SHA CERLIN 14-Inch King Size Metal Platform Bed Frame User Manual

Model: AK-JHH006

Brand: SHA CERLIN

1. INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your SHA CERLIN 14-Inch King Size Metal Platform Bed Frame. This bed frame features a sturdy metal structure, a stylish wooden headboard and footboard in a walnut finish, and ample under-bed storage. Designed for comfort and durability, it eliminates the need for a box spring.

Please read these instructions carefully before beginning assembly and retain them for future reference.

2. IMPORTANT SAFETY INFORMATION

CAUTION: Ensure correct installation of head and tail bars. Check label direction is 'UP' and exposed, and verify the wood board is on the correct side. Incorrect installation may lead to instability or injury. If difficulties arise, contact us for installation assistance.

- Keep all parts and packaging materials away from children.
- Assemble the bed frame on a soft, clean surface to prevent scratches.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as needed.
- Do not exceed the maximum weight capacity of 800 pounds.
- Avoid standing or jumping on the bed frame during assembly or without a mattress in place.

5. SETUP AND ASSEMBLY

The SHA CERLIN bed frame is designed for easy assembly, typically taking about 30 minutes for an adult. All necessary tools and hardware are included in the package. Please follow the detailed step-by-step instructions provided in the separate assembly guide included with your product.

Key Assembly Features:

- **Pre-assembled Components:** Major sections like the headboard and footboard come largely pre-assembled, simplifying the process.
- **Numbered Parts:** All parts are clearly labeled to match the assembly instructions.
- **Secure Connections:** The frame utilizes bolts with washers and lock washers for a secure and stable construction.

6. OPERATING AND USE

Mattress Placement:

This platform bed frame is designed to support your mattress directly, eliminating the need for a box spring. The metal slats provide robust support for various mattress types, including memory foam, latex, or spring mattresses.

- Recommended mattress height: 10" to 14" for optimal aesthetic and comfort.
- The bed end features an embedded design to prevent the mattress from slipping.

Under-Bed Storage:

Benefit from the generous 12-inch clearance beneath the bed frame, providing ample space for storage. This is ideal for storing seasonal items, luggage, or storage bins, helping to keep your room tidy and organized.

7. MAINTENANCE AND CARE

- **Cleaning:** Wipe the metal frame and wooden surfaces with a dry cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten if any looseness is detected to maintain stability and prevent noise.
- **Protective Pads:** The bed frame is equipped with plastic foot plugs to prevent scratching your floors. Ensure these remain intact.

NOISE-FREE DESIGN

8. TROUBLESHOOTING

Common Issues and Solutions:

- **Squeaking Noises:** Ensure all bolts are securely tightened. The frame includes non-slip strips and EVA sponge to minimize noise. If squeaking persists, re-check all connections and ensure the mattress is properly seated.
- **Instability/Wobbling:** Verify that all legs are evenly placed on the floor and all connections are tight. Ensure the bed frame is assembled on a flat, level surface.
- **Mattress Sliding:** The bed frame features an embedded design to help keep the mattress in place. If sliding occurs, ensure the mattress is correctly positioned within the frame's edges.
