LEJUMP LeJumpPumpkin

LEJUMP Trampoline 366cm Instruction Manual

Model: LeJumpPumpkin

1. IMPORTANT SAFETY INFORMATION

Read all instructions before assembling and using the trampoline. Failure to follow these instructions can result in serious injury.

- This trampoline is designed for outdoor use only.
- **Maximum Weight Capacity:** 120 kg. Do not exceed this limit.
- **User Limit:** Only one person should jump on the trampoline at a time. Multiple users increase the risk of collision and injury.
- **Adult Supervision:** Always ensure children are supervised by a responsible adult when using the trampoline.
- **Safety Enclosure:** Always use the safety enclosure net. Ensure the net entrance is securely closed before jumping.
- **No Somersaults or Flips:** Avoid somersaults or flips, as these can lead to serious head and neck injuries.
- **Clearance:** Ensure adequate overhead clearance and clear space around the trampoline. Keep away from walls, fences, trees, and other obstacles.
- **Weather Conditions:** Do not use the trampoline in strong winds, rain, or other adverse weather conditions. Strong winds can lift the trampoline. Consider anchoring the trampoline to the ground.
- **Footwear:** Always remove shoes before using the trampoline.
- **Inspections:** Regularly inspect the trampoline for damaged, worn, or missing parts. Replace any damaged components immediately.

This product complies with **TÜV Süd GS** and **ASTM F381-16** standards, ensuring high safety levels. It also meets **CE** and **ISO 9001** certifications.

2. PRODUCT OVERVIEW

The LEJUMP 366cm Trampoline is designed for safe and enjoyable outdoor use. It features a robust construction and enhanced safety elements.

Key Features:

- **Frame:** Constructed from galvanized stainless steel with a powder coating for maximum durability, rust resistance, and corrosion prevention.
- **Safety Net:** High-quality PET safety net, designed to be soft, durable, and prevent skin abrasion during use. The curved poles create a safe zone between the net and the poles.
- **Jumping Mat:** Made with a special weave technology, making it wear-resistant, waterproof, and tear-resistant. It offers excellent resilience and stability.
- **Springs:** Equipped with FlexTech springs, providing strong durability and reactive bounce.
- **Gap-Free Design:** Innovative safety mat connection ensures no gaps, reducing the risk of injury from contact with springs.
- **Included Accessories:** A ladder for easy access and a shoe net for convenience.

Image: A visual comparison highlighting the LEJUMP trampoline's curved safety poles, which provide a larger and safer jumping area compared to traditional trampolines with straight poles.

3. PACKAGE CONTENTS

Before assembly, ensure all parts are present and undamaged. The package includes everything required for assembly.

- Trampoline Frame Components (legs, top rails, T-connectors)
- Jumping Mat
- Safety Springs (72 pieces)
- Spring Cover Pad
- Safety Enclosure Net
- Enclosure Poles (curved, foam-padded)
- Ladder
- Shoe Net
- Assembly Tools (spring tool, wrench)
- Protective Gloves
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward, but it is recommended that 1-2 adults perform the installation. Refer to the detailed instructions in this manual for step-by-step guidance. Installation videos may also be available on the manufacturer's website.

Assembly Tips:

- **Teamwork:** The initial assembly of the round frame can be easier with two people to hold parts together as they are connected.
- **Component Check:** Before starting, lay out all components and verify against the parts list.
- **Surface:** Assemble the trampoline on a flat, level surface.
- **T-Connectors:** Ensure T-connectors are securely fitted to provide strength and stability to the frame.
- **Spring Installation:** Use the provided spring tool to attach the springs. This makes the process easier and safer.
- **Safety Net:** Install the safety net according to instructions, ensuring it is taut and securely attached to the poles and jumping mat.

5. OPERATION AND USAGE

Once assembled, the LEJUMP trampoline provides a fun and safe environment for jumping. Always adhere to safety guidelines during use.

- **Access:** Use the provided ladder to safely enter and exit the trampoline.
- **Jumping Area:** Jump in the center of the mat for optimal bounce and safety.
- **Safety Net:** Ensure the safety net is always closed when the trampoline is in use. The gap-free design minimizes risks.
- **Supervision:** Children should always be supervised by an adult.
- **Shoe Net:** Utilize the shoe net to keep footwear organized and prevent tripping hazards around the trampoline.

