Hofstein Toledo 3-Light Pendant Lamp Instruction Manual

Model: 4058383569160

INTRODUCTION

This manual provides detailed instructions for the safe installation, operation, and maintenance of your Hofstein Toledo 3-Light Pendant Lamp. Please read these instructions carefully before beginning installation and retain them for future reference. Proper installation and use will ensure the longevity and safe operation of your lighting fixture.

SAFETY INSTRUCTIONS

- **Electrical Safety:** Always disconnect the main power supply at the circuit breaker before attempting any installation, maintenance, or bulb replacement.
- **Professional Installation:** If you are unsure about electrical wiring, consult a qualified electrician for installation.
- **Voltage:** Ensure the power supply voltage matches the lamp's requirements (230 Volt).
- **Wattage:** Do not exceed the maximum wattage of 60 Watts per E27 bulb.
- **IP20 Rating:** This fixture is rated IP20, meaning it is protected against solid objects larger than 12.5mm but has no protection against water. It is suitable for indoor use only. Avoid exposure to water or high humidity.
- **Protection Class I:** This product must be connected to an earthed (grounded) electrical supply.
- **Bulb Type:** Use only E27 base bulbs.
- **Heat:** Allow bulbs to cool completely before touching or replacing them.

PACKAGE CONTENTS

Please check that all components are present and undamaged before beginning installation.

- 1x Wooden Beam with integrated wiring
- 3x Lamp Holders with adjustable cables
- 1x Ceiling Canopy (black metal)
- 1x Mounting Bracket
- Mounting Hardware (screws, wall anchors)
- *Note: E27 light bulbs are NOT included and must be purchased separately.*

SETUP AND INSTALLATION

Follow these steps carefully to install your Hofstein Toledo pendant lamp.

1. Prepare for Installation:

- Turn off the main power supply to the installation area at the circuit breaker.
- Ensure the mounting surface is suitable to support the weight of the fixture.

2. Mount the Bracket:

- Position the mounting bracket against the ceiling at your desired location.
- Mark the drilling points.
- Drill holes and insert appropriate wall anchors (if necessary).
- Securely fasten the mounting bracket to the ceiling using the provided screws.

3. Connect Electrical Wires:

- Carefully connect the lamp's electrical wires to your household wiring. Typically, this involves connecting live (L), neutral (N), and ground (E) wires. Match colors (e.g., brown/black to live, blue to neutral, green/yellow to ground).
- Ensure all connections are secure and properly insulated.

4. Attach the Ceiling Canopy:

- Carefully push the ceiling canopy up against the ceiling, aligning it with the mounting bracket.
- Secure the canopy to the bracket using the provided screws or fasteners.

5. Adjust Cable Length:

- The cables for the lamp holders can be adjusted by wrapping them around the wooden beam.
- Adjust each cable to achieve your desired height and aesthetic balance. Ensure the cables are securely wrapped and not under excessive tension.

