WINGBO SYCF5401

WINGBO 54 Inch DC Ceiling Fan with Lights and Remote Control User Manual

Brand: WINGBO | Model: SYCF5401

Introduction

This manual provides comprehensive instructions for the installation, operation, and maintenance of your WINGBO 54 Inch DC Ceiling Fan. Please read thoroughly before beginning installation or use to ensure proper function and safety.

The WINGBO 54 Inch DC Ceiling Fan features a modern design with 5 reversible carved wood blades, a 6-speed DC motor, and integrated LED lighting, presented here in a brass and white finish.

Product Features

- **Minimalist Style:** This 54-inch indoor ceiling fan features 5 powerful blades for enhanced home comfort, offering a sleek, minimalistic design that integrates seamlessly into modern environments. Its shapely, carved wood blades provide an ideal blend of style and function.
- **Solid Wood Blades:** The fan has a blade sweep diameter of 54 inches with a 12-degree blade pitch. Crafted from FSC-Certified solid wood, the blades ensure highly efficient and smooth air delivery, resisting warping from environmental conditions for a long product lifespan.
- **6 Speeds Dual-Direction Fan:** Operates with 6 forward and reverse speeds, easily adjustable with the included handheld remote. The reversible motor allows for effective cooling in summer and improved heat distribution in winter.
- **LED Light Kit & DC Motor:** Includes an integrated LED light source (24W, 3000K/4500K/6000K) that can be used independently of the fan. The energy-efficient DC motor provides cost savings and features a convenient wall holder for remote storage, utilizing advanced technology for exceptional energy efficiency.
- **Versatile Placement:** The 54-inch blade span makes this ceiling fan suitable for living rooms, bedrooms, or larger rooms, including damp locations. Two down rods (4.5 inches and 12 inches long) are included to accommodate different ceiling heights.

Detail of the fan's premium quality solid natural wood blades, designed for durability and efficient air movement.

Components

Your WINGBO Ceiling Fan package includes all necessary components for assembly and installation. Please verify all parts are present before beginning.

This video provides a detailed overview of the components included in the WINGBO Ceiling Fan package, essential for verifying contents before installation.

Installation Guide

1. Ensure power is turned off at the circuit breaker before beginning any electrical work.
2. Install the fan mounting bracket securely to the ceiling junction box.
3. Assemble the lighting fixture and attach it to the motor housing.
4. Attach the fan blades to the motor assembly.

5. Install the chosen downrod (4.5" or 12") to the motor assembly, ensuring all wires are properly routed.
6. Hang the motor assembly onto the mounting bracket.
7. Connect the electrical wires from the ceiling to the receiver module, and then from the receiver to the fan motor and light kit, following the wiring diagram.
8. Install the receiver module securely within the canopy.
9. Attach the canopy to cover the wiring and mounting bracket.
10. Install the light globe onto the lighting fixture.
11. Restore power and test the fan and light functions using the remote control.

Operating Instructions

Your WINGBO Ceiling Fan is operated via the included handheld remote control. Familiarize yourself with its functions for optimal use.

- **Fan Speed Control:** Use the numbered buttons (1-6) on the remote to adjust the fan speed. '1' is the lowest speed, and '6' is the highest.
- **Dual-Direction (Reversible Motor):** Press the reverse button on the remote to change the blade direction. Forward rotation (counter-clockwise) is ideal for summer to create a cooling breeze. Reverse rotation (clockwise) is ideal for winter to circulate warm air trapped near the ceiling.
- **LED Light Control:** Use the light button to turn the integrated LED light on/off. The remote also allows you to cycle through 3 color temperatures (3000K Warm Light, 4500K Natural Light, 6000K Day Light).
- **Timer Function:** Set the fan to automatically turn off after a specified period (1H, 2H, 4H, 8H) using the timer buttons on the remote.

The remote control provides easy access to all fan and light functions, including speed adjustment, direction change, and light temperature.

Understanding the 6-speed reversible function allows for optimal air circulation in both summer (forward direction) and winter (reverse direction).

Maintenance

Regular maintenance ensures the longevity and optimal performance of your WINGBO Ceiling Fan. Always turn off power before performing any maintenance.

- **Cleaning:** Periodically wipe down the fan blades and motor housing with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Blade Balance:** If the fan wobbles, check that all blade screws are tightened. If wobbling persists, a blade balancing kit may be required.
- **Noise Reduction:** Ensure all mounting screws and connections are secure. Loose parts can cause noise.

This video provides guidance on how to identify and fix common issues that may cause a ceiling fan to become noisy.

