SETUP

To begin enjoying your Audio CD, follow these simple steps:

1. **Unboxing:** Carefully remove the Audio CD from its packaging. Inspect the disc for any visible damage, such as scratches or cracks, before use.
2. **Disc Handling:** Always hold the CD by its edges or by placing a finger through the center hole. Avoid touching the shiny playback surface to prevent fingerprints and scratches.
3. **Player Compatibility:** Ensure your audio player (CD player, car stereo, computer drive) is compatible with standard audio CDs.

OPERATING INSTRUCTIONS

Playing your Orbital 30 (Something) Audio CD is straightforward:

1. **Insert Disc:** Open the disc tray or slot of your audio player and carefully insert the CD with the label side facing up.
2. **Playback:** Close the disc tray. Your player should automatically detect the disc and begin playback, or you may need to press the "Play" button.
3. **Track Selection:** Use the player's controls to navigate between tracks, pause, fast-forward, or rewind.

MAINTENANCE AND CARE

Proper care will extend the life of your Audio CD and ensure optimal playback quality:

- **Cleaning:** If the disc becomes dirty, gently wipe the playback surface with a soft, lint-free cloth. Wipe from the center outwards in a straight line, not in a circular motion. Do not use abrasive cleaners or solvents.
- **Storage:** Store the CD in its original jewel case or a protective sleeve when not in use. Keep discs away from direct sunlight, extreme temperatures, and high humidity.
- **Avoid Scratches:** Do not stack discs without protection. Avoid placing heavy objects on the disc or bending it.

TROUBLESHOOTING

If you encounter issues during playback, consider the following:

Problem	Possible Cause	Solution
Disc not playing / "No Disc" error	Disc inserted incorrectly, dirty disc, or player issue.	Ensure disc is inserted label-side up. Clean the disc. Try another audio CD to check if the player is functioning correctly.

Problem	Possible Cause	Solution
Skipping or distorted audio	Scratches, dust, or smudges on the disc.	Gently clean the disc as described in the Maintenance section. Inspect for deep scratches.
Player not recognizing disc	Disc format incompatibility (unlikely for standard audio CD), or player malfunction.	Verify your player supports standard audio CDs. Try the disc in a different player.
