

ieGeek ZY G1

ieGeek 2K Wi-Fi Outdoor Wireless 360° PTZ Surveillance Camera User Manual

Model: ZY G1

PRODUCT OVERVIEW

The ieGeek 2K Wi-Fi Outdoor Wireless 360° PTZ Surveillance Camera (Model ZY G1) is designed for comprehensive outdoor security. Featuring a 3MP resolution, it provides clear 2K video quality with color night vision up to 15 meters. The camera is equipped with a solar panel for continuous power, a rechargeable battery, and offers 360° pan and tilt capabilities for wide area monitoring. Advanced features include PIR human detection, sound and light alarms, two-way audio, and stable Wi-Fi connectivity.

SETUP AND INSTALLATION

Follow these steps to set up your ieGeek surveillance camera:

- 1. Charge the Battery:** Before initial use, ensure the camera's built-in rechargeable battery is fully charged using the provided USB cable. While the solar panel provides continuous power, a full initial charge is recommended.
- 2. Download the App:** Download the "ieGeek Cam" application from your smartphone's app store (available on Android and iOS).
- 3. Power On and Pair:** Turn on the camera. Open the ieGeek Cam app and follow the on-screen instructions to add your device. This typically involves scanning a QR code on the camera.
- 4. Choose Installation Location:** Select a suitable outdoor location for installation. Consider Wi-Fi signal strength (the app can help detect this), optimal sunlight exposure for the solar panel, and the desired monitoring area. The camera is IP65 waterproof, suitable for outdoor conditions.

5. **Mount the Camera:** Use the provided mounting plate, screws, and wall plugs to securely attach the camera to a wall or other stable surface. Ensure the solar panel is positioned to receive maximum direct sunlight.
6. **Connect Solar Panel:** Connect the solar panel cable to the camera's charging port.
7. **Verify Wi-Fi Connection:** After mounting, use the app to confirm a stable Wi-Fi connection. The dual-antenna design enhances signal stability.

Alimentazione a Batteria 100% Senza Fili

- Con Pannelli Solari**
- Cavo di ricarica USB**
- Durata fino a 150 giorni**

OPERATING THE CAMERA

The ieGeek Cam app is your primary interface for controlling and monitoring the camera.

Live View and PTZ Control

- Open the ieGeek Cam app to access the live feed from your camera.
- Use the on-screen joystick or swipe gestures to manually control the camera's 355° horizontal pan and 120° vertical tilt (PTZ) to monitor any angle of your property.

Monitoraggio panoramico a 360°

Image: A smartphone displaying the live feed from the ieGeek camera, with on-screen controls indicating 355° pan and 120° tilt capabilities for panoramic monitoring.

Motion Detection and Alarms

- The camera features PIR human detection. Adjust the sensitivity (levels 1-10) in the app to minimize false alarms.
- Upon detecting motion, you will receive instant notifications on your phone.
- The integrated siren and spotlight can be activated as an effective deterrent against intruders.

Allarme Notturno Acustico e Visivo

Avviso Audio

Night Vision

- The camera intelligently switches between day and night modes.
- It provides 2K color night vision up to 15 meters (49 feet) using an IR-CUT filter for clear image quality.
- The app supports manual zoom for live view.

Storage Options

- The camera supports local storage via a Micro SD card (up to 128GB).
- Cloud storage options are also available, including a free 6-second cycle cloud service.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your camera.

- Cleaning:** Periodically clean the camera lens and solar panel with a soft, damp cloth to remove dust, dirt, or debris that may obstruct vision or reduce charging efficiency. Avoid abrasive cleaners.
- Battery Monitoring:** While the solar panel provides continuous charging, monitor the battery level via the app, especially during prolonged cloudy periods. The battery can last up to 180 days on a single charge without solar input.
- Firmware Updates:** Check the ieGeek Cam app regularly for firmware updates to ensure your camera has the latest features and security enhancements.
- Environmental Protection:** The camera is IP65 waterproof, designed to withstand various weather conditions. However, ensure it is securely mounted to prevent damage from strong winds or impacts.

TROUBLESHOOTING

If you encounter issues with your ieGeek camera, refer to the following common solutions:

Problem	Possible Cause / Solution
Camera Offline / No Connection	<ul style="list-style-type: none">Check Wi-Fi signal strength in the ieGeek Cam app. Ensure the camera is within range of your 2.4GHz Wi-Fi network.Restart your Wi-Fi router and the camera.Ensure the camera's battery is charged.
Motion Detection Not Working / Too Many False Alarms	<ul style="list-style-type: none">Adjust PIR sensitivity settings (1-10) in the app.Define specific detection zones to exclude irrelevant areas.Ensure there are no obstructions blocking the sensor.
Poor Night Vision Quality	<ul style="list-style-type: none">Clean the camera lens to remove any smudges or dirt.Ensure there are no reflective surfaces close to the camera that might interfere with the IR lights.
Battery Not Charging via Solar Panel	<ul style="list-style-type: none">Ensure the solar panel is clean and free of debris.Verify the solar panel is positioned to receive direct sunlight for several hours daily.Check the connection cable between the solar panel and the camera.
