Grand Patio 13'x20' Gazebo Instruction Manual

MODEL: ZY-844.000B.003.001

For assistance, please contact customer support.

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Grand Patio 13'x20' Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference. The Grand Patio 13'x20' Gazebo offers 260 square feet of coverage, suitable for various outdoor activities and gatherings. It features a durable powder-coated steel frame, a double-vented canopy for improved air circulation, and double-tier curtains with netting for privacy and insect protection.

Important Safety Information

- Always assemble the gazebo on a flat, stable surface.
- Secure the gazebo to the ground using the provided stakes to prevent it from tipping over in windy conditions.
- Do not use the gazebo in thunderstorms or during high winds.
- Inspect the gazebo regularly for any damage or wear and tear, and repair or replace any damaged parts immediately.
- Keep the gazebo clean and dry when not in use to prevent mold or mildew growth.
- Always follow the manufacturer's instructions for assembly, use, and maintenance.

Setup and Assembly

A four-person team is recommended for assembly, which typically takes approximately 1.5 hours. Ensure all parts are present before beginning.

Assembly Video Guide

Your browser does not support the video tag.

Video Description: This video provides a step-by-step guide for assembling the Grand Patio Gazebo frame. It demonstrates connecting the base poles, horizontal beams, and roof structure. Follow the visual instructions carefully for proper assembly.

Step-by-Step Assembly Instructions

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the parts list in your included manual to identify each piece.
2. **Assemble Base Poles:** Connect the base poles to the foot plates as shown in the video. Secure them with the provided screws.

Image Description: A close-up view of the gazebo's base pole being connected to a foot plate, secured with a screw. This step ensures a stable foundation for the structure.

3. **Connect Horizontal Beams:** Assemble the horizontal beams by connecting the sections and securing them with screws and washers.

- Erect the Main Frame:** With assistance, carefully lift and connect the assembled horizontal beams to the top of the base poles. Ensure all connections are secure.

Others

Painted Only
Prone to Rusting

Image Description: A fully assembled gazebo frame standing in a backyard setting, demonstrating the overall structure before canopy installation.

5. **Install Roof Support Structure:** Assemble the central roof support components and attach them to the main frame. This forms the dome shape of the canopy.
6. **Attach Upper Canopy:** Carefully place the upper canopy fabric over the roof support structure. Secure it using the integrated ties or fasteners.

GRANDPATIO

DOMES CANOPY

PREVENT THE PAVILION FROM ACCUMULATING WATER

Image Description: A close-up of the gazebo's double-vented canopy, showing the upper tier designed for improved air circulation and stability.

- 7. Install Main Canopy:** Drape the main canopy fabric over the entire frame, ensuring it is evenly distributed. Secure all corners and edges to the frame using the provided attachments. The canopy is designed with an arc shape to prevent water accumulation.

Image Description: An illustration demonstrating the double-vented roof design, highlighting how it promotes air circulation and prevents water from pooling on the canopy.

8. **Attach Curtains and Netting:** Hang the privacy curtains and mosquito netting onto the double track system. Ensure zippers are functional and all ties are secured.

Image Description: The Grand Patio Gazebo fully assembled with its privacy curtains and mosquito netting deployed, providing a sheltered outdoor space.

9. **Secure to Ground:** Use the provided ground stakes to firmly anchor each leg of the gazebo to the ground for maximum stability.

Operating Your Gazebo

Canopy Features

The gazebo features a double-tiered roof designed to provide better air circulation and stability, especially in breezy conditions. The arc-shaped design of the canopy helps to prevent water accumulation, ensuring durability and longevity.

Video Description: This video showcases the Grand Patio 13'x20' Gazebo, highlighting its double-vented canopy and overall design. It provides a visual overview of the product's features in an outdoor setting.

Privacy Curtains and Netting

Your gazebo is equipped with a double track system for both privacy curtains and mosquito netting. You can easily adjust these to suit your needs:

- **Privacy:** Close the curtains to block harmful UV radiation and create a secluded space.
- **Insect Protection:** Zip up the netting on all four sides to keep flying insects out while maintaining airflow and visibility.
- **Open Configuration:** Tie back the curtains and netting to the gazebo posts for an open and airy feel.

GRAND PATIO

POLYESTER CEILING CLOTH

HIGH QUALITY NET AND CLOTH CAN PROTECT YOUR PRIVACY AND SECURITY

Image Description: Close-up images of the polyester ceiling cloth and mesh netting, illustrating the quality and texture of the materials used for the gazebo's canopy and side walls.

Maintenance

Regular maintenance will extend the life of your gazebo.

- **Cleaning:** Clean the canopy and curtains with mild soap and water. Rinse thoroughly and allow to air dry completely before storage.
- **Frame Inspection:** Periodically check all frame connections and screws to ensure they are tight. Tighten any loose fasteners.
- **Fabric Inspection:** Inspect the canopy, curtains, and netting for any tears, holes, or signs of wear. Repair small damages promptly to prevent them from worsening.
- **Winter Storage:** In regions with heavy snow or strong winds, it is recommended to remove the canopy and curtains

for winter storage to prevent damage. Store them in a dry, protected area.

Troubleshooting

Problem	Possible Cause	Solution
Gazebo instability in wind	Not properly anchored; loose connections.	Ensure all ground stakes are firmly in place. Check and tighten all frame screws. Do not use in high winds.
Water pooling on canopy	Canopy not stretched tightly; improper installation.	Ensure the canopy is installed correctly and stretched tautly over the frame. The arc design should naturally shed water.
Curtains/netting not closing properly	Zipper damage; fabric caught.	Inspect zippers for damage. Ensure no fabric is caught in the zipper path. If damaged, contact customer support for replacement parts.

Specifications

Model Number: ZY-844.000B.003.001

Brand: Grand Patio

Material: Powder Coated Steel Frame, Polyester Canopy

Product Dimensions: 240"L x 156"W x 114"H (13'x20' footprint)

Floor Area: 260 Square Feet

Item Weight: 57.64 Pounds

Water Resistance Level: Waterproof

Ultraviolet Light Protection: Yes

Occupancy: 12-16 People

Assembly Required: Yes

Color: Gray

13FT X 20FT
