3. SETUP AND INSTALLATION

Follow these steps to set up your TELESIN POV Magnetic Quick Release Neck Mount:

1. **Attach the Magnetic Adapter to your Camera:** Unscrew the magnet adapter from the neck mount. Align the two holes on the magnet adapter with the mounting points on your GoPro or action camera, then screw them together securely.
2. **Prepare the Neck Mount:** Press the quick-release button on the neck mount to open it.
3. **Wear the Neck Mount:** Place the neck mount around your neck. Ensure the TELESIN logo faces forward. Gently press the two ends together until they click and lock automatically.
4. **Attach Camera/Smartphone:**
 - **For Action Cameras:** Align the camera (with the attached magnet adapter) to the magnetic interface on the neck mount. It will snap into place securely.
 - **For Smartphones:** Attach the smartphone clamp to the magnetic interface on the neck mount. Then, insert your smartphone into the clamp.
5. **Adjust Angle:** The mount allows for 90-degree rotation and multi-angle shooting. Adjust the camera to your desired POV angle.

4. OPERATING INSTRUCTIONS

The TELESIN POV Magnetic Quick Release Neck Mount is designed for intuitive use:

- **Capturing POV Footage:** Once your camera or smartphone is securely attached and positioned, simply start recording on your device to capture hands-free, first-person perspective videos.
- **Horizontal and Vertical Shooting:** The included central vertical shooting adapter allows for both horizontal and vertical video capture, adapting to your content needs.
- **Quick Release:** To remove the mount, press the quick-release button and separate the two ends. To detach the camera, turn it 90 degrees and pull it off the magnetic interface.

5. FEATURES

- **Magnetic Quick Release:** The new magnetic attachment interface allows for rapid and secure attachment and detachment of your camera or smartphone.
- **Ergonomic Design:** Made from high-quality food-grade silicone, the neck strap is soft, breathable, and comfortable for extended wear, preventing neck fatigue.
- **Durable and Flexible:** The internal structure features a stainless steel tube and aluminum alloy layer, making it rust-resistant, highly flexible, and bendable at multiple angles without breaking.
- **Versatile Mounting:** The flexible collar design allows for creative mounting options beyond just wearing it around your neck, such as hanging it on trees or attaching it to selfie sticks and fishing rods.

- **Lightweight and Portable:** Its ultra-lightweight design and ability to be freely bent make it convenient for storage and transport.

6. COMPATIBILITY

The TELESIN POV Magnetic Quick Release Neck Mount offers wide compatibility with a variety of devices:

- **Action Cameras:** Compatible with GoPro (Max Hero 13, Hero 12, Hero 11, Hero 10, Hero 9, Hero 8, Hero 7, Hero 6, Hero 5 Black, Hero 4, Hero 3 + Fusion Session), DJI (Osmo Action 2 Pocket 2, Osmo Action 3/4/5 PRO Action 6), Insta360 (One R, One X2, X3, X4, X5, Go2), and other wearable cameras from brands like Dragon Touch, APEMAN, AKASO, Crosstour, XiaoYi, Sony, Apexcam, VEMONT, AKAIRIO.
- **Smartphones:** Compatible with various smartphones including iOS (iPhone 13 Plus Max, iPhone 13, iPhone 12, iPhone 11 XR) and Android (Samsung S10/S9 and similar models).

7. MAINTENANCE

To ensure the longevity and optimal performance of your neck mount:

- **Cleaning:** The silicone material is washable with water. Clean regularly to remove sweat or dirt.
- **Storage:** Store the neck mount in a cool, dry place away from direct sunlight when not in use. Its flexible design allows for convenient storage.
- **Avoid Force:** Do not apply excessive force when assembling or disassembling components to prevent damage.

8. TROUBLESHOOTING

If you encounter any issues with your TELESIN POV Magnetic Quick Release Neck Mount, consider the following:

- **Mount Not Locking:** Ensure the two ends of the neck mount are properly aligned and gently pressed until you hear a click. Check for any obstructions.
- **Camera Not Attaching Securely:** Verify that the magnet adapter is correctly screwed into your camera and that the magnetic surfaces on both the adapter and the neck mount are clean and free of debris.
- **Stability Issues:** Ensure all screws are tightened. While the mount is designed for stability, vigorous activities may still cause slight movement. For optimal stability during high-impact activities, consider additional camera stabilization.

If problems persist, please refer to the warranty and support section for contact information.
