VASAGLE LCR101B02

VASAGLE Wall Mounted Coat Rack with Shelf

Model: LCR101B02

1. Important Safety Information

Please read these instructions carefully before assembly and use. Keep this manual for future reference.

- Always mount the product on a solid wall. If mounting to a plasterboard wall, special screws suitable for plasterboard must be purchased separately from a specialist store to ensure stability and safety.
- Do not exceed the maximum static load capacities: shelf (16 kg), each hook (4 kg), clothes rail (20 kg). Overloading can cause damage or injury.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Use appropriate tools for assembly as specified in the detailed instructions.

2. Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

4. Setup and Assembly

The VASAGLE Wall Mounted Coat Rack is designed for straightforward assembly. Follow the detailed instructions provided in the accessory pack. All parts are clearly marked for easy identification.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble Frame:** Follow the diagrams in the included instruction manual to connect the steel frame components using the provided screws.
3. **Attach Shelf and Hook Boards:** Secure the chipboard shelf and the hook boards to the assembled frame. Ensure all connections are firm.
4. **Install Hooks:** Attach the 10 removable hooks to the hook boards. These hooks can be adjusted in position to suit your needs.
5. **Wall Mounting Preparation:**
    - Identify a suitable location on a solid wall.
    - Mark the drilling points accurately using the assembled unit as a template.
    - Drill holes at the marked positions. For solid walls, use the provided wall anchors. For plasterboard walls, you must use specialized plasterboard anchors (not included).
6. **Mount to Wall:** Securely attach the coat rack to the wall using the appropriate screws and anchors. Ensure it is level and stable before placing any items on it.

5. Operating Instructions

The VASAGLE Wall Mounted Coat Rack with Shelf offers versatile storage solutions for your entryway, bedroom, or bathroom.

- **Top Shelf:** Use the top shelf for displaying decorative items, storing small boxes, or placing frequently used items like keys and wallets. Ensure items do not exceed the 16 kg weight limit.

- **Removable Hooks:** The 10 removable hooks are designed for hanging coats, hats, scarves, bags, and other accessories. They can be easily repositioned along the hook boards to accommodate items of various sizes and to optimize space. Each hook supports up to 4 kg.
- **Clothes Rail:** The integrated clothes rail is suitable for hanging garments on hangers, such as jackets, shirts, or dresses. The rail has a maximum load capacity of 20 kg.

Image 3: The main product image showcasing the coat rack in active use. It displays a jacket hanging from the rail, a hat and umbrella on the hooks, and a framed picture and potted plant on the top shelf, illustrating its multi-functional design.

6. Maintenance

Proper care will ensure the longevity and appearance of your VASAGLE Wall Mounted Coat Rack.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that could damage the finish of the chipboard or steel.
- **Dusting:** Regularly dust the shelf and metal components with a dry, soft cloth.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain

stability.

- **Avoid Moisture:** While suitable for bathrooms, avoid prolonged exposure to excessive moisture to prevent damage to the chipboard. Wipe up any spills immediately.

7. Troubleshooting

If you encounter any issues with your coat rack, refer to the following common solutions:

- **Instability after Mounting:**
  - Ensure all wall mounting screws are fully tightened.
  - Verify that the correct type of wall anchors were used for your wall material (solid wall vs. plasterboard). If mounted on plasterboard without specialized anchors, the unit may not be secure.
  - Check if the wall itself is structurally sound enough to support the unit and its intended load.
- **Hooks Sliding or Not Holding:**
  - Ensure items hung on hooks do not exceed the 4 kg per hook weight limit.
  - Verify that the hooks are correctly seated on the hook boards.
- **Unit Sagging or Bending:**
  - Immediately remove items and check if the total weight on the shelf (16 kg), clothes rail (20 kg), or individual hooks (4 kg) has been exceeded.
  - Re-examine the wall mounting for any signs of loosening or damage to the wall.
