Midea M6

Midea M6 Robot Vacuum and Scrub User Manual

Model: M6

1. INTRODUCTION

Thank you for choosing the Midea M6 Robot Vacuum and Scrub. This advanced cleaning device is designed to provide efficient and thorough cleaning of your floors, combining powerful vacuuming with effective mopping capabilities. Equipped with LDS navigation, the M6 intelligently maps your home for precise and systematic cleaning. Please read this manual carefully before using the product to ensure proper operation and maintenance.

The Midea M6 Robot Vacuum and Mop Cleaner, showcasing its sleek design, integrated water tank, dustbin, and accompanying mobile application interface.

2. PRODUCT COMPONENTS

The Midea M6 Robot Vacuum and Scrub comes with the following main components:

- Midea M6 Robot Vacuum Unit
- Charging Dock
- Power Adapter
- Dustbin (600ml capacity)
- Water Tank (250ml capacity)
- Mop Pad
- Side Brushes (2)
- Cleaning Tool
- User Manual

3. SETUP GUIDE

3.1 Unpacking and Placement

1. Carefully remove all components from the packaging.
2. Choose a suitable location for the charging dock. Ensure it is placed against a wall with at least 0.5 meters of clear space on either side and 1.5 meters in front.
3. Connect the power adapter to the charging dock and plug it into a power outlet.

3.2 Initial Charging

Place the Midea M6 robot onto the charging dock. Ensure the charging contacts on the robot align with those on the dock. The robot will begin charging automatically. For first use, it is recommended to fully charge the robot before operation.

3.3 App Installation and Connection

To unlock the full potential of your Midea M6, download the Midea app on your smartphone.

1. Scan the QR code in the manual or search for "Midea" in your app store (iOS/Android).
2. Follow the in-app instructions to create an account and add your Midea M6 robot. Ensure your phone is connected to a 2.4GHz Wi-Fi network during setup.
3. Once connected, the app allows for advanced features like mapping, scheduling, and zone cleaning.

Cartographie Précise, Non Affectée Par la Luminosité De la Pièce

Même dans l'obscurité, le robot M6 peut identifier correctement votre maison et créer une carte précise pour le nettoyage avec un système LIDAR amélioré, afin que vous ne manquiez pas chaque recoin

This image illustrates the Midea M6 robot vacuum's advanced LiDAR navigation system, which accurately maps your home environment, identifying and navigating around objects such as pets and toys, even in low light conditions.

FONCTIONNALITÉS DE L'APPLICATION

A visual representation of the Midea M6 mobile application, highlighting features such as timed cleaning schedules, zone cleaning, setting forbidden areas, customized suction, and voice control integration with Alexa and Google Assistant.

4. OPERATING INSTRUCTIONS

4.1 Starting a Cleaning Cycle

- **From the Robot:** Press the power button on the robot to start a general cleaning cycle.
- **From the App:** Open the Midea app and select 'Start Cleaning' for a full clean, or choose specific modes like 'Zone Clean' or 'Spot Clean'.

4.2 Cleaning Modes

The Midea M6 offers versatile cleaning options:

- **Vacuuming:** Utilizes powerful 2000Pa suction to pick up dust, debris, and pet hair.
- **Mopping:** The 250ml intelligent water tank allows for wet mopping. Adjust water flow via the app for different floor types.
- **Vacuum & Mop (2-in-1):** Simultaneously vacuums and mops for a comprehensive clean. This is ideal for hard floors.
- **Carpet Boost:** The robot automatically increases suction power to maximum when it detects carpets, ensuring deeper cleaning.

Aspirateur et Vadrouille 2 en 1

Support séparé ou simultané, la vadrouille est meilleure pour les sols durs

Réservoir D'eau Intelligent de 250ml

peut être personnalisé la vitesse et le volume de l'eau pour éviter les dégâts d'eau sur votre plancher en bois

Grande Boîte à Poussière de 600 ml

Vous n'avez besoin de vider les ordures qu'une fois par semaine

An exploded diagram of the Midea M6 robot vacuum, illustrating its 2-in-1 design with a 250ml intelligent water tank for mopping and a 600ml large dustbin for vacuuming, allowing for combined cleaning operations.

