### Max Power MPD823

## Max Power Portable Speaker - MPD823 User Manual

Model: MPD823

### INTRODUCTION

Thank you for choosing the Max Power Portable Speaker MPD823. This high-powered PA loudspeaker system is designed to provide an immersive audio experience with its versatile features, including Bluetooth connectivity, USB input, LED lights, and a built-in rechargeable battery. This manual will guide you through the setup, operation, and maintenance of your new speaker.

## PACKAGE CONTENTS

---

- Max Power Portable Speaker MPD823
- Wired Microphone
- Remote Control
- Charging Cable (Type C)
- User Manual

## SETUP

---

### 1. Charging the Speaker

Before first use, fully charge the speaker. Connect the provided charging cable to the DC 5V input port on the speaker and the other end to a suitable power source. The charging level indicator lights will show the battery status. A full charge

ensures maximum playtime.

Figure 2: Detail of the speaker's control panel, highlighting the USB, AUX, and DC 5V charging input ports.

## 2. Powering On/Off

Locate the **ON/OFF** switch on the control panel. Slide it to the **ON** position to power on the speaker. Slide it to the **OFF** position to power off.

## OPERATING INSTRUCTIONS

### 1. Bluetooth Connectivity

The speaker is capable of connecting to Bluetooth-enabled devices such as Android mobile phones, iPads, iPhones, laptops, and tablets. The effective range for Bluetooth connection is 5-10 meters.

1. Ensure the speaker is powered on and in Bluetooth mode (indicated by the LED display).
2. On your device, enable Bluetooth and search for available devices.
3. Select "**MPD823**" from the list of devices.
4. Once connected, you will hear a confirmation sound from the speaker.

### 2. USB and AUX Input

You can play audio directly from a USB drive or an external device using the AUX input.

- **USB Input:** Insert a USB flash drive containing MP3 audio files into the USB port. The speaker will automatically

detect and begin playing the music.

- **AUX Input:** Connect an external audio device (e.g., smartphone, MP3 player) to the **AUX (3.5mm)** input jack using a 3.5mm audio cable (not included). Switch the speaker to AUX mode if it doesn't automatically detect the input.

### 3. Microphone Usage (Karaoke)

The included wired microphone allows for karaoke and public address functions.

- Connect the wired microphone to the **MIC.IN** port on the control panel.
- Adjust the **MIC.VOL** knob to control the microphone volume.
- Use the **ECHO** knob to add an echo effect to your voice.

Figure 3: Overview of key features including karaoke controls, auxiliary input, FM radio, and the light switch.

### 4. LED Lights

The speaker features multi-color flashing DJ lights to enhance your audio experience.

- Locate the **Light Switch** on the control panel.

- Flip the switch to turn the LED lights on or off.

# LIGHT UP YOUR DARKEST NIGHTS

## 5. FM Radio

The speaker includes a built-in FM radio with a digital LED display.

- Switch the speaker to FM radio mode.
- Use the control buttons (e.g., **SCAN**) to automatically search for and save available radio stations.
- Use the **CH+** and **CH-** buttons to navigate between saved stations.

## 6. Volume Control

Adjust the overall volume using the **VOLUME** knob on the control panel.

## MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the speaker's exterior. Do not use abrasive cleaners or solvents.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the speaker regularly, even if not in constant use.
- **Water Exposure:** This speaker is not waterproof. Avoid exposing it to water or excessive moisture.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Battery is low or dead.	Charge the speaker using the provided charging cable.
No sound	Volume is too low; incorrect input mode; device not connected properly.	Increase volume; ensure correct input mode (Bluetooth, USB, AUX); re-pair Bluetooth device or re-connect cable.
Bluetooth not connecting	Speaker is out of range; Bluetooth not enabled on device; speaker not in pairing mode.	Move device closer to speaker (within 5-10 meters); enable Bluetooth on your device; ensure speaker is in Bluetooth mode.
Microphone not working	Microphone not plugged in correctly; MIC.VOL is too low.	Ensure microphone is fully inserted into the MIC.IN port; increase MIC.VOL.
