2. Product Overview

2.1 Key Features

- **1000 DPI Optical Sensor:** Provides precise and smooth cursor control.
- **Ergonomic and Symmetrical Design:** Suitable for both right-handed and left-handed users, ensuring comfortable use over extended periods.
- **USB Wired Connectivity:** Reliable plug-and-play connection without the need for batteries.
- **Durable Construction:** Designed for a long lifespan with over 3,000,000 key clicks.
- **Compact Size:** Dimensions of 102*62*38mm for easy handling.

2.2 Package Contents

- 1 x HAVIT MS753 USB Wired Computer Mouse
- 1 x User Manual (this document)

3. Setup

1. **Connect the USB Cable:** Locate an available USB port on your computer.
2. **Plug in the Mouse:** Insert the USB connector of the HAVIT MS753 mouse into the USB port.
3. **Driver Installation:** The mouse is plug-and-play and typically does not require additional driver installation. Your operating system (e.g., Windows, Linux) will automatically detect and configure the device.
4. **Verify Functionality:** Once connected, move the mouse and observe if the cursor on your screen responds.

Image 3.1: The HAVIT MS753 mouse positioned on a keyboard, illustrating its compact size and wired connection.

4. Operating Instructions

The HAVIT MS753 mouse features standard three-button functionality for intuitive navigation.

- **Left Button:** Primary click function for selecting items, opening files, and interacting with software.
- **Right Button:** Secondary click function, typically used to open context menus or access additional options.
- **Scroll Wheel (Middle Button):**
  - **Scroll:** Roll up or down to navigate through documents and web pages.
  - **Click:** Press down on the scroll wheel for a middle-click function, often used to open links in new tabs or for specific application functions.

Due to its ambidextrous design, the mouse can be comfortably used by both left-handed and right-handed individuals without requiring special configuration.

5. Maintenance

Proper maintenance ensures the longevity and optimal performance of your HAVIT MS753 mouse.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Avoid using harsh chemicals or solvents.
- **Sensor Cleaning:** Occasionally, dust or debris may accumulate around the optical sensor on the underside of the mouse. Use a cotton swab or compressed air to gently clean the sensor area.
- **Cable Care:** Avoid sharply bending or pulling the USB cable to prevent internal damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

6. Troubleshooting

If you encounter issues with your HAVIT MS753 mouse, please refer to the following common solutions:

- **Mouse Not Responding:**
  - Ensure the USB cable is securely plugged into a working USB port on your computer.
  - Try plugging the mouse into a different USB port.
  - Restart your computer.
  - Test the mouse on another computer to determine if the issue is with the mouse or the computer.
- **Erratic Cursor Movement:**
  - Clean the optical sensor on the underside of the mouse.
  - Ensure you are using the mouse on a clean, non-reflective, and uniform surface (e.g., a mouse pad).
  - Avoid using the mouse on glass or highly reflective surfaces.
- **Buttons Not Functioning:**
  - Check if any debris is lodged under the buttons.
  - Ensure the mouse is properly connected to the computer.