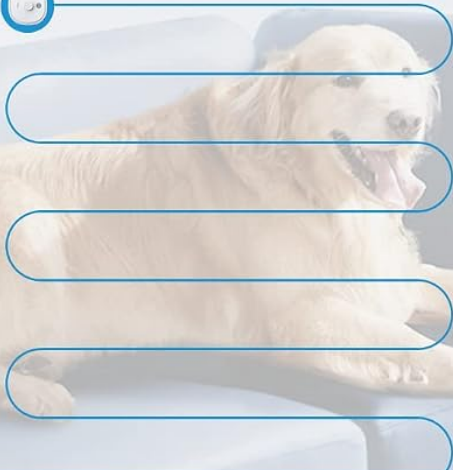

4.3 Smart Features

- **Smart Mapping:** The LDS navigation system creates an accurate, interactive map of your home, allowing for personalized cleaning plans.
- **Scheduled Cleaning:** Set specific times for the robot to clean automatically via the app.

- **No-Go Zones & Virtual Walls:** Define areas the robot should avoid using the app.
- **Voice Control:** Integrate with Alexa or Google Assistant for hands-free control.
- **Multi-Map Memory:** Store multiple floor plans in the app, ideal for multi-story homes.

Mode de nettoyage plus efficace

Saisissez avec précision la poussière de chaque coin, ne manquez aucune zone, réduisant son usure causée par un travail inefficace et prolongeant la durée de vie du robot.

