Rear Panel Ports:

Computer Live/Accompaniment connection method:

Tip: The sound card must be open, and the electric hoop is recognized by the sound card after the right. There will be an indication drive An Cheng (the same as the connecting side of the notebook and the computer, Oh Diao)

Figure 5: Rear panel ports of the V8 Live Sound Card.

- **Charging / Computer Interface:** USB port for charging and connecting to a computer.
- **Live 1 / Live 2:** Ports for connecting mobile phones for live broadcasting.
- **Accompaniment Interface:** For connecting an external audio source for background music.
- **Earphone Speaker:** Output for connecting external speakers or headphones.
- **Headset Interface:** For connecting a headset with a combined microphone and headphone jack.
- **Condenser Mic:** Input for condenser microphones.
- **Dynamic Mic:** Input for dynamic microphones.

5. SETUP

Follow these steps to set up your V8 Live Sound Card:

Initial Power On:

1. Ensure the sound card is charged or connected to a power source via the USB cable.
2. Press the **POWER** button on the front panel to turn on the device.

Connection Methods:

Figure 6: Computer Live/Accompaniment connection method.

- **For Computer Live/Accompaniment:**

- Connect the USB cable from the sound card's **Charging / Computer Interface** to your computer. The sound card should be automatically recognized.
- Connect your microphone to the **Condenser Mic** or **Dynamic Mic** input.
- Connect your headphones or speakers to the **Earphone Speaker** or **Headset Interface**.
- If using an accompaniment device (e.g., another phone for music), connect it to the **Accompaniment Interface** using an audio cable.

- **For Single Mobile Phone Live Broadcast:**

- Connect one audio cable from the sound card's **Live 1** or **Live 2** port to your mobile phone's audio jack. If your phone does not have a 3.5mm audio jack, use an audio adapter cable (not included).
- Connect your microphone to the appropriate mic input.
- Connect your headphones to the **Headset Interface** or **Earphone Speaker**.

- **For Dual Mobile Phone Live Broadcast:**

- Connect one audio cable from the sound card's **Live 1** port to your first mobile phone.

- b. Connect a second audio cable from the sound card's **Live 2** port to your second mobile phone.
- c. Connect your microphone and headphones as described above.

6. OPERATING INSTRUCTIONS

Once connected, you can begin using your V8 Live Sound Card:

- **Adjusting Volumes:** Use the large knobs for **MIC** and **ECHO**. Use the smaller knobs for **TREBLE**, **BASS**, **RECORD**, **MUSIC**, and **MONITOR** to fine-tune your audio levels.
- **Applying Sound Effects:** Press the various sound effect buttons on the front panel to activate different effects. Experiment with each button to find the desired sound.
- **Voice Change:** Utilize the