6. MAINTENANCE

Regular maintenance will extend the life of your trampoline and ensure continued safety.

- **Routine Inspection:** Before each use, check the trampoline for any loose, missing, or damaged parts, including the frame, springs, jumping mat, safety pad, and enclosure net.
- **Cleaning:** Clean the jumping mat and safety net with mild soap and water. Avoid harsh chemicals that could damage the materials.
- **Rust Prevention:** While the frame is galvanized and powder-coated, regularly check for any signs of rust, especially on connectors and leg bases that contact the ground. Apply rust-preventative treatment if necessary.
- **Weather Protection:** In severe weather conditions (heavy snow, strong winds), consider disassembling the trampoline or securing it with anchor kits (not included) to prevent damage or displacement.
- **Storage:** If storing the trampoline for an extended period, especially during winter, disassemble it and store components in a dry, protected area.

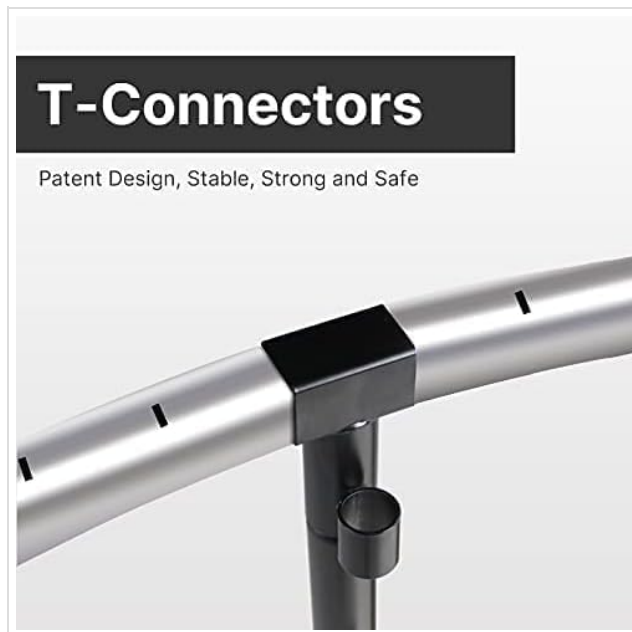

Image: A close-up view of the trampoline's extra-thick mat, emphasizing its heavy-duty construction and improved density for durability and safety.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your trampoline.

Common Issues:

- **Squeaking Noise:** If the trampoline makes squeaking noises during use, it is often due to friction in the springs. Applying a silicone-based lubricant to the spring connections can help reduce noise.
- **Rust Spots:** Small rust spots may appear on connectors or leg bases, especially if exposed to moisture. Clean the area and apply a rust-inhibiting paint or sealant. Ensure proper drainage around the trampoline legs.
- **Loose Net/Mat:** If the safety net or jumping mat feels loose, re-check all attachment points and ensure they are securely fastened according to the assembly instructions.
- **Trampoline Moves in Wind:** For windy conditions, it is highly recommended to use a trampoline anchor kit (sold separately) to secure the trampoline to the ground.

8. SPECIFICATIONS

Feature	Specification
Model Name	LeJumpTrampoline-Pumpkin
Model Number	LeJumpPumpkin
Brand	LEJUMP
Frame Size	366 cm (12 ft)
Shape	Round
Product Dimensions (L x W x H)	3.66L x 3.66W x 0.84H meters
Item Weight	67 Kilograms
Recommended Maximum Weight	120 Kilograms
Number of Springs	72
Frame Material	Stainless Steel (Galvanized)
Other Materials	Polypropylene, Mesh, Iron, Plastic
Color	Ferrous (Ijzerhoudend)
Certifications	TÜV Süd GS, ASTM F381-16, CE, ISO 9001
Country of Origin	China

9. WARRANTY AND SUPPORT

Your LEJUMP Trampoline comes with a **1-year warranty** from the date of purchase, covering manufacturing defects.

For any questions, concerns, or assistance with parts replacement, please contact LEJUMP customer service. Our responsive customer service team is dedicated to providing quick solutions and ensuring your satisfaction.
