

Pafilly Pafilly-03

Pafilly Freestanding Bathtub Faucet Waterfall Brushed Gold

MODEL: PAFILLY-03

Brand: Pafilly

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Pafilly Freestanding Bathtub Faucet. Please read this manual thoroughly before installation and use to ensure proper function and longevity of the product.

Key Features:

- High-quality solid brass construction for durability and corrosion resistance.
- Multi-layer electroplating for a bright, smooth, and durable brushed gold finish.
- Single-handle design for easy control of water flow and temperature.
- 360-degree swivel high-arch spout for flexible positioning.
- Integrated handheld shower with 44 nozzles and a 59-inch double spiral stainless steel hose.
- Diverter knob for seamless switching between tub spout and handheld shower.
- High water flow rate of 6 GPM for quick tub filling.

2. Safety Information

Please observe the following safety precautions during installation and use:

- Always turn off the main water supply before beginning any installation or maintenance.
- Ensure all connections are secure and watertight to prevent leaks.
- If you are unsure about any part of the installation process, consult a qualified plumber.
- Do not use abrasive cleaners or harsh chemicals on the faucet's finish, as this may cause damage.
- Keep small parts out of reach of children.

3. Package Contents

Verify that all components are present before starting installation:

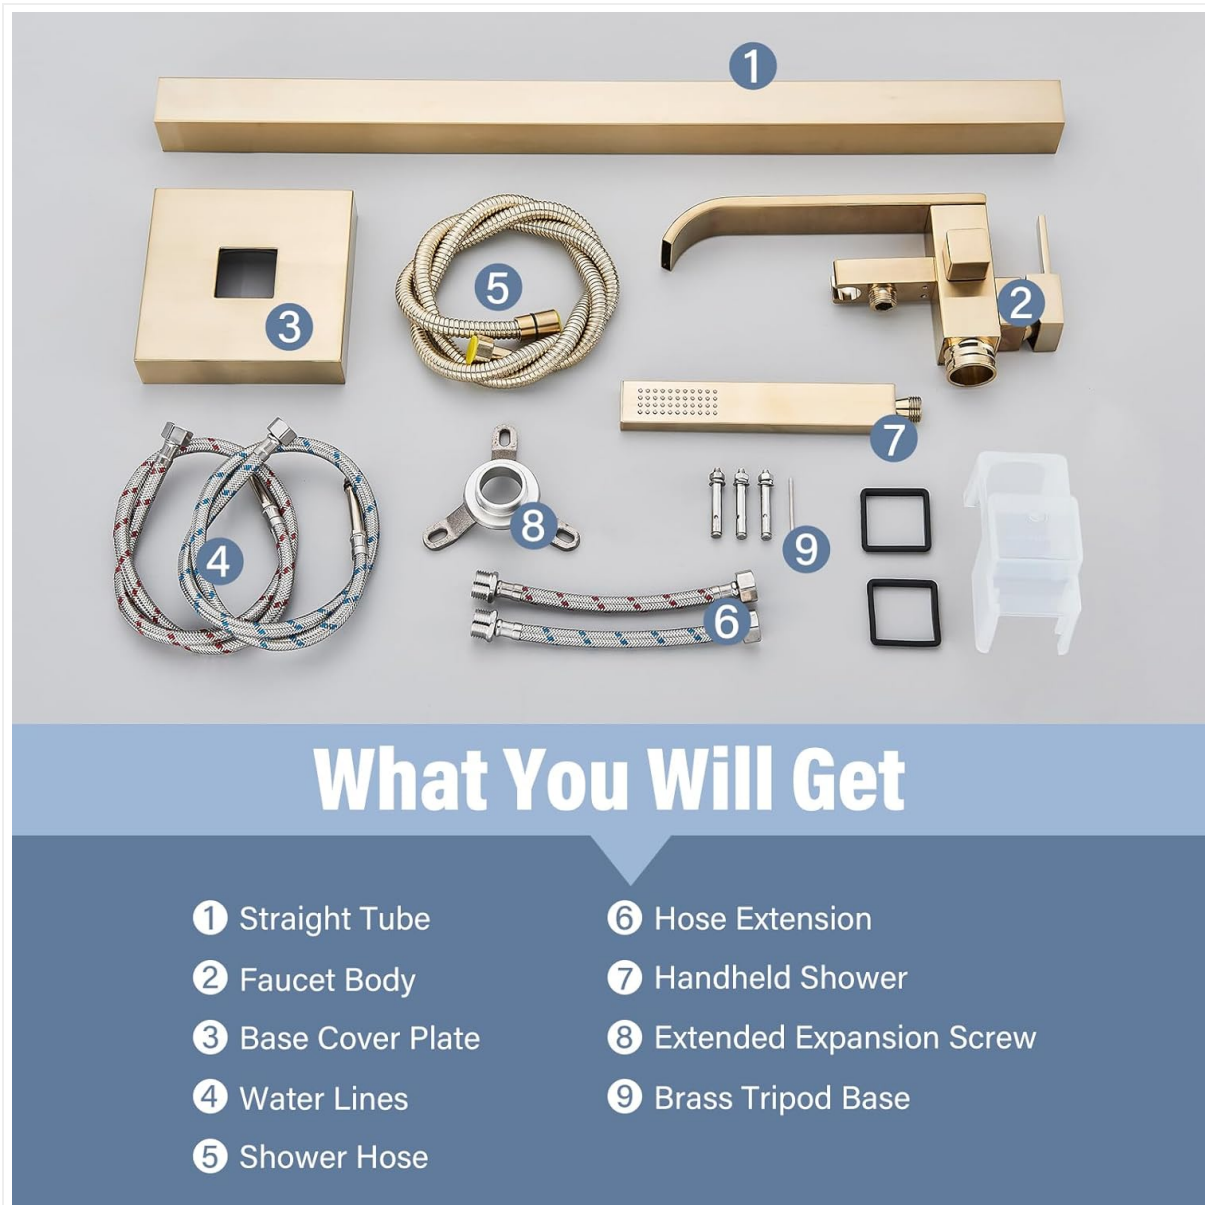

Image: All components included in the package.

- Bathtub Faucet Body
- Brass Faucet Tube
- Handheld Shower
- 3/8-inch Cold and Hot Hoses
- Base Cover
- Mounting Hardware (including Brass Tripod Base and Extended Expansion Screws)
- Installation Instruction Manual
- Hose Extension

4. Setup and Installation

This freestanding faucet is designed for floor-mounted installation. Professional installation is recommended.

Your browser does not support the video tag.

General Steps:

1. **Prepare the Floor:** Identify the desired location for the faucet. Ensure there is adequate space and structural support for the floor-mounted base.
2. **Mark and Drill:** Mark the positions for the mounting holes and the water supply lines on the floor. Carefully drill the necessary holes.
3. **Install Mounting Hardware:** Secure the brass tripod base to the floor using the extended expansion screws.
4. **Connect Water Lines:** Connect the hot and cold water supply lines to the faucet body. Ensure all connections are tight and sealed.
