## One Fire BL-XK04

# One Fire Star Projector Night Light

MODEL: BL-XK04 - INSTRUCTION MANUAL

## Introduction

Thank you for choosing the One Fire Star Projector Night Light. This device is designed to transform any room into a captivating celestial experience with its dynamic star, moon, and nebula projections. This manual provides essential information for safe and effective use of your projector.

## 1. Setup

The One Fire Star Projector is designed for immediate use with no complex assembly required. Simply follow these steps to get started:

1. **Unboxing:** Carefully remove all components from the packaging. Ensure you have the Star Projector unit, the remote control, and the USB power cable.

2. **Power Connection:** Connect the USB power cable to the projector. Plug the other end of the USB cable into a compatible USB power adapter (not included) or a USB port on a device such as a computer or power bank.

3. **Placement:** Place the projector on a stable, flat surface. For optimal projection, position it in the center of the room or at a desired angle to cover the ceiling and walls. The projector features a 360° adjustable projection angle.

4. **Remote Control:** The remote control is included for convenient operation. Ensure any battery tab is removed before first use.

## 2. Operating Instructions

Operate your One Fire Star Projector using either the integrated controls on the unit or the provided remote control.

### 2.1. Basic Controls (Unit & Remote)

- **Power On/Off:** Press the power button on the unit or the red power button on the remote.
- **Change Lighting Modes/Colors:** Use the 'MODE' button on the unit or the color buttons (R, G, B, W, Y, etc.) and mixed color buttons on the remote to cycle through 43 lighting modes and 10 nebula colors.
- **Adjust Brightness:** Use the '+' and '-' buttons on the unit or the brightness control buttons (sun icon) on the remote to adjust the projection intensity (30% to 100%).
- **Adjust Flow Speed:** Use the 'S+' and 'S-' buttons on the unit or the speed control buttons on the remote to change the movement speed of the nebula effects.

### 2.2. Advanced Features

- **Auto-Off Timer:** Set the projector to automatically turn off after 4 hours using the remote control. This is ideal for bedtime use.
- **Voice Control Function:** The projector can flicker rhythmically according to the beat of music or sound, creating a dynamic atmosphere for parties or relaxation.
- **360° Rotation:** The projector's base allows for a 360° adjustable projection angle, enabling you to direct the light effects precisely where desired.

## 3. Key Features

- **Dynamic Projections:** Projects clear images of stars, moon, and nebula clouds.
- **Extensive Lighting Options:** Offers 43 lighting modes, 10 nebula colors (blue, green, red, white, and combinations), and 3 distinct patterns.
- **Adjustable Brightness & Speed:** Customize the intensity and flow speed of the projections.
- **Remote Control:** Full control over all functions from a distance.
- **Auto-Off Timer:** Convenient 4-hour automatic shutdown.
- **Voice Control:** Lights synchronize with music or sound for an immersive experience.
- **360° Rotatable Base:** Direct the projection to any desired area.

## 4. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the surface of the projector. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the projector in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the projector with care. Avoid dropping or subjecting it to strong impacts.

## 5. Troubleshooting

- **Projector does not turn on:**
    - Ensure the USB cable is securely connected to both the projector and a working power source.
    - Verify the power adapter (if used) is functional and plugged into a live outlet.
- **Remote control is not working:**

- Check if the remote control's battery is correctly inserted and has sufficient power. Replace if necessary.
- Ensure there are no obstructions between the remote and the projector's sensor.

- **Lights are dim or unclear:**

  - Adjust the brightness settings using the remote or unit controls.
  - Ensure the room is sufficiently dark for optimal projection clarity.
  - Clean the projection lens with a soft cloth to remove any dust or smudges.

## 6. Specifications

| Feature | Detail |
|---|---|
| Model Number | BL-XK04 |
| Brand | One Fire |
| Color | Black |
| Material | Acrylic |
| Light Source Type | LED |
| Power Source | Battery Powered (Note: Requires external USB power adapter) |
| Item Weight | 10.8 ounces (0.31 Kilograms) |
| Product Dimensions | 3.94"L x 1.97"W x 3.94"H |
| Included Components | Remote Control |
| Bulb Features | Voice control, Sound activation, Color changing, Dimmability, Multiple lighting modes |
