Awpeye 1.77 Inch Suction Cup Hooks

Awpeye 1.77 Inch Suction Cup Hooks Instruction Manual

Model: 1.77 Inch Suction Cup Hooks

1. PRODUCT OVERVIEW

The Awpeye 1.77 Inch Suction Cup Hooks are designed for temporary hanging solutions on smooth, non-porous surfaces. This package includes 20 clear PVC suction cups, each equipped with a metal hook. These hooks are reusable and suitable for various applications in kitchens, bathrooms, offices, and other areas.

Image 1.1: Overview of the Awpeye 1.77 Inch Suction Cup Hooks.

Key Features:

- **Quantity:** 20 medium-sized PVC suction cups with hooks.
- **Diameter:** Approximately 1.77 inches (45mm).
- **Weight Capacity:** Each hook supports a maximum load of 2 KG (4.4 lb).
- **Material:** Transparent PVC suction cup with a metal hook.
- **Durability:** Designed to be soft, rust-resistant, non-yellowing, and reusable.

Image 1.3: Illustration of the 2 KG (4.4 lb) weight capacity per hook.

2. SETUP AND INSTALLATION

Proper installation ensures maximum adhesion and stability of the suction cup hooks.

Installation Steps:

1. **Clean the Surface:** Thoroughly wipe the desired surface with a clean cloth to remove any dust, dirt, grease, or moisture. The surface must be smooth, clean, and dry for optimal adhesion.
2. **Position the Suction Cup:** Place the suction cup firmly against the clean, smooth surface.
3. **Apply Pressure:** Press firmly on the center of the suction cup to expel all air from underneath. Ensure no air bubbles remain visible under the cup.
4. **Verify Adhesion:** Gently tug on the hook to confirm it is securely attached to the surface.

Image 2.1: Visual guide for easy application of the suction cup hooks.

Suitable Surfaces:

These suction cup hooks are designed for smooth, non-porous surfaces, including:

- Glass
- Ceramic Tile
- Marble
- Metal surfaces (e.g., refrigerators)
- Smooth Plastic
- Bakelite
- UV/PVC Sheets
- Smooth Wood Surfaces

Unsuitable Surfaces:

Do not apply suction cup hooks to:

- Rough, uneven, or textured surfaces
- Porous materials (e.g., unpainted wood, concrete)
- Surfaces with gaps or holes

3. OPERATING INSTRUCTIONS

Once installed, the suction cup hooks can be used to hang various items up to their specified weight limit.

Usage Examples:

- Hanging kitchen utensils.
- Organizing towels or loofahs in the bathroom.
- Displaying lightweight decorations such as garlands, bows, or string lights on windows.
- Holding small bags or accessories in offices or garages.

Image 3.1: Diverse applications of the suction cup hooks in different environments.

4. MAINTENANCE

To ensure longevity and continued performance of your Awpeye Suction Cup Hooks, follow these maintenance guidelines:

- **Cleaning:** If a suction cup loses adhesion, remove it, wash both the cup and the surface with warm, soapy water, rinse thoroughly, and let them air dry completely before reapplication.
- **Reusability:** The hooks are designed for reusability. If you need to reposition them, simply pull the edge of the suction cup to release the vacuum, then follow the installation steps again.
- **Storage:** Store unused or removed suction cups in a clean, dry place away from direct sunlight to prevent material degradation.
- **Waterproof Feature:** The suction cups are waterproof, making them suitable for wet environments like bathrooms and kitchens.

5. TROUBLESHOOTING

If you encounter issues with your suction cup hooks, consider the following:

Common Issues and Solutions:

- **Hook Not Sticking:**
 - Ensure the surface is perfectly clean, dry, and smooth. Any dust, dirt, or texture will prevent proper suction.
 - Verify that all air has been expelled from under the suction cup. Press firmly from the center outwards.
 - Check if the surface is suitable (refer to Section 2: Setup and Installation). Rough, porous, or textured surfaces will not hold suction.
- **Hook Slides Down:**
 - The item being hung may exceed the 2 KG (4.4 lb) weight limit. Reduce the load.
 - Moisture or condensation on the surface can sometimes cause sliding. Re-clean and reapply on a dry surface.
- **Suction Cup Appears Bent or Deformed:**
 - Sometimes, suction cups can temporarily deform. Try soaking them in warm water for a few minutes to help them regain their original shape before drying and applying.

6. SPECIFICATIONS

Attribute	Detail
Brand	Awpeye
Model	1.77 Inch Suction Cup Hooks

Color	Clear
Material	Metal, Plastic (PVC)
Finish Type	Metal, PVC
Mounting Type	Wall Mount, Window Mount
Style	Art Deco
