

## Polardo SPC-01

# Polardo Portable Travel Garment Steamer (Model SPC-01) User Manual

## 1. INTRODUCTION

Thank you for choosing the Polardo Portable Travel Garment Steamer, Model SPC-01. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new garment steamer. Please read these instructions thoroughly before first use and retain for future reference.

## 2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions before using the steamer.
- Use the steamer only for its intended purpose as described in this manual.
- To avoid the risk of electric shock, do not immerse the steamer in water or other liquids.
- Always turn the steamer OFF before plugging or unplugging from the electrical outlet.
- Never pull the cord to disconnect from the outlet; instead, grasp the plug and pull to disconnect.
- Keep the cord away from heated surfaces. Do not allow the cord to touch hot surfaces.
- Do not operate the steamer with a damaged cord or plug, or if the appliance has been dropped or damaged.
- Close supervision is necessary for any appliance used by or near children.
- Do not leave the steamer unattended while it is connected to power or in use.
- Use only distilled or de-mineralized water to prevent mineral buildup and prolong the life of the steamer.
- Do not fill the water tank with hot water or corrosive liquids.
- Exercise caution when handling hot steam. Keep hands and face away from the steam head.
- This steamer is designed for 120V circuits only. Do not use with voltage converters or in regions with different voltage standards, as this may damage the unit and void the warranty.
- Allow the steamer to cool completely before storing.

### 3. PACKAGE CONTENTS

---

Verify that all items are present in the package:

- Polardo Portable Travel Garment Steamer (Model SPC-01)
- Detachable Water Tank
- Travel Pouch
- Lint Removal Brush
- User Manual

### 4. PRODUCT OVERVIEW

---

Familiarize yourself with the components of your Polardo Garment Steamer:

Image: Detailed view of the Polardo Steamer highlighting its key components: Stainless Steel Head, Easy Access On/Off Button, Detachable Water Tank (4 oz / 120 ml), and the included Lint Removal Brush.

- **Stainless Steel Head:** Durable steaming surface for effective wrinkle removal.
- **Easy Access On/Off Button:** Controls power to the unit.
- **Detachable Water Tank:** Transparent tank with a 4 oz (120 ml) capacity for easy refilling and monitoring water levels.
- **Power Cord:** Integrated power cord for connecting to a 120V electrical outlet.
- **Lint Removal Brush:** Attachment for removing lint and pet hair while steaming.

## 5. SETUP

Follow these steps to prepare your steamer for use:

### 1. Fill the Water Tank:

- Ensure the steamer is unplugged and cool.

- Remove the detachable water tank from the main unit.
- Open the rubber stopper on the tank and fill with distilled or de-mineralized water up to the MAX fill line. Do not overfill.
- Securely close the rubber stopper and reattach the water tank to the steamer until it clicks into place.

Image: Illustration of how to remove and refill the 4 oz (120 ml) detachable water tank with water.

2. **Attach Accessories (Optional):** If desired, attach the lint removal brush to the steam head.
3. **Connect to Power:** Plug the steamer into a standard 120V electrical outlet. The indicator light will illuminate.

## 6. OPERATING INSTRUCTIONS

Achieve wrinkle-free garments with ease:

1. **Power On and Heat Up:** Press the On/Off button. The steamer will begin to heat up. It reaches optimal steaming temperature in approximately 25 seconds.
2. **Prepare Garment:** Hang the garment on a hanger. Gently pull the fabric taut with one hand.
3. **Begin Steaming:** Hold the steamer upright, ensuring the steam head is facing away from you. Slowly move the steam head over the fabric, from top to bottom. The steamer provides approximately 10 minutes of continuous steam per full tank.
4. **Steaming Angle:** The Polardo steamer features a 360-degree anti-spill system, allowing for leak-free steaming at any angle without water spitting.
5. **Fabric Compatibility:** This steamer is suitable for various fabrics including cotton, wool, and synthetics.

## 7. MAINTENANCE

Proper care ensures the longevity of your steamer:

- **Empty Water Tank:** After each use, unplug the steamer and allow it to cool. Remove the water tank and empty any remaining water.

- **Clean Exterior:** Wipe the exterior of the steamer with a soft, damp cloth. Do not use abrasive cleaners.
- **Descaling (Monthly):** If you notice reduced steam output or mineral buildup, descale the steamer. Fill the tank with a mixture of 50% white vinegar and 50% distilled water. Run the steamer until half the solution is used, then turn off and let it sit for 30 minutes. Empty the tank, rinse, and run with fresh distilled water to clear any vinegar residue.
- **Storage:** Store the steamer in a cool, dry place. Ensure the water tank is empty and the steamer is completely cool before storing.

## 8. TROUBLESHOOTING

Refer to this section for common issues and their solutions:

| Problem                      | Possible Cause                                                         | Solution                                                                                                                   |
|------------------------------|------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| No steam or low steam output | Water tank is empty; Steamer not heated sufficiently; Mineral buildup. | Refill water tank; Allow 25 seconds for heat-up; Perform descaling procedure.                                              |
| Water spitting or leaking    | Steamer not fully heated; Overfilled water tank; Mineral buildup.      | Allow full heat-up time; Do not overfill the water tank; Perform descaling procedure.                                      |
| Steamer not turning on       | Not plugged in; Power outlet malfunction; Damaged cord/plug.           | Ensure plug is securely inserted; Test outlet with another appliance; Do not use if cord/plug is damaged, contact support. |
