XBERSTAR WH800/WH-H800 Compatible

XBERSTAR Replacement Ear Pads for Sony WH800 WH-H800 Headphones User Manual

1. INTRODUCTION

This manual provides detailed instructions for the installation, proper use, and maintenance of your XBERSTAR Replacement Ear Pads. These ear pads are specifically designed to be compatible with Sony WH800 and WH-H800 headphones, offering a comfortable and acoustically sound listening experience. Please read this manual thoroughly before proceeding with installation.

2. PACKAGE CONTENTS

Upon opening your package, please verify that all components are present and undamaged.

- One (1) Pair of XBERSTAR Replacement Ear Pads (Black)

3. COMPATIBILITY

These replacement ear pads are engineered for direct compatibility with the following headphone models:

- Sony WH800 Headphones
- Sony WH-H800 Headphones

Ensure your headphone model matches one of the listed compatible devices for proper fit and function.

4. FEATURES

The XBERSTAR Replacement Ear Pads offer several key features designed to enhance your listening comfort and experience:

- **High-Quality Material:** Constructed from durable PU leather and high-density memory foam for extended comfort and longevity.
- **Enhanced Comfort:** The soft and highly elastic foam provides maximum ear comfort, allowing for

prolonged listening sessions.

- **Acoustic Seal:** Designed to form an effective acoustic seal, contributing to improved sound isolation and a quieter listening environment.
- **Easy Installation:** Engineered for straightforward installation, allowing users to replace worn-out ear pads with minimal effort.

5. INSTALLATION INSTRUCTIONS

Follow these steps carefully to replace the ear pads on your Sony WH800 or WH-H800 headphones.

1. **Remove Old Ear Pads:** Gently peel off the old ear pads from the headphone cups. They are typically held in place by a thin rim or adhesive. Take care not to damage the underlying speaker mesh or internal components.
2. **Clean Headphone Surface:** Use a soft, dry cloth to clean any dust or debris from the headphone cup's surface where the new ear pads will attach. Ensure the surface is clean and dry.
3. **Align New Ear Pads:** Take one new XBERSTAR ear pad. Align the inner rim of the ear pad with the groove or mounting ring on the headphone cup. Ensure the ear pad is oriented correctly (e.g., if there's a specific top/bottom or L/R marking, though these ear pads are generally symmetrical).
4. **Secure Ear Pads:** Starting from one point, gently stretch the edge of the ear pad over the mounting ring of the headphone cup. Work your way around the circumference, ensuring the entire rim of the ear pad is securely seated in the groove. Apply gentle, even pressure.
5. **Verify Fit:** Once installed, gently press around the entire ear pad to ensure it is firmly attached and there are no gaps. Repeat the process for the other ear pad.

6. MAINTENANCE AND CARE

To ensure the longevity and hygiene of your replacement ear pads, follow these care guidelines:

- **Cleaning:** Wipe the surface of the ear pads regularly with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the PU leather and foam.
- **Storage:** When not in use, store your headphones in a clean, dry place away from direct sunlight and extreme temperatures.
- **Avoid Punctures:** Protect the ear pads from sharp objects that could puncture or tear the material.

7. TROUBLESHOOTING

If you encounter any issues with your replacement ear pads, consider the following:

- **Ear Pads Do Not Fit:** Double-check that your headphone model is indeed a Sony WH800 or WH-H800. Ensure you are aligning the ear pad correctly with the headphone cup's mounting groove and applying even pressure during installation.

- **Discomfort After Installation:** Allow a short period for the memory foam to conform to your ears. If discomfort persists, re-check the installation to ensure the ear pads are not twisted or improperly seated.
- **Sound Quality Issues:** Ensure the ear pads are fully sealed around the headphone cups. Gaps can affect sound isolation and bass response. Also, verify that the internal speaker mesh was not damaged during the removal of old ear pads or installation of new ones.

8. SPECIFICATIONS

Material	Polyurethane (PU) Leather + Sponge
Color	Black
Compatible Devices	Sony WH800, Sony WH-H800 Headphones
Item Weight	Approximately 1.41 ounces (40 grams) per pair
Package Dimensions	2.36 x 1.57 x 0.39 inches (approximate)