5. **Assemble Faucet Body:** Attach the brass faucet tube and the main faucet body to the floor-mounted base.
6. **Install Handheld Shower:** Connect the handheld shower and its hose to the designated outlet on the faucet body.
7. **Secure Base Cover:** Place the base cover over the mounting hardware for a finished look.
8. **Test for Leaks:** Turn on the main water supply and check all connections for any leaks.

Video: Demonstration of the faucet's waterfall and handheld shower functions.

- **Water Flow and Temperature:** Use the single handle to control both water flow and temperature. Move the handle up to increase flow and down to decrease. Rotate it left for hot water and right for cold water.
- **Spout Operation:** The main spout delivers a waterfall flow. It can swivel 360 degrees for optimal positioning over your bathtub.
- **Handheld Shower:** To activate the handheld shower, use the diverter knob located on the faucet body. Turn the knob to switch the water flow from the main spout to the handheld shower.

6. Maintenance

Regular cleaning and proper care will help maintain the appearance and function of your faucet.

- **Cleaning the Finish:** Use a soft, damp cloth and mild soap to clean the brushed gold finish. Rinse thoroughly with clean water and dry with a soft cloth to prevent water spots.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, ammonia-based products, bleach, or other harsh chemicals, as these can damage the finish and internal components.
- **Handheld Shower Nozzles:** Periodically check the handheld shower nozzles for mineral buildup. Gently rub the rubber nozzles to dislodge any deposits.

7. Troubleshooting

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator or shower nozzles; partially closed shut-off valve.	Clean the aerator/nozzles. Ensure shut-off valves are fully open.
Leaks from Faucet Base	Loose connections; damaged O-rings or seals.	Check and tighten all connections. Replace O-rings or seals if damaged.
Water Temperature Issues	Incorrect hot/cold water supply connections; faulty cartridge.	Verify hot and cold lines are correctly connected. If issue persists, contact support for cartridge replacement.
Diverter Not Switching Properly	Debris in diverter mechanism; worn diverter.	Flush the system to clear debris. If necessary, replace the diverter.

8. Specifications

Detailed product specifications:

- **Brand:** Pafilly

- **Model Number:** Pafilly-03
- **Color:** Brushed Gold
- **Material:** Solid Brass, Acrylonitrile Butadiene Styrene (ABS), Stainless Steel
- **Finish Type:** Brushed
- **Number of Handles:** 1
- **Handle Material:** Metal
