# Yizosh Metal Storage Locking Cabinet User Manual

Model: 4DC-GW

## 1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Yizosh Metal Storage Locking Cabinet. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## 2. SAFETY INFORMATION

### WARNING:

- Do not use in areas prone to flooding.
- Keep away from heat sources.
- Always secure the cabinet when not in use to prevent unauthorized access.
- Exercise caution during assembly as metal edges may be sharp. Wear gloves if necessary.
- Ensure the cabinet is placed on a level surface to prevent tipping.

## 3. PACKAGE CONTENTS

Verify all parts are present before beginning assembly. Refer to the detailed assembly instructions included in the package for specific part identification (e.g., Letter A, B, C, etc.).

- Metal Panels (various sizes for sides, top, bottom, back, doors)
- Adjustable Shelves (2 included)
- Locking Mechanism with Keys (2 keys per lock, multiple locks)
- Handles
- Assembly Hardware (screws, nuts, shelf clips)
- Instruction Manual

## 4. SETUP AND ASSEMBLY INSTRUCTIONS

Assembly requires careful attention to detail. It is recommended to have a second person for assistance, especially when lifting larger panels. Some areas may be tight for screws, requiring smaller hands or specialized tools.

### 4.1. Visual Overview

The Yizosh Metal Storage Locking Cabinet features four doors and two adjustable shelves, providing ample storage space. It is constructed from heavy-gauge cold-rolled steel plate for durability.

Dimensions: 15.7"D x 31.5"W x 70.87"H. Ensure you have adequate space for assembly and placement.

## 4.2. Assembly Steps

Follow the step-by-step video guide provided by the manufacturer for detailed assembly instructions. This video demonstrates the process of connecting panels, installing shelves, and attaching doors.

Official Assembly Video: "How to Assemble a Metal Cabinet Quickly and Easily" by Yizosh. This video provides a comprehensive walkthrough of the assembly process.

### 1. Step 1: Prepare Panels

Lay out all panels and identify them according to the included manual. Ensure you have all necessary screws and tools.

**2. Step 2: Assemble Base Frame**

Connect the bottom and side panels using the provided screws. Ensure all connections are secure.

**3. Step 3: Attach Back Panels**

Carefully slide or attach the back panels into their designated slots.

**4. Step 4: Install Shelf Supports**

Insert the shelf clips into the desired height slots on the side panels. Note: Some users have reported that shelf clips may not lock securely; ensure they are firmly in place.

