BOBLOV A22

BOBLOV A22 Body Camera User Manual

Model: A22 | Brand: BOBLOV

1. INTRODUCTION

The BOBLOV A22 Body Camera is a compact and versatile recording device designed for various applications, including outdoor activities, travel, and professional use. It features 1080P video recording, 40MP photo resolution, a 180° rotatable lens, and a 1.3-inch OLED screen for convenient playback and settings adjustment. Equipped with night vision capabilities and loop recording, it ensures reliable capture of important moments.

Figure 1.1: Front and side view of the BOBLOV A22 Body Camera, highlighting its compact design and rotatable lens.

2. WHAT'S IN THE BOX

Upon opening the package, please verify that all the following items are included:

- A22 Body Camera
- USB Cable
- User Manual
- Card Reader

Figure 2.1: The complete packaging list for the A22 Body Camera, including the camera, USB cable, user manual, and card reader.

3. PRODUCT OVERVIEW AND CONTROLS

Familiarize yourself with the various components and controls of your BOBLOV A22 Body Camera.

Figure 3.1: Detailed diagram illustrating the buttons and ports on the BOBLOV A22 Body Camera, including Video/Save/Rec slider, Play button, Next/Vol+, Prev/Vol-, Reset, Mode/Menu, Return, and Card Slot.

Key Controls:

- **Video/Save/Rec Slider:** Slide up to record video, slide down to save.
- **Save/Rec Slider:** Slide up to record audio, slide down to save.
- **Play Button:** Used for playback of recorded files.
- **Next/Vol+ Button:** Navigate forward in menus or increase volume during playback.
- **Prev/Vol- Button:** Navigate backward in menus or decrease volume during playback.

- **Reset Button:** Resets the device.
- **Mode/Menu Button:** Access the main menu and switch between modes.
- **Return Button:** Go back to the previous menu or screen.
- **Card Slot:** Insert your Micro SD card here.

Your browser does not support the video tag.

Video 3.1: An official BOBLOV video demonstrating the camera's diagram and menu navigation, including how to power on/off, record video/audio, and access settings.

4. SETUP

4.1 Charging the Battery

The BOBLOV A22 features a built-in 2200mAh lithium battery. Before first use, fully charge the camera. Connect the camera to a standard USB adapter using the provided USB cable. The charging time is approximately 3 hours. A steady red indicator light signifies charging, and it turns steady green when fully charged.

**Long lasting for
a whole daily job recording.**

- * Provided with the built-in 2000mAh battery.
- * A22 camera could record for 10 Hours in 1080P, IR&Screen Off.

Figure 4.1: Illustration showing the BOBLOV A22 Body Camera connected to a charger, indicating its 2200mAh battery and charging status.

4.2 Inserting the Micro SD Card

The camera supports Micro SD cards up to 64GB (for this model). Locate the card slot on the side of the camera and gently insert the Micro SD card until it clicks into place. Ensure the camera is powered off before inserting or removing the card.

Figure 4.2: Close-up view of the Micro SD card slot on the BOBLOV A22 Body Camera, showing a card being inserted.

4.3 Initial Power On and Settings

To power on the camera, slide the power switch down. The 1.3-inch OLED screen will display the startup sequence. You can navigate the menu using the Next/Vol+ and Prev/Vol- buttons and confirm selections with the Play/OK button. Important settings to check include:

- **Date/Time:** Set the correct date and time for accurate timestamps on your recordings.
- **Video Resolution:** Select your preferred video resolution (e.g., 1080FHD, 1080P, 720P).
- **Photo Resolution:** Choose the desired photo resolution (e.g., 40M, 21M, 12M).
- **Loop Recording:** Configure the loop recording duration (e.g., 1 min, 3 min, 5 min, 10 min) or turn it off.
- **Motion Detection:** Enable or disable motion detection recording.
- **Night Vision:** The camera is equipped with 4 night vision lights for recording in low-light conditions.

5. OPERATING THE CAMERA

5.1 Video Recording

To start video recording, slide the **Video/Save/Rec** slider up. The camera will begin recording in 1080P HD. To stop and save the recording, slide the slider down to the middle position. The 180° rotatable lens allows for flexible shooting angles.

