1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a protected surface. Verify against the package contents list.
2. **Assemble the Steel Frame:** Connect the vertical and horizontal steel frame components using the provided hardware. Ensure all connections are secure but do not overtighten until the frame is fully assembled.
3. **Attach Casters:** Screw the four casters into the designated holes at the bottom of the steel frame. Ensure the two lockable casters are placed at the front for easy access.
4. **Install Wooden Top:** Place the wooden top panel onto the assembled steel frame and secure it with the appropriate screws.
5. **Prepare Fabric Drawers:** Unfold each fabric drawer. Insert the bottom panel into each drawer to provide stability. Attach the handles to the front of each drawer using the provided screws.
6. **Install Hanging File Bars (Bottom Drawer):** For the bottom drawer, attach the hanging file folder bars to the designated slots on the inside of the drawer using the anti-drop buckles. Ensure they are securely fastened to prevent dislodging during use.
7. **Insert Drawers:** Slide the assembled fabric drawers into their respective slots within the steel frame.

7.2 General Care

- Regularly check all screws and connections to ensure they remain tight. Retighten as needed.
- Avoid placing excessively heavy items on the top surface or in the drawers to prevent structural damage.
- Keep the cabinet away from direct sunlight and excessive moisture to preserve materials.

8. TROUBLESHOOTING

- **Issue: Drawers are difficult to open or close.**

Solution: Check for obstructions inside or behind the drawers. Ensure the drawers are not overloaded. Verify that the steel frame is assembled correctly and is not warped.

- **Issue: Cabinet is unstable or wobbles.**

Solution: Ensure all assembly screws are securely tightened. Check that the casters are properly installed and that the lockable casters are disengaged if you intend to move it, or fully engaged if you intend for it to be stationary. Ensure the cabinet is on a flat, level surface.

- **Issue: Hanging file bars in the bottom drawer keep falling off.**

Solution: Ensure the anti-drop buckles are correctly attached and fully engaged with the file bars and the drawer frame. Verify that the file bars are not overloaded with too many heavy files.

- **Issue: Casters do not roll smoothly or lock properly.**

Solution: Check for debris or hair caught in the caster wheels. Clean as necessary. Ensure the locking mechanism is fully engaged or disengaged.
