usamjtable MJ-BST Automatic Mahjong Table

Folding Automatic Mahjong Table User Manual

Brand: usamjtable | Model: MJ-BST Automatic Mahjong Table

PRODUCT OVERVIEW

The MJ-BST Automatic Mahjong Table is designed to enhance your Mahjong experience by automating tile shuffling and wall building. This foldable pedestal-style table is suitable for various Mahjong styles, including Chinese, Philippine, and American, by allowing mode switching. It comes with two sets of magnetic tiles and a built-in hard table cover for protection and versatility.

Image: Four wooden Mahjong tile racks, designed to hold tiles during gameplay.

SETUP INSTRUCTIONS

The MJ-BST table features a pedestal folding style for convenient setup. While assembly is generally straightforward, it may require two people due to the table's weight (approximately 210 pounds). Refer to the diagrams below for visual guidance.

1. Carefully unbox all components, ensuring all parts listed in "What's Included" are present.

2. Attach the main table unit to the pedestal base. Ensure proper alignment before securing.
3. Once assembled, carefully lift the table upright. It is recommended to have at least two individuals for this step.
4. Place the hard table cover on top when not in use for Mahjong, or to convert it into a regular table.

OPERATING INSTRUCTIONS

The MJ-BST table simplifies Mahjong gameplay with its automatic shuffling feature. Follow these steps to operate your table:

1. **Power On:** Connect the 5-foot long 110v cable to a power outlet.
2. **Load Tiles:** Place the magnetic Mahjong tiles into the designated slots on the table.
3. **Select Mode:** The table supports different Mahjong styles (Chinese, Philippine, American). Switch modes on the table to match your game of choice. For American style Mahjong, ensure the table is set to the appropriate mode (e.g., code 20 as mentioned in a review).

4. **Start Shuffling:** Press the start button (often indicated by a dice icon or similar control) to initiate the automatic shuffling process. The table will shuffle tiles and build walls within approximately three seconds.
5. **Rolling Dice:** Use the built-in dice roller to determine the start of play.
6. **Folding for Storage:** The table can be folded to a 90-degree angle for more compact storage when not in use.

MAINTENANCE

To ensure the longevity and optimal performance of your MJ-BST Automatic Mahjong Table, follow these maintenance guidelines:

- Keep the table clean and free of dust and debris. Use a soft, dry cloth for cleaning surfaces.
- Only use the magnetic tiles provided with the table. Avoid using non-magnetic chips or other foreign objects, as they may cause sticking issues or damage the internal mechanism.
- Store the table in a dry environment, away from extreme temperatures or direct sunlight.
- When folding the table for storage, ensure all components are securely locked in place to prevent accidental damage.

TROUBLESHOOTING

If you encounter any issues with your MJ-BST Automatic Mahjong Table, consider the following common solutions:

Problem	Possible Cause	Solution
Tiles are not shuffling or getting stuck.	• Incorrect tile type (non-magnetic). • Foreign objects inside the mechanism. • Table mode not set correctly for tile size/game type.	• Ensure only the provided magnetic tiles are used. • Inspect the tile loading area for any obstructions and remove them. • Verify the table's mode setting matches the tiles and game being played.
Digital dice not working or inconsistent.	• Power issue. • Sensor obstruction.	• Ensure the table is properly powered. • Clean the dice rolling area and ensure no debris is blocking sensors.
Table does not power on.	• Power cable not securely connected. • Power outlet issue.	• Check that the power cable is firmly plugged into both the table and the wall outlet. • Test the outlet with another device to confirm it is functional.

If issues persist, please contact customer support.

SPECIFICATIONS
