### oneisall X2

# oneisall X2 Cat Clipper Instruction Manual

Model: X2

## 1. PRODUCT OVERVIEW

The oneisall X2 Cat Clipper is designed for efficient and quiet pet grooming, especially for cats with matted or thick hair. It features a low-noise motor, ceramic and titanium blades, and a long-lasting battery for cordless operation.

Image: The oneisall X2 Cat Clipper, a cordless grooming tool.

- **Quiet Operation:** Designed with a low-noise motor (less than 50 dB) to minimize pet anxiety during grooming.
- **Powerful Motor:** Two-speed settings (5500 rpm and 6000 rpm) for effective cutting through various hair types.
- **Durable Blades:** Ceramic and titanium blades offer sharpness and longevity, preventing rust and dullness.
- **Long Battery Life:** 3-hour charge provides up to 300 minutes of cordless use, with an LCD display for battery status.
- **Complete Grooming Kit:** Includes 6 guide combs (3mm, 6mm, 9mm, 12mm, 15mm, 18mm), cleaning brush, maintenance oil, and scissors.

## 2. SAFETY INFORMATION

- Avoid contact with eyes and face.
- Prevent your pet from ingesting or inhaling small parts.
- Clean the device thoroughly after each use.
- This product must be used under adult supervision.
- Always handle blades with care to prevent injury.
- Do not immerse the clipper in water.

## 3. SETUP AND CHARGING

Before first use, ensure the clipper is fully charged. The LCD display will indicate the charging status.

1. **Charge the Clipper:** Connect the clipper to a power source using the provided USB cable. Charge for 3 hours before the first use. The LCD screen will show battery percentage.
2. **Attach the Blade:** Ensure the ceramic and titanium blade is securely screwed onto the clipper.
3. **Select Guide Comb (Optional):** Choose the desired guide comb (3mm, 6mm, 9mm, 12mm, 15mm, or 18mm) and attach it firmly to the blade for specific hair lengths.

## 4. OPERATING INSTRUCTIONS

Follow these steps for effective and safe grooming of your pet.

- 1. Prepare Your Pet:** Ensure your pet is calm and comfortable. Brush their fur to remove loose hair and tangles before clipping.

- 2. Turn On and Select Speed:** Press the power button to turn on the clipper. Select the desired speed (5500 rpm or 6000 rpm) using the speed adjustment switch.
- 3. Begin Clipping:** Guide the clipper smoothly over your pet's fur.
  - Trim along the cat's back hair.
  - Carefully trim the cat's tail hair.
  - Trim the cat's belly hair, being mindful of sensitive areas.
  - Trim the hair around the cat's hindquarters.
  - Trim the hair on the cat's legs and paws.
  - Consider creating a "lion-cut" style if desired, by leaving fur on the head, paws, and tail tip.

**4. Observe Pet's Reaction:** If your pet shows signs of distress, take a break and resume when they are calmer. The low noise design helps reduce anxiety.

**5. Cordless or Corded Use:** The clipper can be used wirelessly after charging or while connected to the power supply.

## 5. MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and performance of your clipper.

- Clean After Each Use:** Use the provided cleaning brush to remove hair from the blades and inside the clipper head.
- Oil the Blades:** Apply a few drops of the maintenance oil to the blades after cleaning to keep them lubricated and sharp.
- Store Properly:** Store the clipper in a dry, safe place away from children and pets.
- Detachable Blade:** The ceramic blade is detachable for easy cleaning and replacement.

## 6. TROUBLESHOOTING

If you encounter issues with your oneisall X2 Cat Clipper, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Clipper not turning on	Low battery or not charged	Charge the clipper for 3 hours. Check the LCD display for battery level.
Clipper pulling hair or cutting poorly	Blades are dull, dirty, or not properly oiled	Clean the blades thoroughly and apply maintenance oil. Ensure blades are securely attached. Consider replacing blades if dull.
Excessive noise or vibration	Hair caught in the motor or loose blade	Turn off the clipper and carefully remove any trapped hair. Ensure the blade is securely attached.
Clipper not holding a charge	Battery degradation	Contact customer support for assistance or battery replacement options.