Notre robot intelligent M6

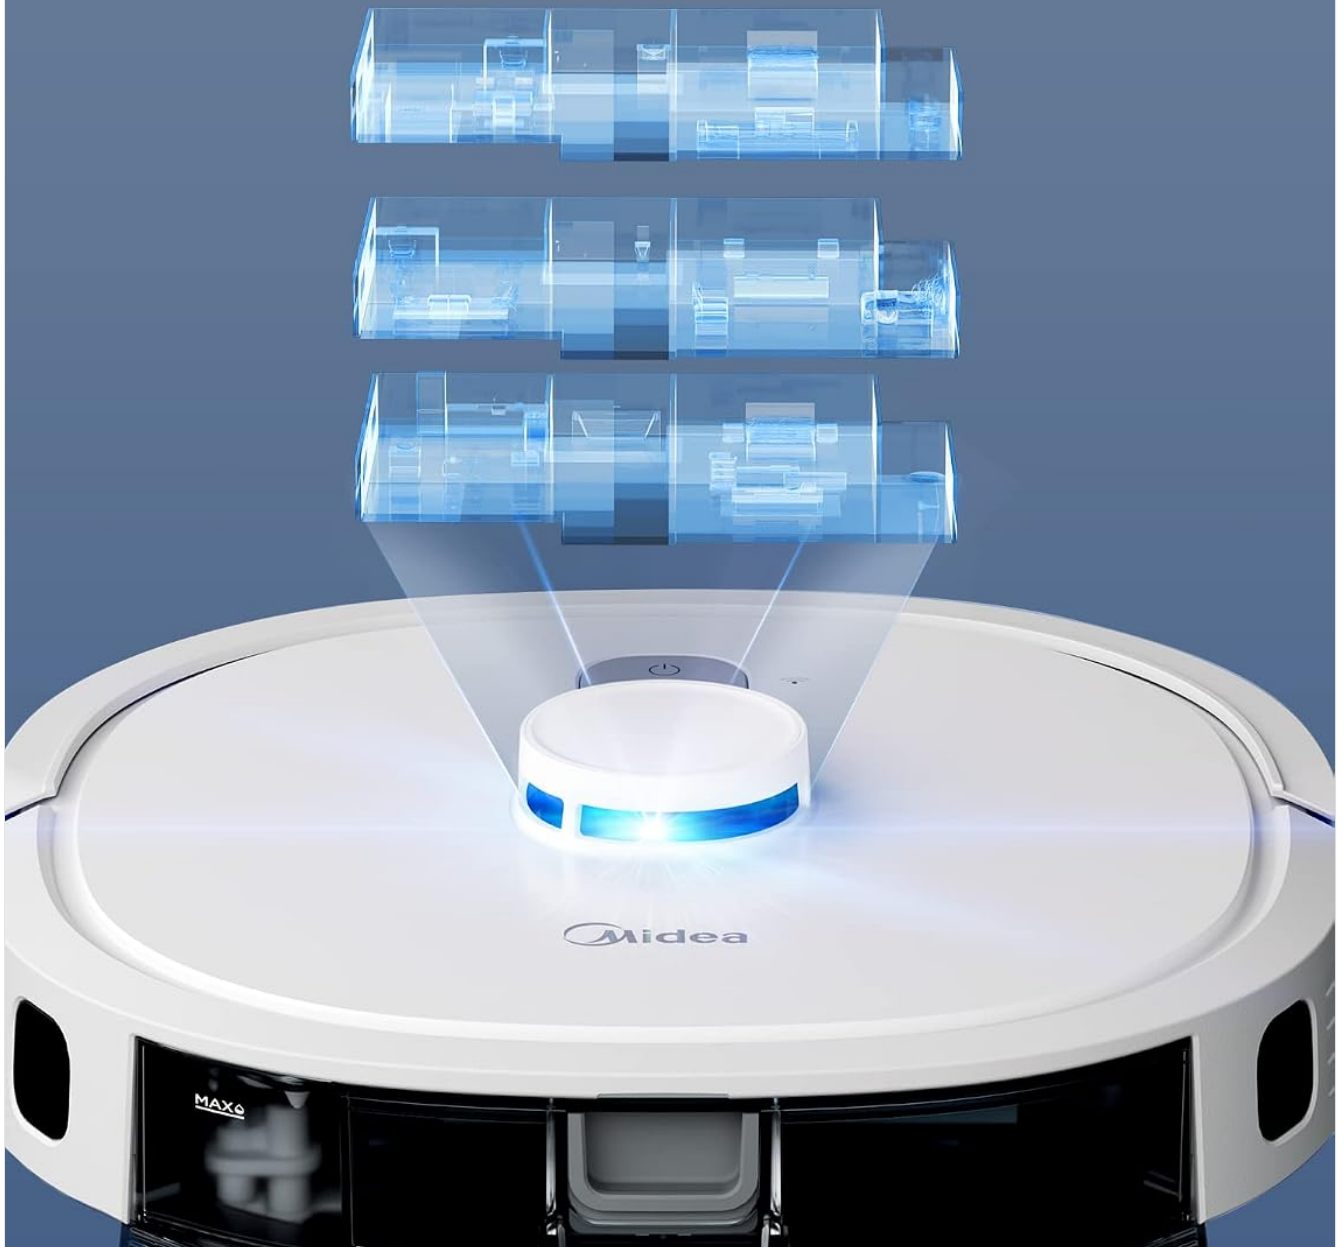

D'autres robots à trajectoire aléatoire

This graphic compares the Midea M6's intelligent, systematic S-shaped cleaning path, which ensures thorough coverage and avoids missed spots, with the less efficient, random cleaning patterns of other robot vacuums.

MÉMOIRE MULTI-CARTES

Stockage de cartes multi-étages
Lors du redémarrage, changez facilement de carte dans l'application

The Midea M6 robot vacuum supports multi-floor mapping, enabling it to store and easily switch between different floor plans within the application, ideal for multi-story homes.

Puissance D'aspiration Super Forte et Excellente Durée de vie de la Batterie

Nettoyage efficace des cheveux, de la poussière et des haricots

120-min
Recharge automatique de la batterie faible
Continuer le nettoyage là où il s'est arrêté

This image highlights the Midea M6's powerful 2000Pa suction, effective for cleaning hair, dust, and debris, and its 120-minute battery life, with automatic return to the charging station and resume cleaning function.

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Midea M6 robot vacuum.

5.1 Dustbin Emptying

Empty the 600ml dustbin after each cleaning cycle or when the app indicates it is full. Open the robot's top cover, remove the dustbin, and dispose of collected debris.

5.2 Water Tank Refilling and Mop Pad Cleaning

Refill the 250ml water tank with clean water before mopping. Remove the mop pad after each use, rinse it thoroughly, and allow it to air dry.

