BlueParrott B250-XTS

BlueParrott B250-XTS Mono Bluetooth Wireless Headset User Manual

Brand: BlueParrott | Model: B250-XTS

PRODUCT OVERVIEW

The BlueParrott B250-XTS wireless headset is engineered for clear call conversations in high-noise environments, making it an ideal solution for professionals such as truck drivers, delivery drivers, farmers, landscapers, and RV drivers who require reliable communication on the go. This over-the-head, on-ear mono headset features advanced noise cancellation technology to ensure your voice is heard clearly, even amidst significant background noise.

An overview of the BlueParrott B250-XTS headset, highlighting its design and key features.

Key features include impressive noise cancellation, extended talk time, and robust wireless connectivity, designed for all-day comfort and durability.

SETUP AND PAIRING

Initial Charge

Before first use, fully charge your BlueParrott B250-XTS headset. Connect the provided USB-C charging cable to the headset's USB-C port and plug the other end into a compatible USB power source. A full charge takes approximately 3 hours.

USB-C PORT

Pairing with a Device

1. Ensure your headset is charged and powered off.
2. Press and hold the Multifunction button (usually the main power button) for approximately 3 seconds until you

hear "Power on" and then "Discovering" or see the LED indicator flashing blue. This indicates the headset is in pairing mode.

3. On your mobile device (smartphone, tablet, etc.), enable Bluetooth and search for available devices.
4. Select "B250-XTS" from the list of available Bluetooth devices.
5. Once connected, you will hear a confirmation tone or voice prompt from the headset.

The headset can connect to two Bluetooth-enabled mobile devices simultaneously and can pair with up to eight different devices.

Call Management

- **Answering Calls:** Press the Multifunction button once.
- **Ending Calls:** Press the Multifunction button once.
- **Rejecting Calls:** Press and hold the Multifunction button for 2 seconds.
- **Voice Control:** Utilize your device's voice assistant for hands-free call management.

Audio Streaming

The headset supports streaming of multimedia audio, including music, GPS directions, and podcasts, from your paired device.

Key Features

- **Impressive Noise Cancellation:** Blocks out up to 91% of background noise, ensuring clear communication in noisy environments.
- **Extended Talk Time:** Provides up to 20 hours of talk time on a single charge, supporting all-day use.
- **Wireless Freedom:** Offers a wireless range of up to 66 feet (20 meters) from paired devices, allowing mobility.
- **Multi-Device Connectivity:** Connects to two Bluetooth-enabled mobile devices simultaneously and can pair with up to eight devices.
- **Comfortable and Rugged Design:** Features an adjustable headband for a customizable, stable fit and a durable build for long-lasting performance.

The headset is designed for extended use, offering up to 20 hours of talk time.

The headset provides wireless freedom with a range of up to 66 feet from your device.

Charging Time	Approximately 3 hours (USB-C)
Item Weight	71g (2.5 oz)
Ear Placement	Over Ear (Mono)
Control Type	Media Control, Button
Material	Polycarbonate (PC), Silicone, Acrylonitrile Butadiene Styrene (ABS)

MAINTENANCE

To ensure the longevity and optimal performance of your BlueParrott B250-XTS headset, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the headset, especially the earcup and microphone, with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the charging port or speaker grille.
- **Ear Cushions:** Replace ear cushions if they show signs of wear or damage to maintain comfort and hygiene. Spare foam and leatherette ear cushions are included.
- **Microphone Windscreen:** The microphone windscreen helps reduce breath and wind noise. Replace it if it becomes worn or damaged. Spare windscreens are provided.
- **Storage:** Store the headset in a cool, dry place away from extreme temperatures, direct sunlight, and moisture when not in use.
- **Charging Port:** Keep the USB-C charging port free of dust and debris. Avoid using excessive force when plugging in the charging cable.

TROUBLESHOOTING

If you encounter issues with your BlueParrott B250-XTS headset, try the following common troubleshooting steps:

- **No Power:** Ensure the headset is fully charged. Connect it to the USB-C charging cable and allow it to charge for at least 30 minutes before attempting to power on again.
- **Cannot Pair:**
 - Ensure the headset is in pairing mode (LED flashing blue).
 - Turn off and on the Bluetooth on your mobile device.
 - Delete "B250-XTS" from your device's Bluetooth list and attempt to re-pair.
 - Ensure your device is within the 66-foot wireless range.
- **Poor Audio Quality / Noise:**
 - Ensure the microphone boom arm is positioned correctly, directly in front of your mouth.
 - Check if the microphone windscreen is properly installed and not damaged.
 - Move closer to your paired device to improve signal strength.

- Ensure there are no obstructions between the headset and your device.
- **No Sound:**
 - Check the volume levels on both the headset and your paired device.
 - Ensure the headset is properly connected to your device via Bluetooth.

For more detailed troubleshooting or specific issues, refer to the full user guide available as a PDF document.

WARRANTY AND SUPPORT

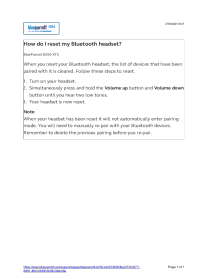

The BlueParrott B250-XTS headset includes a **one-year limited warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use.

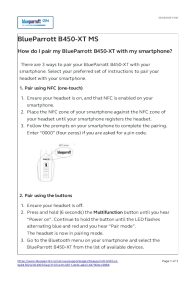

For warranty claims, technical support, or to access the complete user manual, please refer to the official BlueParrott support resources. A PDF version of the user manual is available for download:
