The Omana Magnetic Key Box is designed for easy and secure installation on any flat, stable metal surface. Ensure the chosen surface is clean and free of rust or debris for optimal magnetic adhesion.

Installation Steps:

1. **Identify a Suitable Location:** Choose a discreet, flat metal surface for attachment. Common locations include the underside of a vehicle (frame, bumper, wheel well), or metal surfaces in a home, office, or factory.
2. **Clean the Surface:** Wipe the chosen metal surface clean to ensure maximum magnetic grip.
3. **Attach the Key Box:** Firmly press the key box onto the metal surface. The strong magnets will secure it in place. Always test the magnet's strength by gently pulling on the box to ensure it is securely attached before relying on it.
