Your guide to clean and healthy air.

## 1. INTRODUCTION

---

The Pure Enrichment PureZone Turbo Smart Air Purifier is designed to provide comprehensive air purification for large and medium-sized rooms. This advanced system utilizes a 5-stage filtration process to effectively clean the air, removing various airborne particles and odors. It also features smart technology for convenient control and monitoring.

## 2. SETUP

Follow these steps to set up your PureZone Turbo Smart Air Purifier:

1. **Unpack the Unit:** Carefully remove the air purifier from its packaging.
2. **Remove Filter Packaging:** Locate the filter compartment, typically at the base or rear of the unit. Open the compartment and remove any protective plastic packaging from the filters. Ensure all filters are properly seated.
3. **Close Compartment:** Securely close the filter compartment cover.
4. **Placement:** Place the air purifier on a flat, stable surface in the desired room, ensuring adequate space around the air intake and outlet for optimal airflow.
5. **Power Connection:** Plug the power cord into a standard electrical outlet.

## 3. OPERATING INSTRUCTIONS

The PureZone Turbo features an intuitive control panel and smart technology for ease of use.

## 4. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your air purifier.

### 4.1 5-Stage Filtration System

- **Stage 1: Washable Pre-Filter:** Captures large particles like dust, pet hair, and lint. This filter can be washed and reused.
- **Stage 2: Antibacterial Filter:** Special coating inhibits bacterial growth and prolongs the filter's life.
- **Stage 3: H13 True HEPA Filter:** Traps smaller allergens, smoke from tobacco and wildfires, mold spores, and dander.
- **Stage 4: Activated Carbon Filter:** Absorbs smoke, household odors, and harmful gases.
- **Stage 5: Antimicrobial UV-C Light:** Reduces viruses, germs, and bacteria.

# 5-Stage Air Purification

Captures 99.97% of dust and allergens,  
and eliminates up to 99.9% of viruses and bacteria\*\*

## 4.2 Filter Replacement

The PM2.5 display and filter reset indicator will alert you when it's time to replace the filters. Refer to the full user manual for specific instructions on how to replace each filter component.

## 4.3 Cleaning

The washable pre-filter should be cleaned regularly. Gently remove it and rinse under running water. Ensure it is completely dry before reinserting. Wipe the exterior of the unit with a soft, dry cloth as needed.

## 5. TROUBLESHOOTING

If you encounter issues with your PureZone Turbo, consider the following general troubleshooting steps:

- **Unit Not Powering On:** Ensure the power cord is securely plugged into a working electrical outlet.
- **Reduced Airflow/Effectiveness:** Check if the filters are dirty and require cleaning or replacement. Ensure all filter packaging has been removed.
- **Unusual Noise:** Verify that all filters are correctly installed and the unit is on a stable surface.
- **Filter Indicator Remains On After Replacement:** Press and hold the filter reset button (as indicated on the control panel) for a few seconds to reset the indicator.

For more detailed troubleshooting or persistent issues, please refer to the complete user manual or contact customer support.
