## Monte Carlo 3STMSM52RZWD

# Monte Carlo 3STMSM52RZWD Streaming Smart 52-inch Dimmable Indoor/Outdoor Integrated LED Ceiling Fan User Manual

## 1. INTRODUCTION

---

Welcome to the user manual for your Monte Carlo 3STMSM52RZWD Streaming Smart 52-inch Ceiling Fan. This fan is designed for both indoor and outdoor (damp locations) use, featuring integrated LED lighting, a 6-speed reversible motor, and smart control capabilities. This manual provides essential instructions for safe installation, operation, and maintenance of your ceiling fan.

## 2. SAFETY INFORMATION

---

Please read all instructions carefully before beginning installation. Failure to follow these instructions may result in electrical shock, fire, or personal injury.

- **Electrical Safety:** Always disconnect power at the main circuit breaker before installing, cleaning, or servicing the fan. Ensure all electrical connections comply with local codes and ordinances.
- **Mounting:** The fan must be mounted to a structurally sound ceiling joist or an outlet box approved for fan support. The mounting structure must be capable of supporting the weight of the fan (15.4 pounds).
- **Blade Clearance:** Ensure there is adequate clearance from the fan blades to any obstacles, including walls and furniture. A minimum of 7 feet (2.13 meters) from the floor to the blade is recommended.
- **Damp Location Rating:** This fan is rated for damp locations, making it suitable for enclosed porches and patios. Avoid direct exposure to water.
- **Integrated LED:** The integrated LED light source is not user-replaceable. Do not attempt to disassemble the light kit.

## 3. PACKAGE CONTENTS

---

Verify that all components are present before beginning installation:

- Ceiling Fan Motor Assembly
- Fan Blades (3)
- Downrod (8 inches)

- Canopy and Mounting Bracket
- Integrated LED Light Kit
- Remote Control
- Hardware Pack (screws, washers, wire nuts)
- Instruction Manual

## 4. INSTALLATION GUIDE

---

Follow these steps for proper installation of your ceiling fan:

1. **Pre-Installation:** Turn off power at the circuit breaker. Ensure the mounting location is suitable and can support the fan's weight.
2. **Mounting Bracket Installation:** Secure the mounting bracket to an approved ceiling outlet box or directly to a ceiling joist using appropriate hardware.
3. **Downrod Assembly:** Insert the downrod through the canopy and connect it to the fan motor housing. Secure with pins and screws as instructed.
4. **Wiring:** Carefully connect the electrical wires from the fan to the household wiring according to the provided wiring diagram. Ensure all connections are secure using wire nuts. This is a corded electric fan.
5. **Canopy Installation:** Lift the fan assembly and hang it on the mounting bracket. Secure the canopy to cover the wiring compartment.
6. **Blade Attachment:** Attach the three fan blades to the motor housing using the provided screws. Ensure all screws are tightened securely.
7. **Light Kit Installation:** Connect the integrated LED light kit wiring and secure the light kit to the bottom of the fan motor housing.

## 5. OPERATING INSTRUCTIONS

---

Your Monte Carlo ceiling fan offers multiple control options for convenience.

- **Remote Control:** The included remote control allows you to:

- Turn the fan On/Off.
  - Adjust fan speed (6 levels).
  - Turn the integrated LED light On/Off and dim its intensity.
  - Activate the reversible motor function to change blade direction for seasonal comfort (downward airflow for cooling, upward for heat distribution).
- **Smart Features (Wi-Fi, App, Voice Control):** This fan is Wi-Fi enabled and can be controlled via a dedicated mobile application and integrated with voice control platforms. Refer to the separate smart control guide (if provided) or the manufacturer's website for detailed instructions on connecting to your Wi-Fi network, downloading the app, and setting up voice control.

## 6. MAINTENANCE

---

Regular maintenance ensures optimal performance and longevity of your fan.

- **Cleaning:** To clean the fan, wipe surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish. Ensure power is off before cleaning.
- **Blade Inspection:** Periodically check all blade attachment screws for tightness. Over time, they may loosen due to fan vibration.
- **Light Source:** The integrated LED light source is designed for long life and is not intended to be replaced by the user.

## 7. TROUBLESHOOTING

---

If you encounter issues with your fan, refer to the following common problems and solutions:

- **Fan Does Not Start:**
  - Check that power is supplied to the fan at the circuit breaker.
  - Verify all wiring connections are secure.
  - Ensure the remote control battery is functional and correctly inserted.
- **Fan Wobbles:**
  - Confirm all blade screws are tightened securely.
  - Check that the mounting bracket and downrod connections are secure.
  - Ensure blades are not bent or damaged.
- **Light Does Not Work:**
  - Check wiring connections to the light kit.
  - Verify power is supplied to the light.
  - Ensure the remote control is functioning and sending light commands.
- **Remote Not Responding:**
  - Replace the remote control battery.
  - If necessary, re-pair the remote control with the fan receiver according to specific instructions (usually found in the smart control guide).
- **Smart Features Not Connecting:**
  - Verify your Wi-Fi network is active and the fan is within range.
  - Check app settings and ensure the fan is properly registered.

- Restart your Wi-Fi router and the fan (by cycling power at the breaker).

## 8. SPECIFICATIONS

Feature	Detail
Brand	Monte Carlo
Model	3STMSM52RZWD
Dimensions (D x W x H)	52"D x 52"W x 17.91"H
Color	Matte White
Electric Fan Design	Ceiling Fan
Power Source	Corded Electric
Style	Modern
Room Type	Living Room, Bedroom, Kitchen, Garage, Enclosed Porch/Patio
Special Features	Wi-Fi Enabled, Voice Control, App Operable
Recommended Uses	Cooling, Air Circulation, Damp Locations
Wattage	20.00 W
Finish Type	Matte
Number of Blades	3
Switch Type	Remote
Item Weight	15.4 Pounds
Included Components	Remote
Specification Met	Energy Commission (Energy Star, Title 24)
Control Method	Remote
Efficiency	187 CFM/Watt
Downrod Length	8 Inches
UPC	014817619324
Mounting Type	Ceiling Mount

## 9. WARRANTY AND SUPPORT

For warranty information or technical assistance, please contact Monte Carlo customer support. Refer to the official Monte Carlo website or your purchase documentation for contact details and the most up-to-date warranty policy.
