Logitech H390

Logitech H390 USB Headset User Manual

Model: H390 (P/N: 981-001285)

Brand: Logitech

PRODUCT OVERVIEW

The Logitech H390 USB Headset is designed for clear audio communication and comfortable use across various applications, including video meetings, music listening, and gaming. It features a noise-cancelling microphone and convenient in-line controls for volume and mute functions. This wired headset connects via USB-A, offering a simple plug-and-play experience.

SETUP GUIDE

Connecting Your Headset

The Logitech H390 headset is designed for easy setup with its plug-and-play USB-A connectivity. No additional software or drivers are typically required for basic functionality.

1. **Locate a USB-A Port:** Identify an available USB-A port on your computer (PC, Mac, or Chromebook).

2. **Plug In the Headset:** Insert the USB-A connector of the H390 headset firmly into the USB-A port on your device.

3. **System Recognition:** Your operating system should automatically detect and configure the headset as an audio input and output device. This may take a few moments.

4. **Verify Audio Settings:** After connection, it is recommended to verify your audio settings in your computer's sound preferences to ensure the Logitech H390 is selected as the default playback and recording device.

OPERATING INSTRUCTIONS

In-line Controls

The Logitech H390 features convenient in-line controls located on the headset cable, allowing for quick adjustments without needing to interact with your computer's software.

- **Volume Up Button:** Press the '+' button to increase the audio output volume.

- **Volume Down Button:** Press the '-' button to decrease the audio output volume.

- **Mute Button:** Press the central button to mute or unmute the microphone. A red indicator light on the control unit signifies that the microphone is muted.

Microphone Usage

The headset is equipped with a rotating, noise-cancelling microphone designed to minimize background noise for clear voice capture.

- **Positioning:** For optimal voice clarity, position the microphone boom arm so that the microphone is approximately 2-3 centimeters (about 1 inch) from your mouth.
- **Noise Cancellation:** The noise-cancelling feature helps to filter out ambient sounds, making your voice clearer to listeners.
- **Storage:** When not in use, the microphone boom arm can be rotated upwards and tucked away discreetly.

Digital Stereo Sound

The Logitech H390 delivers enhanced digital stereo audio, suitable for a wide range of applications from online meetings to multimedia consumption.

MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Logitech H390 headset, follow these simple care guidelines:

- **Cleaning:** Gently wipe the headset, including the ear cushions and microphone, with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.

- **Storage:** Store the headset in a clean, dry place away from extreme temperatures and direct sunlight. Avoid tangling the cable.

- **Handling:** Do not pull the cable forcefully when disconnecting the headset. Always grasp the USB plug. Avoid dropping the headset or subjecting it to strong impacts.

TROUBLESHOOTING

If you encounter issues with your Logitech H390 headset, try the following common troubleshooting steps:

- **No Sound/Microphone Not Working:**

  - Ensure the USB-A connector is fully inserted into the port.
  - Check your computer's sound settings to confirm the Logitech H390 is selected as the default playback and recording device.
  - Verify that the microphone mute button on the in-line control is not activated (red light off).
  - Try plugging the headset into a different USB port on your computer.
  - Restart your computer.

- **Distorted Audio:**

  - Adjust the volume using the in-line controls or your computer's volume settings.

- Ensure no other audio devices are interfering.
- Try a different USB port.

- **Background Noise from Microphone:**

  - Ensure the microphone is positioned correctly, close to your mouth.
  - The H390 features noise cancellation, but excessive background noise may still be picked up. Try to use the headset in a quieter environment if possible.

For further assistance, refer to the support section or contact Logitech customer service.

SPECIFICATIONS

Feature	Detail
Model Name	H390
Item Model Number	981-001285
Connectivity Technology	Wired (USB-A)