**5. Step 5: Place Adjustable Shelves**

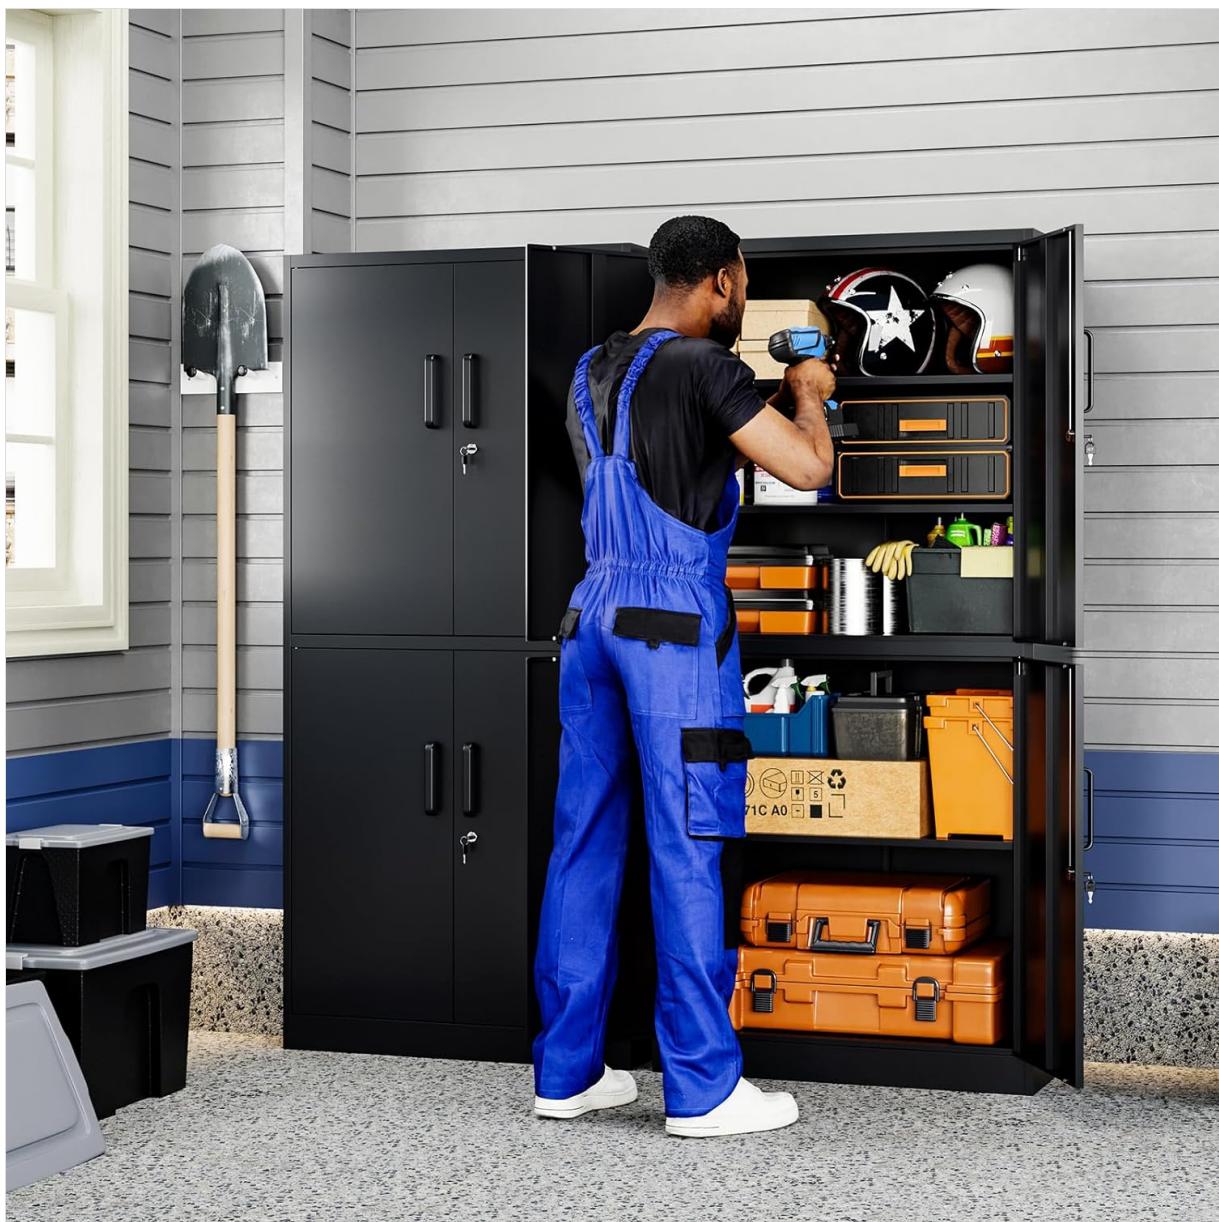

Carefully place the adjustable shelves onto the installed shelf clips. The shelves can hold up to 180 lbs each.

**6. Step 6: Attach Doors and Handles**

Mount the four doors to the cabinet frame using the hinges. Attach the handles to each door.

**7. Step 7: Install Locking Mechanisms**

Install the locking mechanisms on the doors. Each lock comes with two keys. Note: Locks for different sections (e.g., top vs. bottom doors) may be keyed differently.

Once assembled, the cabinet provides a sturdy and organized storage solution.

## 5. OPERATING INSTRUCTIONS

### 5.1. Locking and Unlocking

The cabinet is equipped with high-grade locks to secure your valuables. Each lock comes with two keys. Insert the key into the lock and turn to secure or unlock the doors. The doors also feature magnets to help keep them closed when unlocked.

## 5.2. Adjusting Shelves

The two adjustable shelves allow you to customize the storage space to meet your needs. To adjust a shelf, remove all items from the shelf, then carefully lift the shelf off its clips. Re-position the shelf clips to the desired height along the side rails and re-insert the shelf.

The shelves are designed to stabilize contents and protect them, with a weight capacity of up to 180 lbs per shelf.

## 6. MAINTENANCE

To maintain the appearance and longevity of your cabinet:

- Clean regularly with a soft, damp cloth. Avoid abrasive cleaners that may damage the powder-coated finish.
- Promptly wipe away any spills to prevent rust.
- Periodically check all screws and connections to ensure they remain tight.

## 7. TROUBLESHOOTING

- **Cabinet appears flimsy after assembly:** Ensure all screws are tightened securely. The cabinet gains rigidity once fully assembled.

- **Dents or scrapes on panels:** While packaging is designed to protect, minor cosmetic imperfections can occur. These typically do not affect structural integrity.
- **Shelf clips do not feel secure:** Ensure clips are fully inserted into the designated slots. If issues persist, contact customer support.
- **Doors do not close properly:** Check that the cabinet is on a level surface. Adjust the cabinet's position if necessary. Ensure hinges are correctly installed and tightened.
- **Keys are different for each lock:** This is by design for enhanced security. Each lock cylinder is unique.

## 8. SPECIFICATIONS

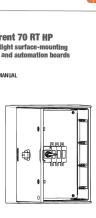

Feature	Detail
Brand	Yizosh
Model Number	4DC-GW
Color	Black
Product Dimensions	15.7"D x 31.5"W x 70.87"H
Material	Metal (Heavy gauge cold-rolled steel plate)
Special Feature	Lockable
Number of Doors	4
Number of Shelves	2 (Adjustable)
Weight Limit (per shelf)	180 lbs
Assembly Required	Yes (Knock-down structure)
Finish Type	Powder Coated

## 9. WARRANTY AND SUPPORT

Your Yizosh Metal Storage Cabinet is backed by a 30-day easy return policy. For any questions, concerns, or assistance with your product, please contact Yizosh Customer Support. Information regarding extended protection plans may also be available through your retailer.