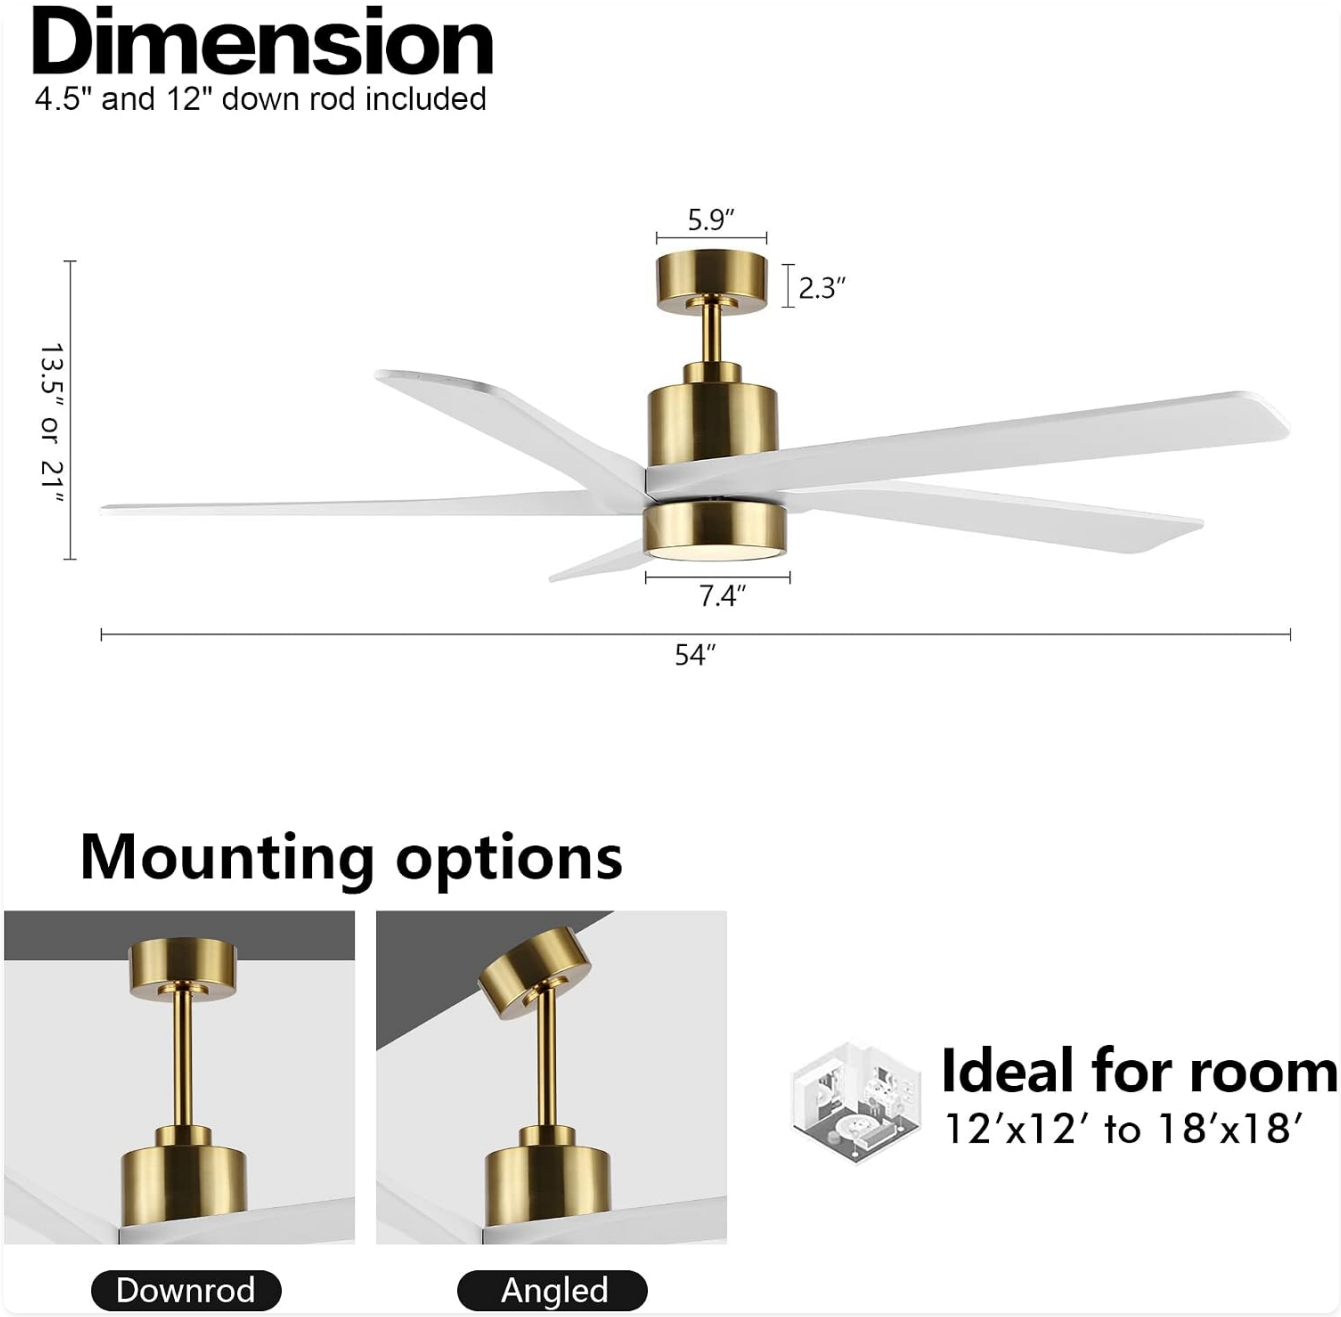

Troubleshooting

If you encounter issues with your WINGBO Ceiling Fan, refer to the following common troubleshooting tips:

- **Fan Does Not Operate:** Check the circuit breaker and wall switch. Ensure all wire connections are secure. Verify remote control batteries are functional.
- **Light Does Not Work:** Check the light switch on the remote. Ensure the light kit wiring is correctly connected.
- **Excessive Wobbling:** Confirm all blade screws and mounting bracket screws are tight. Ensure blades are not warped and are balanced.
- **Remote Control Issues:** Replace batteries. Ensure the receiver is not obstructed. Re-pair the remote with the fan if necessary (refer to specific pairing instructions in the full manual).

Specifications

Brand	WINGBO
Model Name	DC Ceiling Fan with Lights and Remote Control
Color	Brass and White
Product Dimensions	54"D x 54"W x 21"H
Item Weight	19.55 Pounds
Number of Blades	5
Blade Material	Wood
Power Source	DC
Wattage	24 watts (LED Light)
Control Method	Remote
Indoor/Outdoor Usage	Indoor (Suitable for damp places)
Certification	ETL Listed, FSC-Certified (Blades)
