Merax Twin Size Wood House Bed with Roof Instruction Manual

Model: JD0089

INTRODUCTION

Thank you for choosing the Merax Twin Size Wood House Bed with Roof. This manual provides essential information for the safe and correct assembly, operation, and maintenance of your new bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This unique bed features a whimsical house-shaped design with a roof, creating a fun and comfortable sleeping area that also serves as a play space. Constructed with a sturdy pinewood frame, it offers enhanced stability and durability. Slats are included, eliminating the need for a box spring or foundation.

SETUP AND ASSEMBLY

Before you begin, ensure all parts are present and undamaged. Clear a spacious area for assembly. Two adults are recommended for assembly.

Required Tools (Not Included):

- Phillips Head Screwdriver
- Allen Wrench (often included with hardware, but a personal set may be helpful)
- Rubber Mallet (optional, for gentle tapping)

Assembly Steps:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent scratches. Refer to the parts list (not provided in this manual, typically found in packaging) to identify each piece and hardware.
2. **Assemble Headboard and Footboard:** Attach the vertical posts to the horizontal rails for both the headboard and

footboard sections using the provided bolts and nuts. Ensure all connections are secure but do not overtighten until the entire frame is assembled.

3. **Attach Side Rails:** Connect the assembled headboard and footboard sections using the long side rails. Secure them with bolts, ensuring the bed frame is square and stable.
4. **Install Roof Frame:** Assemble the roof support beams according to the diagram. Attach the roof structure to the top of the bed frame posts. Ensure all roof connections are firm.
5. **Place Bed Slats:** Evenly space and secure the wooden slats across the side rails. The slats provide mattress support and eliminate the need for a box spring. Ensure each slat is properly seated and fastened.

OPERATING INSTRUCTIONS AND SAFETY

Once assembled, the Merax Twin Size Wood House Bed is ready for use. Please observe the following guidelines for safe operation:

- **Mattress Placement:** Place a standard twin-size mattress directly onto the wooden slats. No box spring is required.
- **Weight Capacity:** The bed is designed to support a maximum weight of 250 pounds. Do not exceed this limit to ensure safety and structural integrity.
- **Supervision:** For younger children, adult supervision is recommended, especially during play activities within the bed structure.
- **No Climbing:** Do not allow climbing on the roof structure or side rails, as this may cause injury or damage to the bed.
- **Ventilation:** The semi-enclosed design provides a comforting atmosphere while maintaining adequate air circulation.

MAINTENANCE

Proper care will extend the life and appearance of your Merax Wood House Bed.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these

can damage the wood finish.

- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Moisture:** Keep the bed in a dry environment. Prolonged exposure to moisture can cause wood damage.
- **Sunlight Exposure:** Avoid direct and prolonged exposure to sunlight, which can cause fading or discoloration of the wood finish.

TROUBLESHOOTING

If you encounter any issues with your Merax Twin Size Wood House Bed, please refer to the following common solutions:

- **Wobbling or Instability:** Ensure all bolts and screws are securely tightened. Check that the bed is placed on a flat, even surface.
- **Squeaking Noises:** Squeaking often indicates loose connections. Retighten all hardware. If squeaking persists, apply a small amount of lubricant (e.g., paraffin wax) to the joints where wood meets wood or metal.
- **Missing Parts:** If you find any parts missing upon unboxing, please contact Merax customer support immediately with your product model number and a description of the missing parts.
- **Damaged Parts:** Do not attempt to assemble or use the bed if any parts are damaged. Contact customer support for replacement parts.

SPECIFICATIONS

Model Number	JD0089
Size	Twin
Material	Wood+Plywood+Pinewood
Product Dimensions (L x W x H)	80.7" x 41.2" x 53.9"