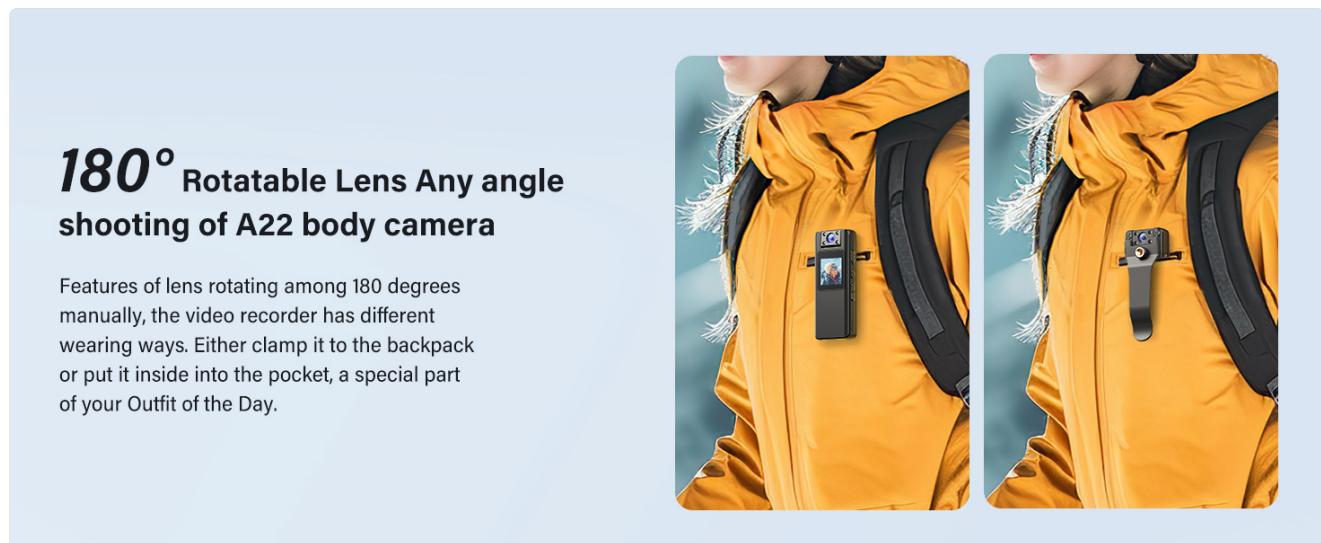

Figure 5.1: The BOBLOV A22 Body Camera demonstrating its 180° rotatable lens, allowing for versatile recording angles.

Your browser does not support the video tag.

Video 5.1: An official BOBLOV video showcasing the A22's 180° rotatable lens, 1.3-inch LCD screen for playback, 1080P HD video quality, and auto night vision feature.

5.2 Audio Recording

To record audio only, slide the **Save/Rec** slider up. To stop and save the audio recording, slide the slider down to the middle position.

5.3 Photo Capture

The camera can capture photos up to 40MP resolution. Refer to the menu settings to switch to photo mode and capture images.

5.4 Playback

Use the 1.3-inch LCD screen to review your recorded videos and photos directly on the device. Press the **Play** button to enter playback mode. Use the **Next/Vol+** and **Prev/Vol-** buttons to navigate through files and adjust volume.

5.5 Wearing and Mounting

The A22 Body Camera is designed for versatile wear. It includes a clip for attaching to clothing, such as a shirt pocket or uniform. Additionally, it features a 1/4" screw port, allowing it to be mounted on compatible accessories like bicycle mounts (mounts not included).

Figure 5.2: A person wearing the BOBLOV A22 Body Camera clipped to their uniform, demonstrating its wearable design for various work environments.

Explore More Use Way

*Bracket is not included, need to buy extra

Figure 5.3: The BOBLOV A22 Body Camera mounted on a bicycle handlebar, showcasing its adaptability for outdoor activities using the 1/4" screw port.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera body. For the lens, use a specialized lens cleaning cloth and solution. Avoid abrasive materials or harsh chemicals.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the camera regularly, even if not in use, to maintain battery health.
- **Firmware Updates:** Check the official BOBLOV website periodically for any available firmware updates to ensure optimal performance and new features.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Camera does not power on.	Low battery; Power switch not in correct position.	Charge the battery fully. Ensure the power switch is slid down to power on.
Cannot record video/audio.	Memory card full or not inserted correctly; Slider not in recording position.	Check memory card insertion and free space. Ensure the Video/Save/Rec or Save/Rec slider is in the up position for recording.
Poor video quality at night.	Night vision not active; Subject too far.	Ensure night vision is enabled in settings. Night vision has a limited range.
Files not saving correctly.	Memory card issue; Improper shutdown.	Try formatting the memory card (this will erase all data). Always slide the save slider to the middle position to properly save recordings before powering off. Consider using a different, high-quality Micro SD card.
Camera unresponsive.	System crash.	Use the Reset button to restart the camera.

8. SPECIFICATIONS

Feature	Detail
Model	Boblov A22
