Vziimo 7810

Vziimo Fighter Game Micro Blocks Set (Model 7810) Instruction Manual

Model: 7810

Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Vziimo Fighter Game Micro Blocks Set, Model 7810. This 1060-piece building set allows you to construct a miniature arcade machine featuring a classic fighter game scene. Designed for individuals aged 8 years and up, it offers an engaging building experience and results in an impressive display piece.

Setup and Assembly

Carefully unpack all components. The set includes 1060 micro-sized building blocks, an instruction manual, and various accessories. Due to the small size of the micro bricks (approximately 4mm x 5mm), precision and careful handling are required during assembly.

Assembly Steps:

1. **Review Instructions:** Begin by thoroughly reviewing the included full-color instruction manual. Each step is illustrated to guide you through the building process.
2. **Sort Components:** Organize the micro blocks by color and shape to facilitate easier assembly.
3. **Follow Sequential Steps:** Assemble the model step-by-step as indicated in the manual. Ensure each brick is securely connected without excessive force.
4. **LED Light Integration:** The set includes an LED light component. Integrate this into the top section of the arcade machine as shown in the instructions to illuminate the game screen.

The assembly process typically takes several hours. Patience is key when working with micro blocks.

Operating Instructions

The Vziimo Fighter Game Micro Blocks Set is primarily a display model. The control buttons and joysticks on the front panel are decorative and not functional for gameplay.

LED Light Operation:

To activate the internal LED light, locate the small switch on the back of the arcade machine. Toggle the switch to turn the light on or off. The LED light is powered by small batteries (included) and is designed to illuminate the miniature game scene within the arcade cabinet.

Maintenance

To ensure the longevity and appearance of your Vziimo Fighter Game Micro Blocks Set, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush to prevent dust accumulation in crevices. Avoid using liquid cleaners, as they may damage the plastic bricks or internal components.
- **Handling:** Handle the assembled model with care. While the bricks fit securely, excessive force or dropping the model may cause parts to detach.
- **Storage:** Store the model in a stable environment, away from direct sunlight or extreme temperatures, which can affect the plastic over time.
- **Battery Replacement:** If the LED light dims or stops working, replace the small batteries located in the light module. Refer to the assembly instructions for guidance on accessing the battery compartment.

Troubleshooting

Missing Pieces:

If you discover any missing pieces during assembly, please contact Vziimo customer support directly. Provide details of the missing parts, and we will endeavor to resolve the issue promptly.

Assembly Difficulties:

The micro bricks are small and require careful placement. If you encounter difficulties with specific steps, re-examine the instruction manual's illustrations closely. Ensure bricks are aligned correctly before pressing them together. If problems persist, consider disassembling and reassembling the problematic section. Tweezers may assist with very small pieces.

LED Light Not Working:

Check if the batteries are correctly inserted and have sufficient charge. Replace batteries if necessary. Ensure the light module is properly connected within the model.

Specifications

Feature	Detail
Product Dimensions	4.33 x 3.52 x 6.77 inches
Item Weight	12.5 ounces
Item Model Number	7810
Manufacturer	Vziimo
Recommended Age	8 years and up
Number of Pieces	1060
