The bags of blocks are typically organized to correspond with different stages of the build, simplifying the process.

4.1 General Assembly Tips

- **Organize Your Workspace:** Clear a well-lit area to prevent loss of small pieces. Consider using trays or containers to sort blocks by color or type.
- **Follow the Manual:** Adhere strictly to the sequence of steps outlined in the instruction manual. Each step builds upon the previous one.
- **Check Piece Count:** Before starting a new section, ensure you have all the required pieces for that step.
- **Gentle Pressure:** Micro blocks fit snugly. Apply gentle, even pressure to connect pieces to avoid damage.
- **Patience is Key:** This is an intricate build. Take breaks if you feel frustrated. The rewarding result is worth the effort.
