WoldoClean Super Glue Universal Instruction Manual

Model: 9778

1. INTRODUCTION

The WoldoClean Super Glue Universal is a high-strength, fast-drying cyanoacrylate adhesive designed for a wide range of household, craft, and industrial repairs. It forms a crystal-clear, ultra-strong bond on various materials within seconds, providing durable and reliable adhesion.

2. SAFETY INFORMATION

WARNING: Bonds skin instantly. Irritant. Read cautions on label.

- **Keep out of reach of children.**
- Avoid contact with skin and eyes. In case of contact, flush immediately with plenty of water and seek medical attention.
- Use in a well-ventilated area.
- Do not ingest. If swallowed, do not induce vomiting; call a poison control center or doctor immediately.
- Store in a cool, dry place, away from direct sunlight and heat sources.

3. PRODUCT FEATURES

- **Fast Drying:** Bonds in 10-45 seconds.
- **High-Strength Bonding:** Delivers a crystal-clear and ultra-strong bond.

- **Versatile:** Suitable for metal, plastic, wood, ceramic, glass, leather, rubber, porcelain, stone, marble, plaster, and paper.
- **Durable:** Forms a waterproof, heat-resistant (239°F to -49°F), chemical-resistant, and UV-resistant seal.
- **Anti-Clog Cap:** Designed to prevent drying out and clogging for extended usability.
- **Fine-Tip Applicator:** Allows for clean and accurate application.
- **Sandable and Paintable:** Once cured, the adhesive can be sanded and painted over.

The advertisement features a white plastic bottle of WoldoClean Professional Super Glue with a clear, fine-tipped applicator. The bottle is set against a background of red and orange diagonal stripes. The label on the bottle includes the brand name 'WoldoClean Professional', 'SUPER GLUE', 'UNIVERSAL', 'HIGH-STRENGTH BONDING', and 'Net Wt. 25g (0.88 oz.)'. A warning at the bottom of the label reads: 'WARNING: BONDS SKIN INSTANTLY. IRRITANT. READ CAUTIONS ON LABEL.' To the right of the bottle, the brand name 'WoldoClean Professional' is displayed in a dark blue box. Below this, the text 'BONDS IN SECONDS' is written in large, bold, white capital letters. Three circular icons with gold symbols are arranged vertically: a chain link, a stopwatch, and a paintbrush. To the right of each icon is a corresponding text description: 'High-strength bonding', 'Dries quickly transparent', and 'Sandable and paintable'.

4. SETUP AND PREPARATION

- Ensure surfaces to be bonded are clean, dry, and free of grease, oil, dust, or any other contaminants.
- For best results, lightly abrade smooth surfaces to improve adhesion.
- Protect work area with newspaper or plastic sheeting to prevent accidental bonding.
- Have all necessary items ready before applying the glue, as bonding occurs rapidly.

5. OPERATING INSTRUCTIONS

Follow these steps for optimal bonding:

1. **Clean Surfaces:** Ensure surfaces are clean, dry, and free of grease.
2. **Apply Glue:** Apply a thin layer of glue to **one** surface only. A small amount is sufficient.
3. **Press Firmly:** Press the two surfaces together very firmly for 10-45 seconds. The exact time may vary depending on the material and environmental conditions.

4. **Curing:** The glue will achieve full cure in 24 hours for maximum strength.

THE GLUE IS FULLY CURED AFTER 24 HOURS

QUICK GUIDE

- 1 Surfaces must be clean, dry and free of grease
- 2 Apply a thin layer of glue to **one** surface
- 3 Press very firmly together for 10-45 seconds

i WIPE THE TIP AFTER USE - STORE GLUE UPRIGHT IN A COOL PLACE

Video 2: This video provides a general overview of the WoldoClean Super Glue for All Purpose 25g, highlighting its ease of use and versatility for everyday repairs.

6. MAINTENANCE AND STORAGE

- After each use, wipe the tip of the applicator clean to prevent residue buildup and ensure the anti-clog cap functions effectively.
- Always store the glue upright in a cool, dry place to maintain its shelf life and prevent premature drying.
- Ensure the cap is securely fastened after each use.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Glue not bonding	Surfaces are not clean or dry; insufficient pressure; incorrect material compatibility.	Ensure surfaces are clean and dry. Apply firm, consistent pressure. Verify material compatibility.
Tip is clogged	Residue buildup from previous use; improper storage.	Wipe tip immediately after use. Store upright with cap securely fastened. If clogged, gently clear with a pin (avoiding contact with skin).
Glue dries too quickly	High humidity; too much glue applied.	Work in a less humid environment if possible. Apply a very thin layer of glue. Work quickly.
Accidental skin bonding	Direct contact with glue.	Do not pull apart. Soak bonded area in warm, soapy water or use acetone-based nail polish remover. Gently peel apart. Seek medical attention if irritation persists.

8. SPECIFICATIONS

- **Product Dimensions:** 0.15 x 0.43 x 0.09 inches
- **Item Weight:** 1.06 ounces (25g)
- **Model Number:** 9778
- **Manufacturer:** WoldoClean
- **Material:** Cyanoacrylate
- **Compatible Materials:** Wood, Glass, Ceramic, Concrete, Metal, Plastic, Rubber, Porcelain, Stone, Marble, Plaster, Paper
- **Cure Time:** Bonds in 10-45 seconds; full cure in 24 hours
- **Temperature Resistance:** -49°F to 239°F
