

Nasuque B09XQL2NJY

Nasuque Bluetooth Keyboard User Manual

Model: B09XQL2NJY  
Brand: Nasuque

INTRODUCTION

Thank you for choosing the Nasuque Bluetooth Keyboard. This wireless, rechargeable, and ultra-slim keyboard is designed for seamless compatibility with Mac OS and iOS devices, including MacBook Pro/Air, iMac, iPhone, and iPad Pro/Air/Mini. Featuring a full-size layout with a numeric keypad and a stable scissor mechanism beneath each key, it offers a comfortable and precise typing experience. Its multi-device capability allows you to connect and switch between up to three devices effortlessly.

PACKAGE CONTENTS

Please ensure all items are present in your package:

- Nasuque Bluetooth Keyboard
- USB Charging Cable

- Dust Cover (Silicone protector)

Image: The included USB charging cable, used to recharge the keyboard's built-in battery.

## SETUP & PAIRING

### Powering On/Off

Locate the ON/OFF switch on the top right side of the keyboard. Slide the switch to the "ON" position to power on the keyboard. Slide it to "OFF" when not in use to conserve battery.

### Charging the Keyboard

The keyboard features a built-in rechargeable lithium battery. Connect the included USB charging cable to the charging port on the keyboard and the other end to a USB power source (e.g., computer USB port, USB wall adapter). The charging indicator light will illuminate during charging and turn off when fully charged.

### Multi-Device Bluetooth Pairing

This keyboard supports connection with up to three devices simultaneously. Follow these steps to pair your devices:

1. Ensure the keyboard is powered on.
2. Press the **Fn** key and one of the Bluetooth channel keys (**1**, **2**, or **3**) simultaneously to select a channel. For first-time pairing, choose an unused channel.
3. Long press the **Fn** key and the selected Bluetooth channel key (**1**, **2**, or **3**) for 3-5 seconds until the corresponding channel indicator light (**01**, **02**, or **03**) starts blinking rapidly. This indicates the keyboard is in pairing mode.
4. On your device (MacBook, iMac, iPhone, iPad, etc.), go to Bluetooth settings and enable Bluetooth.
5. Search for available devices. The keyboard will appear as "Nasuque Keyboard" or similar. Select it to connect.
6. Once connected, the indicator light will stop blinking and remain solid for a few seconds before turning off.
7. Repeat these steps for up to two additional devices using the other Bluetooth channels.

To switch between paired devices, simply short press the **Fn** key and the corresponding Bluetooth channel key (**1**, **2**, or **3**).

**System Requirements:** Compatible with Mac OS X 10.12 or higher and Bluetooth 4.0 or higher.

## THREE DEVICES SIMULTANEOUSLY

Short press to select, and long press to pair

## OPERATING INSTRUCTIONS

### Function Keys

The keyboard features a row of function keys (F1-F12) that perform various system functions when pressed in combination with the **Fn** key. These include media controls (play/pause, volume), brightness adjustment, and other shortcuts common to Mac OS.

### Numeric Keypad

The integrated numeric keypad provides convenient data entry for numbers and calculations. Ensure the Num Lock key is active if needed for specific applications.

# COMPACT FULL SIZE LAYOUT

With Numeric Keypad

## MAINTENANCE

To ensure the longevity and optimal performance of your keyboard, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to wipe the surface of the keyboard. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid excessive moisture.
- **Dust Cover:** Utilize the included silicone dust cover when the keyboard is not in use to protect it from dust, spills, and debris.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Liquids:** Do not expose the keyboard to liquids. In case of accidental spills, immediately power off the keyboard and allow it to dry completely before use.

## TROUBLESHOOTING

If you encounter issues with your Nasuque Bluetooth Keyboard, please refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Keyboard does not connect or is not detected.	Keyboard is off, low battery, not in pairing mode, or device Bluetooth is off.	Ensure keyboard is ON and charged. Put keyboard into pairing mode (long press Fn + channel key). Ensure Bluetooth is enabled on your device. Forget the device in Bluetooth settings and re-pair.
Keys are not responding or typing incorrectly.	Low battery, connection interference, or software issue.	Recharge the keyboard fully. Move closer to your device to reduce interference. Restart your device and the keyboard.
Difficulty switching between devices.	Incorrect key press or device not properly paired to selected channel.	Ensure you are short-pressing Fn + the correct channel key (1, 2, or 3). Verify each device is correctly paired to its assigned channel.
