Zinus 9 Inch Full Metal Smart Box Spring User Manual

Model: ZU-ABS-9FS (Full Size)

INTRODUCTION

The Zinus 9 Inch Full Metal Smart Box Spring provides a durable and stable foundation for your mattress. Designed for quick and easy assembly, this box spring features a strong steel frame and a versatile poly jacquard cover. It is engineered to support your mattress effectively, contributing to a comfortable sleep experience.

Key features include:

- Strong and dependable steel interior frame.
- Quick assembly design with fewer bolts and tool-free locking brackets.
- Versatile fit, compatible with various Zinus mattresses and bed frames.
- Includes a removable poly jacquard cover for easy maintenance.

SAFETY INFORMATION

Important Safety Warnings:

- Always follow assembly instructions carefully to prevent instability.
- Do not exceed the maximum weight capacity of 700 lbs (for Full, Queen, King, California King sizes). Twin/Twin XL sizes support a maximum weight capacity of 350 lbs.
- Be cautious of sharp edges during assembly and use.
- A bed frame is required to support this foundation and is sold separately. This box spring does not have integrated legs.

PACKAGE CONTENTS

Before beginning assembly, ensure all parts are present and accounted for. The package should contain:

- Steel Frame Components
- Poly Jacquard Cover
- Assembly Hardware (screws, Allen wrench, ratchet tool)

SETUP AND ASSEMBLY

The Zinus Smart Box Spring is designed for quick and intuitive assembly. Follow these steps for a hassle-free setup:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the included assembly instructions to identify each part (e.g., A-sides, B-sides, connectors).
2. **Assemble Frame Sides:** Connect the shorter A-sides and longer B-sides of the steel frame using the provided tool-free locking brackets. These brackets slide and click into place for a secure fit.

Image: Detail of the tool-free locking brackets, showing how they connect the frame pieces for intuitive setup.

- Secure Frame Connections:** Utilize the push-pin system for additional frame connections. No extra tools are required for these connections, ensuring a simple process.