5.3 Brush Cleaning

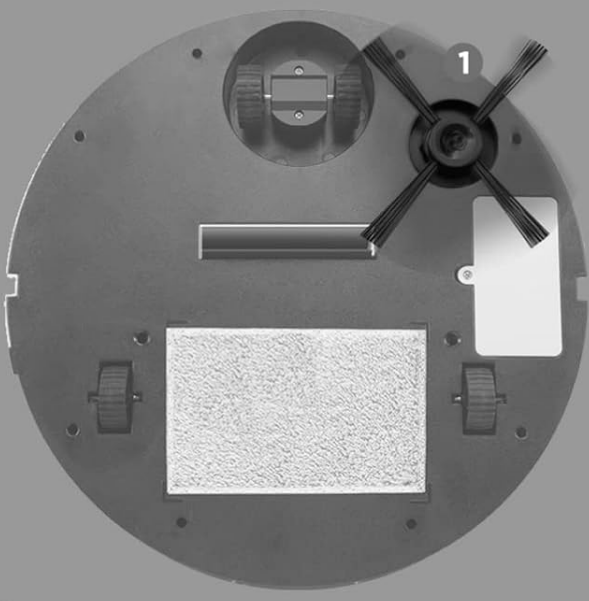

- **Main Brush:** Periodically remove the main brush and use the provided cleaning tool to remove tangled hair and debris.
- **Side Brushes:** Check the side brushes regularly for wear or entanglement. Clean them as needed and replace if damaged.

Brosse Premium, Plus Rapide et Plus Propre

Plus silencieux et plus propre que les autres robots, beaucoup moins susceptible d'être brisé par d'autres particules tranchantes

Autres robots

seulement une brosse
pas de brosse à rouleaux

Notre robot M6

2 brosses latérales
1 brosse améliorée
plus rapide et plus propre

A comparison showing the Midea M6's advanced cleaning head, featuring two side brushes and an improved main brush for more efficient and quieter cleaning, compared to other robots with fewer or less effective brush configurations.

5.4 Filter Cleaning

The HEPA filter inside the dustbin should be cleaned regularly. Tap it gently to remove dust or use the cleaning tool. Replace the filter every 3-6 months, depending on usage.

5.5 Sensor Cleaning

Wipe the robot's sensors (cliff sensors, wall sensors, charging contacts) with a clean, dry cloth to ensure accurate navigation and charging.

6. TROUBLESHOOTING

If you encounter issues with your Midea M6, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Robot does not turn on	Low battery; Power button not pressed	Place robot on charging dock; Press and hold power button for 3 seconds
Robot cannot charge	Charging contacts dirty; Charging dock not powered	Clean charging contacts on robot and dock; Ensure power adapter is plugged in
Poor cleaning performance	Dustbin full; Brushes tangled; Filter clogged	Empty dustbin; Clean main and side brushes; Clean/replace filter
Robot gets stuck frequently	Obstacles in path; Cliff sensors dirty	Clear obstacles; Clean cliff sensors
App connection issues	Incorrect Wi-Fi password; Router too far; Not 2.4GHz network	Verify password; Move robot closer to router; Ensure 2.4GHz Wi-Fi

For more detailed troubleshooting or persistent issues, please refer to the Midea app's help section or contact Midea customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	Midea
Model Number	Robot aspi
Colour	Large X
Package Dimensions	44 x 39.2 x 14 cm
Item Weight	5 kg
Dustbin Capacity	600 Millilitres

Feature	Detail
Water Tank Capacity	250 Millilitres
Power / Wattage	40 watts
Voltage	14.4 Volts
Noise Level	65 dB
Filter Type	HEPA
Auto Shutoff	Yes
Compatible Models	Smartphone (via Midea App)

8. WARRANTY AND SUPPORT

Midea products are manufactured to high-quality standards and are covered by a limited warranty. Please refer to the warranty card included in your product packaging or visit the official Midea website for detailed warranty terms and conditions specific to your region.

For technical support, service, or inquiries, please contact Midea customer service through the contact information provided on the official Midea website or within the Midea mobile application. When contacting support, please have your product model number (M6) and purchase information ready.
