SETUP INSTRUCTIONS

1. Charging the Devices

Both the keyboard and mouse feature built-in rechargeable batteries. Before first use, ensure both devices are fully charged.

- Connect the provided USB charging cable to the charging port on the keyboard and mouse.
- Connect the other end of the USB cable to a standard USB power source (e.g., computer USB port, USB wall adapter).
- The charging indicator light will illuminate during charging and turn off when fully charged.

USB Interface Environmentally friendly and durable

Built in rechargeable battery
Rechargeable repeatedly
Long lasting standby, long battery life

2. Bluetooth Pairing

The keyboard and mouse connect wirelessly via Bluetooth. Follow these steps to pair them with your device:

1. **Power On:** Locate the ON/OFF switch on both the keyboard and the mouse and slide it to the "ON" position.
2. **Activate Pairing Mode (Keyboard):** Press the "Connect" button on the keyboard. The Bluetooth indicator light will start blinking, indicating it is in pairing mode.
3. **Activate Pairing Mode (Mouse):** The mouse typically enters pairing mode automatically when powered on. If not, check for a small button on the underside or a specific key combination.
4. **Enable Bluetooth on Your Device:** On your computer, tablet, or smartphone, go to the Bluetooth settings.
5. **Search for Devices:** Your device will scan for available Bluetooth devices. Look for "Bluetooth Keyboard" and "Bluetooth Mouse" (or similar names).
6. **Connect:** Select each device from the list to pair. You may be prompted to enter a code displayed on

your screen for the keyboard.

OPERATING INSTRUCTIONS

Keyboard Functions

- **Operating System Switching:** The keyboard supports multiple operating systems. Use the following key combinations to switch modes for optimal functionality:
 - **Fn + Q:** For Android devices
 - **Fn + W:** For Windows devices
 - **Fn + E:** For iOS/Mac devices
- **Function Keys:** The top row of keys (F1-F12) can be used as standard function keys or media control keys. Press the **Fn** key simultaneously with the desired function key to activate its secondary function (e.g., volume control, playback).
- **Typing Experience:** The keyboard features a scissor-foot structure for comfortable and responsive typing.

Keyboard keys are designed with scissor foot structure

Good rebound effect
Feel comfortable
Clear and powerful typing

Mouse Functions

- **DPI Adjustment:** The mouse offers three adjustable DPI settings (800-1200-1600) to control cursor sensitivity. Press the DPI button (usually located near the scroll wheel) to cycle through the settings.
- **Ergonomic Design:** The ultra-thin and quiet mouse is designed for comfortable use during daily office tasks and gaming.

Three gears adjustable DPI, 800-1200-1600
Easily cope with daily office and game moments

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the keyboard and mouse. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the devices.
- **Battery Care:** To prolong battery life, avoid fully discharging the devices frequently. Recharge them when the battery indicator is low. If storing for an extended period, charge them to about 50% and recharge every few months.
- **Storage:** Store the devices in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Common Issues and Solutions

- **Device not pairing:**
 - Ensure both the keyboard and mouse are fully charged and powered on.
 - Make sure Bluetooth is enabled on your host device (computer, tablet, phone).
 - Press the "Connect" button on the keyboard to enter pairing mode.
 - Remove any previously paired instances of the keyboard/mouse from your device's Bluetooth settings and attempt to pair again.
 - Ensure the devices are within the 10-meter operating range.
- **Keys or mouse unresponsive:**
 - Check battery levels and recharge if necessary.
 - Ensure the devices are still connected via Bluetooth. Re-pair if the connection is lost.
 - Restart your host device.
- **Incorrect characters typed (keyboard):**
 - Verify that the keyboard is set to the correct operating system mode (Fn+Q for Android, Fn+W for Windows, Fn+E for iOS/Mac).
