## SONGMICS ULMR12B

# SONGMICS 12-Tier Metal Shoe Rack Instruction Manual

Model: ULMR12B

## PRODUCT OVERVIEW

The SONGMICS 12-Tier Metal Shoe Rack (Model ULMR12B) is a versatile and robust storage solution designed to organize a large collection of footwear. Constructed from durable metal, this shoe organizer offers customizable configurations to fit various spaces and needs, whether in a garage, entryway, or closet. Its thoughtful design accommodates different shoe types, from flats to tall boots, ensuring your footwear remains tidy and accessible.

## **SAFETY INFORMATION**

---

**Important: For safety, please install the anti-tipping kit if you stack several racks together. Always ensure the rack is stable on an even surface.**

# Flat, or Angled

You can adjust the shelves to meet your needs.

## SETUP AND ASSEMBLY

Assembly of the SONGMICS 12-Tier Shoe Rack is designed to be straightforward with step-by-step instructions and labeled parts. An accessory kit is included to assist with the process.

### Assembly Options:

- **Stacked Configuration:** Assemble both 6-tier units on top of each other to create a single 12-tier rack, ideal for maximizing vertical storage.
- **Separate Configuration:** Use the two 6-tier units independently in different rooms or areas, providing flexible storage solutions.
- **Adjustable Shelves:** Shelves can be assembled either flat or at an angle to suit your preference and shoe type, allowing for easier access.
- **Tall Boots Accommodation:** For taller footwear like boots, one or more shelves can be omitted during assembly to create larger vertical spaces.

For detailed visual instructions, please refer to the official installation manual available as a PDF document. A video demonstrating the assembly process is also provided below.

## OPERATING AND USAGE

The SONGMICS shoe rack is designed for efficient and convenient shoe storage. Its open design allows for easy access and visibility of your footwear.

### Key Features:

- **Large Capacity:** With dimensions of 12.1"D x 36.4"W x 87.8"H, this rack can comfortably hold 60 pairs of women's shoes or 48 pairs of men's shoes.
- **Sturdy Construction:** Made with a strong metal frame and dense mesh shelves, each shelf can support up to 22 lb, ensuring stability for various shoe types.
- **Adjustable Feet:** Equipped with adjustable feet, the rack remains stable even on uneven floor surfaces.

## MAINTENANCE

---

To maintain the appearance and longevity of your SONGMICS shoe rack, simply wipe it with a dry cloth as needed. Avoid using harsh chemicals or abrasive cleaners that could damage the metal finish.

## TROUBLESHOOTING

---

- **Wobbling Rack:** Ensure all screws are tightened securely. Use the adjustable feet at the base to level the rack on uneven floors. If stacked, confirm the plastic connectors are properly engaged and consider using the anti-tip kit.
- **Shoes Sliding Off:** If shelves are angled, ensure the front lip is correctly positioned to prevent shoes from sliding. For flat shelves, verify they are installed correctly.
- **Difficulty Assembling:** Double-check that all parts are correctly identified using the labeled components and refer to the step-by-step instructions provided in the manual.
