Beexcellent GM-1 Pro Wired Gaming Headset User Manual

Model: GM-1 | Brand: Beexcellent

1. INTRODUCTION

Thank you for choosing the Beexcellent GM-1 Pro Wired Gaming Headset. This manual provides essential information for setting up, operating, and maintaining your headset to ensure optimal performance and longevity. Please read this manual thoroughly before using the product.

Figure 1.1: Overview of the GM-1 Pro Gaming Headset and its key components.

2. PRODUCT OVERVIEW

2.1 Package Contents

- Beexcellent GM-1 Pro Gaming Headset
- 3.5mm Audio Splitter Cable (Y-splitter)

2.2 Key Features

- **Clear Surround Sound:** Experience immersive audio with powerful stereo and bass, enhanced by a realistic surround sound experience.
- **Noise-Canceling Microphone:** Equipped with a noise-reduction microphone for clear communication during gameplay. The microphone is adjustable for optimal positioning.
- **Comfortable Design:** Features skin-friendly leather earcups and super soft over-ear pads for extended wear comfort. The headband is flexible and stretchable for a customized fit.
- **Durable Construction:** Built with a PVC plastic wire that is durable and designed to prevent tangling.

- **In-line Controls:** Conveniently located volume wheel and microphone mute switch for easy audio management.
- **LED Lighting:** Bright LED lights on the earcups enhance the gaming atmosphere.

3. SETUP INSTRUCTIONS

The GM-1 Pro headset features a 3.5mm connector for audio and microphone, and a USB connector primarily for LED lighting. The included Y-splitter cable allows for compatibility with devices requiring separate audio and microphone jacks.

3.1 Connecting to Devices

1. **For PlayStation 4 (PS4):** Plug the 3.5mm jack directly into the PS4 controller. The USB connector is optional for LED lighting.
2. **For New Xbox One:** Plug the 3.5mm jack directly into the Xbox One controller (controllers with a 3.5mm jack). The USB connector is optional for LED lighting.
3. **For Old Xbox One:** An additional Microsoft adapter (not included) is required to connect the 3.5mm jack to the controller. The USB connector is optional for LED lighting.
4. **For PC/Laptop:**

- If your PC/laptop has a single 3.5mm combo jack (for both audio and mic), plug the headset's 3.5mm jack directly.
- If your PC/laptop has separate 3.5mm jacks for audio and microphone, use the included Y-splitter cable. Connect the headset's 3.5mm jack to the Y-splitter, then plug the two splitter ends into the corresponding audio (green) and microphone (pink) ports on your computer.

Plug the USB connector into an available USB port on your PC/laptop for LED lighting.

5. **For Mobile Phone/Tablet/Nintendo 3DS/PSP:** Plug the 3.5mm jack directly into the device's audio port. The USB connector is not typically used for these devices unless a USB power source is available for the LEDs.

Figure 3.2: Details of the 3.5mm plug, USB plug, and splitter cable.

4. OPERATING INSTRUCTIONS

4.1 Adjusting Volume

Locate the volume wheel on the in-line control unit attached to the headset cable. Rotate the wheel upwards to increase volume and downwards to decrease volume.

4.2 Using the Microphone

The microphone can be adjusted to your preferred angle. To mute or unmute the microphone, use the mic switch located on the in-line control unit. Slide the switch to the 'OFF' position to mute and 'ON' position to unmute.

4 HOLE MAGNET PRONUNCIATION

- *Stereo and bass are more powerful
- *A more realistic surround sound experience

FOLD - SHAPED EAR PADS

- *More fit and muted

Figure 4.1: In-line volume control and microphone switch.

Flexible Headband

Extremely Lightweight & Durable

Figure 4.2: The microphone can be adjusted for optimal voice pickup.

4.3 LED Lighting

The LED lights on the earcups will illuminate automatically when the USB connector is plugged into a powered USB port (e.g., on a PC, laptop, or game console). There is no separate switch for the LED lights.

5. MAINTENANCE

Proper care and maintenance will extend the life of your headset.

- **Cleaning:** Use a soft, dry cloth to clean the headset. For earcups, a slightly damp cloth can be used, but ensure no moisture enters the speaker grilles. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cable. Do not wrap the cable too tightly around the headset. The durable PVC cable is designed to resist tangling, but proper handling is still recommended.
- **Avoid Water:** This headset is not water-resistant. Keep it away from liquids to prevent damage.

6. TROUBLESHOOTING

If you encounter issues with your headset, please refer to the following common solutions:

Problem	Possible Solution
No sound from headset	◦ Ensure the 3.5mm jack is fully inserted into the device. ◦ Check the volume wheel on the in-line control and on your device. ◦ Verify that the correct audio output device is selected in your device's sound settings. ◦ If using a PC with a splitter, ensure both audio and mic jacks are correctly connected.
Microphone not working	◦ Ensure the mic switch on the in-line control is in the 'ON' position. ◦ Check that the microphone is not muted in your device's software settings. ◦ Verify that the correct microphone input device is selected in your device's sound settings. ◦ If using a PC with a splitter, ensure the microphone jack is correctly connected.
LED lights not working	◦ Ensure the USB connector is securely plugged into a powered USB port. ◦ Try a different USB port.
Sound quality is poor	◦ Ensure all connections are secure. ◦ Test the headset with another device to rule out device-specific issues. ◦ Adjust audio settings on your device.
