Ariete 585 Modern Blender Instruction Manual

Model: 00C058502AR0

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the appliance and retain them for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the appliance is switched off and unplugged from the power outlet before assembling, disassembling, or cleaning.
- Do not immerse the motor base, cord, or plug in water or any other liquid.
- Keep hands and utensils out of the blender jar while blending to reduce the risk of severe injury to persons or damage to the blender. A scraper may be used but only when the blender is not running.
- Blades are sharp. Handle with care when cleaning.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not use outdoors.
- Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
- Always operate the blender with the lid securely in place.
- Do not blend hot liquids as this may cause pressure buildup and result in scalding. Allow hot ingredients to cool before blending.

2. PRODUCT COMPONENTS

The Ariete 585 Modern Blender consists of several key parts designed for efficient blending.

1. **Motor Base:** The main unit containing the 1000W motor and control dial.
2. **Glass Jar (1.5L capacity):** A durable, graduated glass container for blending ingredients.
3. **Blade Assembly:** Four stainless steel blades designed for effective mixing and crushing.
4. **Lid:** Secures the jar during operation, preventing spills.
5. **Measuring Cap:** A removable cap in the lid for adding ingredients during blending.

Image: Close-up of the Ariete 585 blender's 1.5L glass jar, showing the clear glass construction and visible measurement markings on the side.

3. SETUP AND ASSEMBLY

Before first use, ensure all packaging materials are removed and components are clean.

1. **Clean Components:** Wash the glass jar, lid, and measuring cap in warm soapy water. Rinse thoroughly and dry. The blade assembly can also be washed carefully.
2. **Assemble Blade:** Ensure the blade assembly is securely attached to the bottom of the glass jar.
3. **Place Jar on Base:** Position the assembled glass jar onto the motor base, ensuring it is seated correctly and locked into place (if applicable to your model).
4. **Connect Power:** Plug the power cord into a suitable electrical outlet.

4. OPERATING INSTRUCTIONS

The Ariete 585 Blender offers various settings for different blending needs.

Image: The Ariete 585 Modern Blender on a kitchen counter, surrounded by bowls of blended soups and dips, illustrating its use for various culinary preparations.

4.1 Basic Blending

1. **Add Ingredients:** Place your desired ingredients into the glass jar. Do not exceed the maximum fill line. For best results, add liquids first, then soft ingredients, and finally harder ingredients or ice.
2. **Secure Lid:** Place the lid firmly onto the jar and ensure the measuring cap is inserted.
3. **Select Speed:** Turn the control dial to one of the 4 available speed settings (1-4) to begin blending. Start with a lower speed and gradually increase if needed.
4. **Blend:** Allow the blender to run until desired consistency is achieved.
5. **Stop:** Turn the control dial back to the '0' (off) position. Unplug the appliance before removing the lid or jar.

Image: Close-up view of the Ariete 585 blender's control dial, showing the '0' (off), 'P' (pulse), and speed settings from 1 to 4.

4.2 Pulse Function

The pulse function (P) provides short bursts of power, ideal for chopping, coarse blending, or when you need more control over the consistency.

- Turn the control dial to the 'P' position and hold it for a few seconds. Release to stop.
- Repeat as necessary until the desired consistency is reached.

4.3 Ice Crushing

The Ariete 585 blender is equipped with a powerful motor and robust blades suitable for crushing ice.

- Add a moderate amount of ice cubes to the jar. Do not overfill.
- Use the 'P' (Pulse) function for short bursts to break down the ice. Alternatively, use speed setting 4.
- Continue until the ice is crushed to your desired consistency.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and extends the life of your blender.

1. **Unplug:** Always unplug the blender from the power outlet before cleaning.
2. **Disassemble:** Remove the glass jar from the motor base. Carefully detach the blade assembly from the bottom of the jar. Remove the lid and measuring cap.
3. **Wash Jar, Lid, Cap:** The glass jar, lid, and measuring cap are dishwasher safe. Alternatively, wash them in warm, soapy water, rinse thoroughly, and dry.
4. **Clean Blade Assembly:** Exercise extreme caution when cleaning the blades as they are very sharp. Use a brush to remove food residue. Rinse under running water.
5. **Clean Motor Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water or any other liquid. Do not use abrasive cleaners or scouring pads.
6. **Storage:** Reassemble the blender or store components separately once completely dry.

6. TROUBLESHOOTING

If you encounter issues with your Ariete 585 Blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; power outlet not working; jar not correctly seated on base.	Ensure the power cord is securely plugged into a working outlet. Check if the glass jar is properly aligned and locked onto the motor base.
Ingredients are not blending smoothly.	Too little liquid; too many ingredients; ingredients are too large or hard.	Add more liquid. Reduce the amount of ingredients. Cut larger ingredients into smaller pieces. Use the pulse function or a higher speed setting.
Blender stops during operation.	Overheating due to prolonged use or overloading.	Turn off and unplug the blender. Allow it to cool down for at least 15-20 minutes. Reduce the load before restarting.
Leaking from the bottom of the jar.	Blade assembly not tightened correctly; seal ring missing or damaged.	Ensure the blade assembly is securely tightened to the jar. Check if the seal ring is properly in place and undamaged. Replace if necessary.

7. SPECIFICATIONS

Technical details for the Ariete 585 Modern Blender.

Model Number: 00C058502AR0

Brand: Ariete

Power: 1000 Watts

Voltage: 220V

Capacity: 1.5 Liters (Glass Jar)

Speeds: 4 speeds + Pulse function

Blades: 4 Stainless Steel Blades

Special Features: Ice Crusher, Pulse Function, Anti-slip feet, Removable measuring cap

Material: Glass, Stainless Steel, Metal

Product Dimensions (L x W x H): 18.5 x 20.5 x 42 cm

Item Weight: 4 Kilograms

Dishwasher Safe Parts: Yes (Jar, Lid, Measuring Cap)

Country of Origin: China

8. WARRANTY AND SUPPORT

This product is covered by a manufacturer's warranty. For detailed warranty information, including terms, conditions, and duration, please refer to the warranty card included with your purchase or visit the official Ariete website.