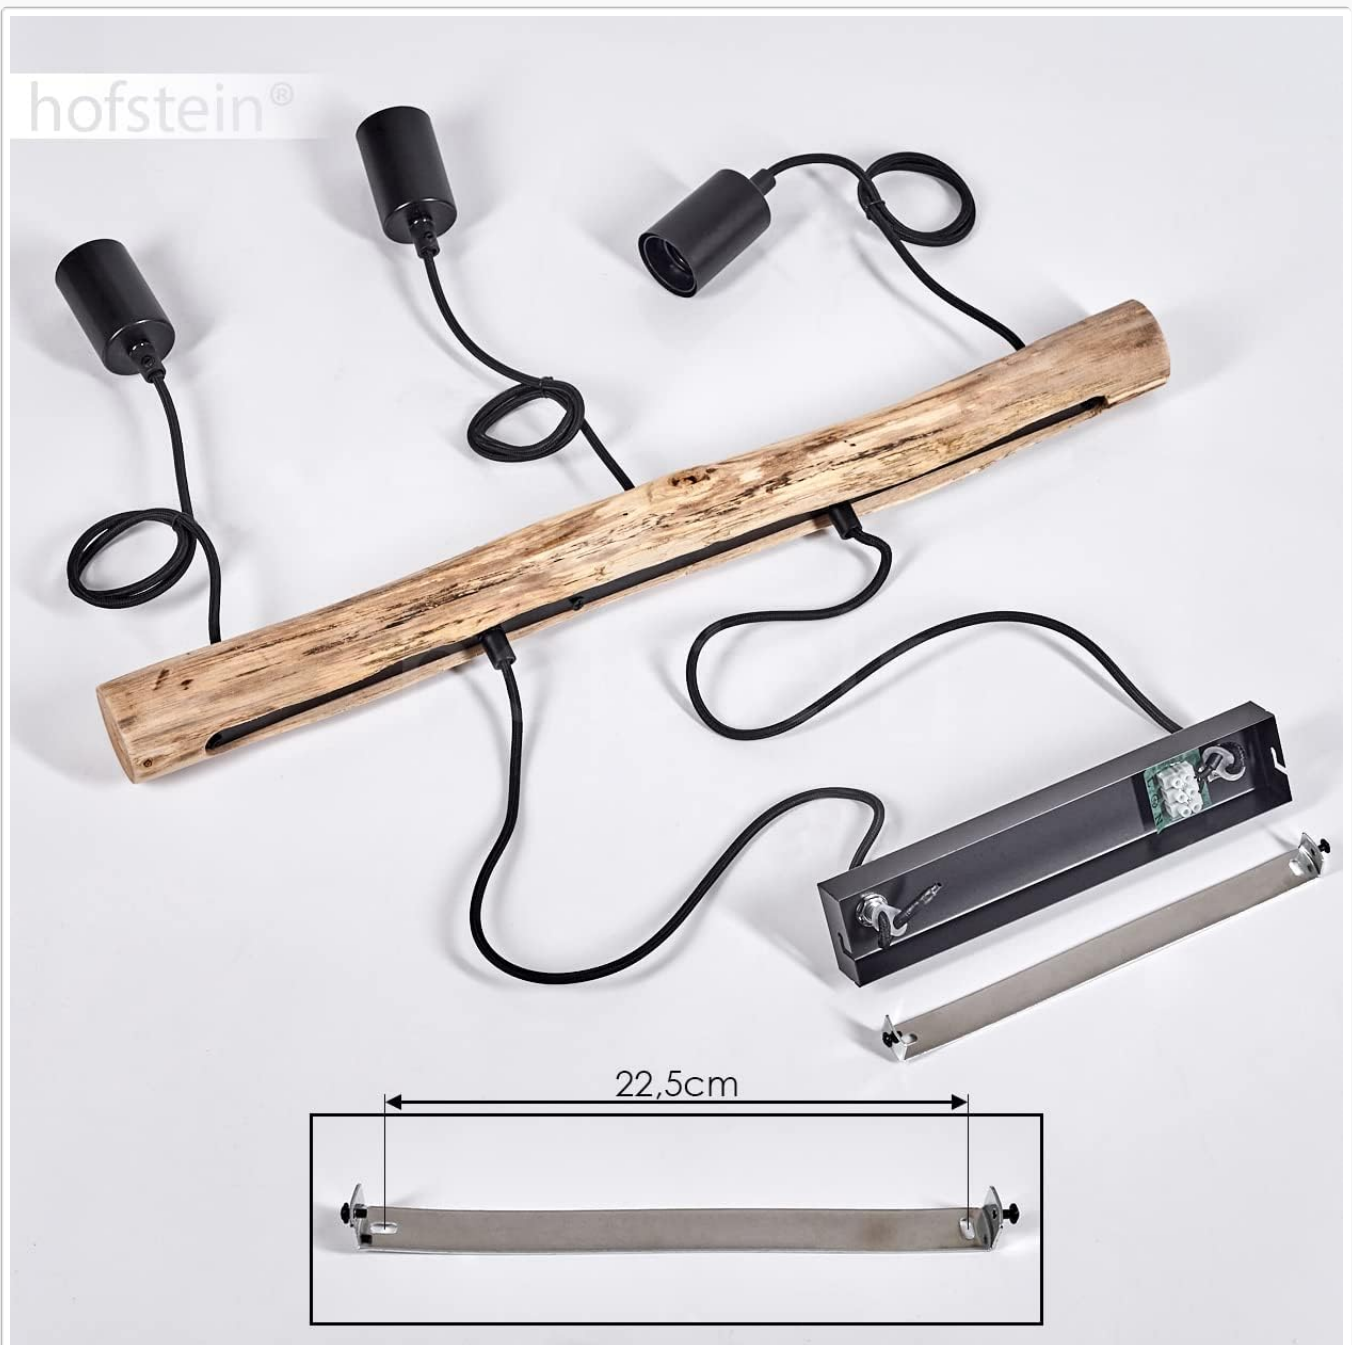

Image: A detailed view demonstrating how the lamp's cables can be wrapped around the wooden beam to adjust the suspension height.

6. Install Light Bulbs:

- Screw E27 light bulbs (not included) into each of the three lamp holders. Do not overtighten.

- Ensure the bulbs do not exceed the maximum wattage of 60 Watts per bulb.

7. Restore Power:

- Once installation is complete and all connections are secure, restore power at the circuit breaker.
- Test the lamp to ensure it functions correctly.

Image: This diagram illustrates the key dimensions of the pendant lamp, including its maximum height of 125 cm, length of 60 cm, and beam diameter of 4.5 cm.

OPERATING INSTRUCTIONS

The Hofstein Toledo pendant lamp is designed for simple operation.

- **Power On/Off:** The lamp is controlled by your room's standard wall switch.
- **Dimming Functionality:** This fixture is dimmable, but requires an external dimmer switch (not included) and compatible dimmable E27 bulbs. Consult a qualified electrician for dimmer installation.

Image: The Hofstein Toledo pendant lamp features a natural wood beam with three black metal lamp holders, suspended over a dining area.

MAINTENANCE

Regular maintenance will help keep your lamp in optimal condition.

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the wooden beam and metal parts. Do not use abrasive cleaners, solvents, or liquids, as these can damage the finish or electrical components.
- **Bulb Replacement:** Ensure the power is off and bulbs have cooled before attempting to replace them. Carefully unscrew the old bulb and screw in a new E27 bulb, ensuring it does not exceed 60 Watts.
- **Inspection:** Periodically check the wiring and connections for any signs of wear or damage. If any issues are found, disconnect power and consult a qualified electrician.

TROUBLESHOOTING

If you encounter issues with your lamp, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lamp does not light up	No power supply Faulty bulb Loose wiring connection	Check circuit breaker and wall switch Replace bulb with a new one Disconnect power and check wiring connections (consult electrician if unsure)
Light flickers	Loose bulb Incompatible dimmer or bulb Unstable power supply	Tighten bulb Ensure dimmer and bulbs are compatible (use dimmable bulbs with a dimmer) Consult electrician to check household wiring
Lamp makes buzzing noise	Incompatible dimmer or bulb Loose wiring	Ensure dimmer and bulbs are compatible Disconnect power and check wiring connections

If these steps do not resolve the issue, please contact Hofstein customer support or a qualified electrician.
