- **Cleaning:** Wipe with a dry cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Spills:** Promptly wipe up any spills to prevent staining or damage to the metal finish.
- **Placement:** Avoid prolonged exposure to direct sunlight or extreme temperatures, which may affect the finish over time.

Note: As mentioned in customer reviews, avoid using glass cleaners (like Windex) or rubbing alcohol, as they can dull the surface and remove components of the finish.

7. Troubleshooting

- **Wobbly Table:** Ensure all three legs are securely tightened into the tabletop. Verify the table is on a flat, even surface.

specifically designed for metal. Avoid harsh cleaning agents.
