GA.MA ITALY PROFESSIONAL Absolute Fade Professional Hair Clippers Instruction Manual

INTRODUCTION

This manual provides essential information for the safe and effective use of your GA.MA ITALY PROFESSIONAL Absolute Fade Professional Hair Clippers. Please read all instructions carefully before operation and retain this manual for future reference.

PRODUCT OVERVIEW AND INCLUDED COMPONENTS

The GA.MA ITALY PROFESSIONAL Absolute Fade Professional Hair Clippers are designed for high-precision hair cutting and trimming. The kit includes the following components:

Image: GA.MA ITALY PROFESSIONAL Absolute Fade Professional Hair Clippers shown with all included accessories, including the main clipper unit, various attachment guards, lubricating oil, and a cleaning brush.

- GA.MA ITALY PROFESSIONAL Absolute Fade Hair Clipper with Professional Magnetic Motor and Semi-Concave High Precision Blade.
- 9 Attachment Guard Combs: 1/16", 1/8", 3/16", 1/4", 3/8", 1/2", 5/8", 3/4", and 7/8".
- Lubricating Oil for blade maintenance.
- Cleaning Brush for blade cleaning.
- Professional 9.85 Foot Cord with Ring for Hanging.

KEY FEATURES

- **Professional Magnetic Motor:** Provides consistent power for various hair types.
- **Semi-Concave High Precision Blade:** Designed for clean and precise cuts.
- **DLC (Diamond-Like Carbon) Coated Blades:** Offers maximum sharpness durability and reduced friction.
- **Adjustable Cutting Blade Lever:** Allows for precise length adjustments from 1/64" (for buzz cuts) to 1/8" (for longer cuts) without guards.

- **Long Power Cord:** A 9.85-foot cord provides ample reach and flexibility during use.

SAFETY INFORMATION

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- Always unplug the clipper before cleaning or changing attachments.
- Keep the clipper away from water sources. Do not use it near bathtubs, showers, basins, or other vessels containing water.
- Do not use the clipper on infants or near the face and neck without proper guard combs.
- Always use the clipper with the provided guard combs to prevent skin irritation or injury.
- Always follow the recommended cleaning and maintenance procedures to ensure the clipper's safety and longevity.
- Do not operate the clipper if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged.

SETUP

Before first use, ensure the clipper is clean and properly lubricated.

Image: Close-up view of the GA.MA ITALY PROFESSIONAL Absolute Fade Professional Hair Clippers with several attachment guard combs displayed, illustrating the range of cutting lengths available.

1. **Install Attachment Guard Comb:** Select the desired attachment guard comb based on your preferred hair length and securely snap it onto the clipper blade.
2. **Adjust Cutting Blade Lever:** If not using a guard comb, adjust the cutting blade lever to the desired cut length (1/64" for buzz cuts or 1/8" for longer cuts).
3. **Lubricate Blades:** Apply a few drops of the provided lubricating oil onto the clipper blades. Turn the clipper on for a few seconds to distribute the oil evenly.
4. **Connect to Power:** Connect the clipper to a suitable power source using the 9.85-foot cord.

OPERATING INSTRUCTIONS

Once set up, you can begin using your hair clippers:

1. **Power On:** Flip the ON/OFF switch to the 'ON' position to start the clipper.
2. **Begin Cutting:** Gently guide the clipper through the hair, moving against the direction of hair growth. Follow your desired hairstyle and pattern.
3. **Maintain Evenness:** Use smooth, overlapping strokes to ensure an even cut.
4. **Power Off:** Once finished, flip the ON/OFF switch to the 'OFF' position and unplug the clipper from the power source.

MAINTENANCE

Regular cleaning and lubrication will extend the life and performance of your clippers:

1. **Clean Blades:** After each use, unplug the clipper. Use the provided cleaning brush to remove any loose hair from the blades.
2. **Lubricate Blades:** Apply a few drops of lubricating oil to the blades before and after each use. This helps maintain blade sharpness and reduces friction.
3. **Storage:** Store the clipper and all accessories in a dry, safe place away from children.

TROUBLESHOOTING

If you encounter any issues with your clippers, refer to the following common solutions:

- **Clipper not turning on:** Ensure the power cord is securely plugged into both the clipper and a functional electrical outlet.
- **Blades pulling or snagging hair:** The blades may be dull or require lubrication. Clean and oil the blades as per maintenance instructions. If the issue persists, consider professional sharpening or blade replacement.
- **Excessive noise or vibration:** This can often be resolved by lubricating the blades. If the noise continues, ensure the blade adjustment lever is set correctly.
- **Uneven cutting:** Ensure the attachment comb is securely fastened and that you are moving the clipper against the direction of hair growth with consistent pressure.

For persistent issues not covered here, please contact customer support.

SPECIFICATIONS

Feature	Detail
Model Number	USSMB5023
Brand	GA.MA ITALY PROFESSIONAL
Power Source	Corded Electric
Item Weight	1.03 Kilograms (2.26 Pounds)
Color	Black
