SETUP

1. Battery Installation and Charging

1. Open the battery compartment cover located on the side of the camera.
2. Insert the rechargeable battery, ensuring the correct orientation as indicated inside the compartment.
3. Close the battery compartment cover securely.
4. To charge, insert the battery into the dual charging dock or connect the camera directly to a power source using the provided USB cable and adapter. The charging indicator will show the charging status.

Figure 3: Multiple options for charging the camera batteries.

2. Memory Card Installation

1. Locate the memory card slot on the side of the camera.
2. Insert the 32GB Micro SD card (or another compatible Micro SD card up to 128GB) into the slot until it clicks into place. Ensure the card is inserted with the correct orientation.

3. To remove, gently press the card inward until it springs out.

3. Lens Attachment

The camera comes with a detachable 52mm wide-angle lens and a macro lens. These can be attached to the camera's main lens for different photographic effects.

1. Align the threads of the desired lens (wide-angle or macro) with the threads on the front of the camera's main lens.
2. Gently twist the lens clockwise until it is securely fastened. Do not overtighten.
3. To remove, twist counter-clockwise until it detaches.

MAINTENANCE

1. Cleaning the Camera

- Use a soft, lint-free cloth to gently wipe the camera body.
- For the lens, use a specialized lens cleaning cloth and solution. Avoid touching the lens surface with your fingers.
- Do not use strong detergents or solvents, as they may damage the camera's finish.

2. Battery Care

- Store batteries in a cool, dry place when not in use.
- Avoid fully discharging the batteries frequently to prolong their lifespan.
- If the camera will not be used for an extended period, remove the batteries.

3. Storage

- Store the camera in a dry, dust-free environment, away from direct sunlight and extreme temperatures.
- Use a camera bag or case to protect it from physical damage.