DURABLY ENGINEERED

Ultra-strong steel structure

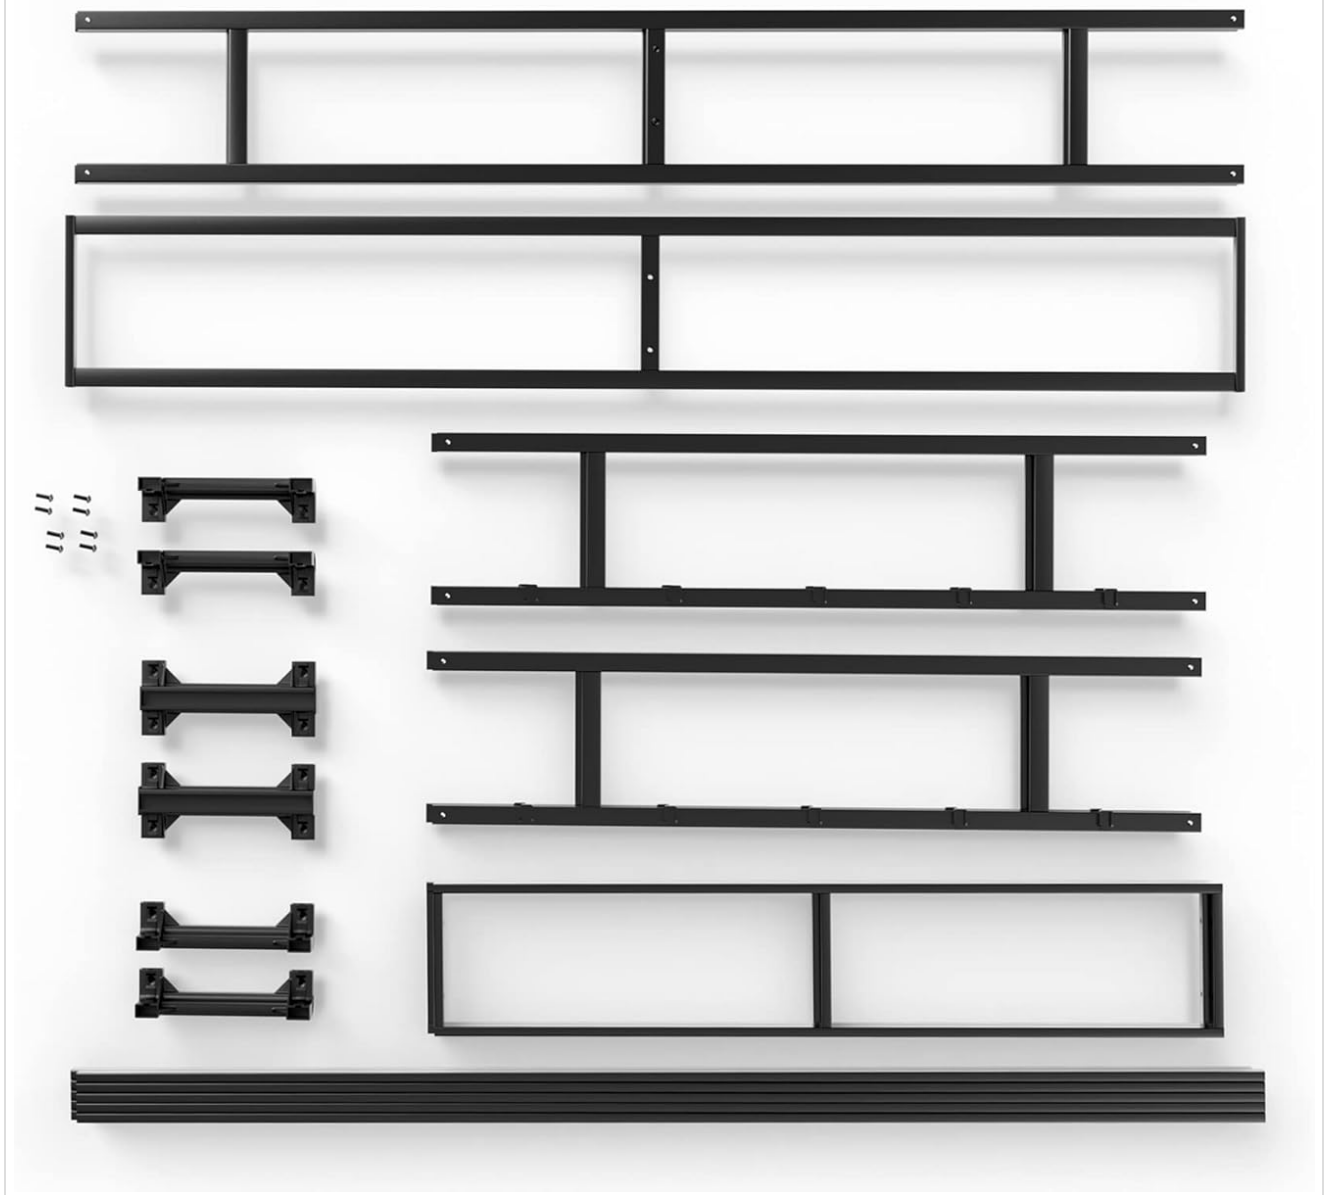

Image: Visual guide demonstrating the push-pin system for securing frame components without tools.

4. **Attach Center Supports:** For larger sizes, attach the center support pieces using the provided screws and the included ratchet tool. This tool simplifies tightening for a sturdy structure.

Image: An exploded view of the steel frame components, highlighting the robust and durably engineered structure.

5. **Apply Poly Jacquard Cover:** Once the frame is fully assembled and secured, stretch the poly jacquard cover over the frame. The elastic band ensures an easy and snug fit.

OPERATING INSTRUCTIONS

The Zinus Smart Box Spring is designed to provide optimal support for your mattress. Once assembled and placed on a suitable bed frame, simply place your mattress directly on top of the box spring.

- **Mattress Compatibility:** This box spring is compatible with all Zinus mattresses and can be used with memory foam, innerspring, and other mattress types.
- **Weight Capacity:** The Full size box spring supports a maximum weight capacity of 700 lbs. (Twin/Twin XL sizes support 350 lbs).
- **Optimal Support:** The robust steel structure ensures even weight distribution and prevents mattress sagging, extending the life and comfort of your mattress.

MAINTENANCE

To ensure the longevity and cleanliness of your Zinus Smart Box Spring, follow these simple maintenance guidelines:

- **Cleaning the Cover:** The poly jacquard cover is removable and can be cleaned. For best results, wipe with a damp cloth. For deeper cleaning, the cover can be unzipped and removed for washing.
- **Frame Inspection:** Periodically inspect the steel frame and all connections to ensure they remain secure. Tighten any loose screws if necessary using the provided ratchet tool.
- **Avoid Excessive Moisture:** Keep the box spring in a dry environment to prevent rust or damage to the metal components.

TROUBLESHOOTING

If you encounter any issues with your Zinus Smart Box Spring, refer to the following common troubleshooting tips:

- **Squeaking Noises:** If the box spring begins to squeak, it may indicate loose connections. Re-tighten all screws and ensure all locking brackets are fully engaged. Applying a small amount of lubricant (e.g., WD-40) to connection points can also help.
- **Instability/Wobbling:** Ensure the box spring is placed on a flat, level surface and that your bed frame provides adequate support. Verify all assembly connections are tight and secure.
- **Cover Not Fitting:** Ensure the cover is oriented correctly and stretched evenly over the frame. The elastic band should provide a snug fit.

SPECIFICATIONS

Detailed specifications for the Zinus 9 Inch Full Metal Smart Box Spring (Full Size):

Feature	Specification
Size	Full
Material	Alloy Steel, Fabric (Poly Jacquard)
Style	New/upgraded with quick assembly
Color	Grey
