## Nuwave Brio 2.6-Qt Air Fryer Instruction Manual

Model: 36041

Brand: Nuwave

### INTRODUCTION

The Nuwave Brio Digital Air Fryer combines hot air with high-speed air circulation to perfectly cook your favorite fried foods with little to no oil. This 2.6-quart Brio Digital Air Fryer includes a removable drawer with a specially designed air circulation riser, offering a healthier alternative to traditional frying. Its compact size makes it a versatile addition to any kitchen countertop.

### IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using your Nuwave Brio Air Fryer. Always place the appliance on a stable, heat-resistant surface. Ensure proper ventilation around the unit. Do not immerse the main unit in water or any other liquid. Unplug the air fryer from the outlet when not in use and before cleaning. Allow the appliance to cool completely before handling or cleaning. Keep hands and face clear of hot steam when opening the drawer. This appliance is for household use only.

## SETUP

1. Unpack the air fryer and all its components. Remove any packaging materials, stickers, or labels.
2. Wipe the exterior of the appliance with a damp cloth.
3. Wash the air circulation riser and base tray with warm, soapy water. Rinse thoroughly and dry.
4. Place the air fryer on a stable, level, heat-resistant surface, away from walls or other appliances, ensuring adequate air circulation.

5. Insert the air circulation riser into the base tray, then slide the base tray assembly into the air fryer unit until it clicks securely.

## OPERATING INSTRUCTIONS

### Digital Controls and Adjustments

The Brio features intuitive digital controls that are easy to operate. You can set cook temperatures from 50°F to 400°F, adjustable in precise 5°F increments. Unlike primitive methods that regulate temperature by turning the heater on and off, the Brio's heater never turns off while cooking, thanks to its Linear Thermal (Linear T) Technology. This technology continuously monitors temperature fluctuations and makes constant power adjustments every second to maintain the set temperature for perfect results.

You can adjust time and temperature on-the-fly at any point during the cooking process. Simply use the up/down arrows for temperature and time adjustments.

### Pre-set Functions

The control panel includes pre-set buttons for common foods like fries, frozen nuggets, steak, poultry, and fish, simplifying the cooking process. Simply select the desired pre-set, and the air fryer will automatically adjust to optimal temperature and time settings.

### Safety Features

For your safety, the Brio is designed to pause cooking automatically when the base tray is pulled out (opened). Once the basket is pushed back in (closed), the cooking resumes automatically.

### CLEANING & MAINTENANCE

The Nuwave Brio is designed for easy cleanup. The non-stick air circulation riser and base tray are all dishwasher safe. For even easier cleaning, you may line the bottom of the cooking chamber with aluminum foil to catch excess grease and food particles. After each use, allow the appliance to cool completely before disassembling and cleaning. Wipe the exterior with a damp cloth.

## TROUBLESHOOTING

If the air fryer is not turning on, ensure it is properly plugged into a grounded electrical outlet. If food is not cooking evenly, try shaking the basket halfway through the cooking cycle or arranging food in a single layer. For issues with crispiness, ensure the basket is not overloaded and consider adding a small amount of oil to the food before air frying. If you encounter any other issues, refer to the full owner's manual or contact customer support.
