HomeBuds HB905

Homebuds Digital Bathroom Scale Instruction Manual

Model: HB905

Brand: HomeBuds

INTRODUCTION

Welcome to your new Homebuds Digital Bathroom Scale. Designed with precision and ease of use in mind, this scale provides accurate body weight measurements to support your health and fitness journey.

Our factory has focused on high-precision weighing technology since 2001, ensuring high accuracy, precision, and a high-contrast display throughout the scale's lifecycle.

KEY FEATURES

- **Amazing Accuracy:** Benefits from over 20 years of scale professional experience, guaranteeing high accuracy at 0.1lb/0.05kg increment.
- **Easy to Use:** Features auto calibration, auto step-on, auto power off, a comfortably large platform, and 3*AAA batteries included.
- **Easily Visible LED:** Equipped with a crystal clear LED display in a large number size for clear viewing in any conditions, maintaining brightness throughout battery life.
- **Original Design:** Elegant blue platform, designed to be a perfect decoration in your bathroom, bedroom, or living room.
- **Unit Switch:** Easily switch between lb/kg/st units.

PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Homebuds Digital Bathroom Scale (Model HB905)
- 3 x AAA Batteries
- 1 x Instruction Manual

SETUP

Battery Installation

The Homebuds Digital Bathroom Scale comes with 3 AAA batteries included.

1. Locate the battery compartment on the underside of the scale.
2. Open the battery compartment cover.
3. Insert the 3 AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

Guarantee High Accuracy in Full Life Time

Guarantee High Precision in Full Measurement Range

Guarantee High Contrast Display Throughout Batteries' Lifecycle.

The scale requires three AAA batteries, which are included. Ensure they are inserted with the correct polarity.

Initial Calibration

For accurate readings, it is recommended to calibrate the scale after battery installation or if the scale has been moved.

1. Place the scale on a hard, flat surface. Avoid carpets or uneven flooring.
2. Step onto the scale briefly until the display shows "0.0" or a reading, then step off.
3. The scale will automatically calibrate and be ready for use.

OPERATING INSTRUCTIONS

Taking a Measurement

1. Ensure the scale is on a hard, flat surface.
2. Gently step onto the center of the scale with bare, dry feet.
3. Stand still until your weight is displayed on the LED screen.
4. The reading will stabilize and then flash, indicating the final measurement.
5. The scale will automatically turn off after a few seconds of inactivity.

The crystal clear LED display shows your weight in large, easy-to-read numbers.

Switching Weight Units (lb/kg/st)

The Homebuds scale allows you to switch between pounds (lb), kilograms (kg), and stones (st).

1. Locate the unit switch button on the underside of the scale, near the battery compartment.
2. Press the button to cycle through the available units (lb, kg, st).
3. The selected unit will be indicated on the LED display.

Our Factory Certificate: Quality Management System

The unit switch button allows you to easily change between pounds, kilograms, and stones.

MAINTENANCE & CARE

Cleaning

To clean the scale, wipe the surface with a damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals.

Do not immerse the scale in water or spray water directly onto it.

Storage

Store the scale in a cool, dry place. Avoid extreme temperatures or high humidity.

Do not place heavy objects on the scale when not in use.

Easy to Read

The extra-large 3.1" bright LED display is a breeze to read at any angle and brightness.

LED

129.3
lb

The slim and elegant design allows the scale to be stored discreetly or displayed as a decorative item in various rooms.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Solution
Display shows "Lo"	Batteries are low. Replace with new AAA batteries.
Display shows "Err"	Overload. The maximum weight capacity is 400 lbs (180 kg). Step off the scale immediately.

Problem	Solution
Inaccurate readings	Ensure the scale is on a hard, flat surface. Recalibrate by stepping on and off the scale.
No display	Check battery installation and ensure batteries are not depleted.
