
- **Stability:** Engage the locking mechanism on the casters to secure the desk in place and prevent unintended movement.

## MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your BANTI Electric Standing Desk.

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Cable Management:** Periodically check and organize cables to prevent tangles and ensure they do not interfere with the desk's movement.
- **Fasteners:** Occasionally check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Motor Inspection:** Listen for any unusual noises during height adjustment. If you notice any issues, unplug the desk and contact support.

## TROUBLESHOOTING

---

If you encounter any issues with your BANTI Electric Standing Desk, please refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
Desk does not move or respond to controls.	Power cable disconnected, control panel cable loose, motor error.	Check all cable connections. Ensure the power adapter is securely plugged into both the desk and the wall outlet. Try unplugging the desk for 2-5 minutes, then plug it back in.
Desk moves unevenly or makes unusual noises.	Overload, loose fasteners, obstruction.	Reduce weight on the desk. Check for any obstructions. Ensure all assembly fasteners are tight.
Desk stops during adjustment (Collision-Avoiding).	Obstruction detected.	Remove any objects that may be obstructing the desk's movement. The desk should resume normal operation.
Memory presets are not working.	Presets not saved correctly.	Re-save your desired height settings by adjusting the desk to the height, then pressing and holding the desired memory button until confirmed.
